**DEPARTMENT OF STATE****[Public Notice 4247]****International Joint Commission To Hold Hearings on Water Uses in the Great Lakes Basin**

The International Joint Commission (IJC) will hold a series of public hearings to obtain comment from the public on action taken by governments on the issue of water uses in the Great Lakes basin before reporting to the Governments of Canada and the United States. The hearings are scheduled to take place at the following dates and locations:

Toronto, January 20, 2003, City Hall, 100 Queen Street West, Toronto, Ontario, Council Chamber, 7 p.m.  
 Chicago, January 21, 2003, Drake Hotel, 140 East Walton Place, Chicago, Illinois, Michigan Room, 3 p.m. & 7 p.m.  
 Montréal, February 3, 2003, Queen Elizabeth Hotel, 900 René-Lévesque Blvd., Montréal, Québec, Room St. Maurice, 7 p.m.

The IJC published a comprehensive report entitled *Protection of the Waters of the Great Lakes* in 2000. In that report the IJC recommended that it review the issue after three years to provide an update on how matters had changed over that period of time. In late 2000 the governments subsequently agreed.

In June of last year, the Commission appointed the International Water Uses Review Task Force to assist it in carrying out the three-year review. The Task Force reviewed the many

technical, policy and legal developments that have taken place in the basin and reviewed actions taken by federal, state and provincial authorities to address the issues raised in the Commission's 2000 report.

The Task Force has now completed its work and submitted its report to the Commission. That report is available on the Commission's Web site: <http://www.ijc.org>. Hard copies of the report are also available from either one of the Commission's offices listed below. The report of the Task Force represents the views and analysis of the Task Force and not necessarily the views of the Commission. The Commission will prepare its report to governments based on its own analysis, the report of the Task Force, and comments received concerning the Task Force report and other related matters.

In addition to the public hearings listed above, the IJC invites all interested parties to submit written comment on this investigation to: Secretary, U.S. Section, 1250 23rd Street NW., Suite 100, Washington, DC 20440, Fax: 202.736.9015, [Commission@washington.ijc.org](mailto:Commission@washington.ijc.org).

Due to the security clearing of mail, communications with the IJC's Washington office should be by fax or email to ensure timely receipt. It would be most helpful if written comments were received by February 10, 2003.

The International Joint Commission is a binational Canada-U.S. organization established by the Boundary Waters Treaty of 1909. It assists the governments in managing waters along the border for the benefit of both countries in a variety of ways including examining issues referred to it by the two federal governments.

Dated: January 6, 2003.

## DEPARTMENT OF TRANSPORTATION

### Federal Highway Administration

#### Environmental Impact Statement; Carver and Scott Counties, MN

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of intent.

**SUMMARY:** The FHWA is issuing this notice to advise the public that a tier I Environmental Impact Statement (EIS) will be prepared for a proposal to improve capacity on Trunk Highway (TH) 41 between TH 169 and proposed TH 212, including a crossing of the Minnesota River, in Scott and Carver Counties, Minnesota. The east-west boundaries of the study area are between County State Aid Highway (CSAH)/TH 101 at the Chanhassen/Shakopee border and County Road 45 just west of Carver. the tier I EIS will include the analysis needed for a location decision.

**FOR FURTHER INFORMATION CONTACT:** Cheryl Martin, Federal Highway Administration, Galtier Plaza, 380 Jackson Street, Suite 500, St. Paul, Minnesota 55101, Telephone (651) 291-6120; or Brian Isaacson, Project Manager, Minnesota Department of Transportation—Metro Division, Water's Edge Building, 1500 West County Road B-2, Roseville, Minnesota 55113, Telephone (651) 582-1659.

**SUPPLEMENTARY INFORMATION:** The FHWA, in cooperation with the Minnesota Department of Transportation, will prepare tier I EIS on a proposal to improve capacity on TH 41 between proposed TH 212 and TH 169, the north-south limits of the study area. The east-west boundaries of the study area are between CSAH/TH 101 at the Chanhassen/Shakopee border and County Road 45 just west of the City of Carver in Scott and Carver

Counties, Minnesota. The proposed action is being considered to preserve an alignment for the construction of future highway capacity improvements, including a crossing of the Minnesota River, to address the need for improved capacity.

The tier I EIS will evaluate the social, economic, transportation and environmental impacts of alternatives, including: (1) no-build, (2) improvements to the existing TH 41 corridor, and (3) one or more new alignment alternatives for TH 41.

The tier II EIS will be prepared in approximately 15 years. At that time, design alternatives for the preferred alignment will be considered and environmental impacts and mitigation will be studied in greater detail. The construction of the preferred alternative is planned for implementation after the year 2020.

It is anticipated that the "TH41 Scoping Document/Draft Scoping Decision Document" will be published in approximately June 2003. A press release will be published to inform the public of the document's availability. Copies of the scoping document will be distributed to agencies, interested persons and libraries for review to aid in identifying issues and analyses to be contained in the tier I EIS. A 30 day comment period for review of the document will be provided to afford an opportunity for all interested persons, agencies and groups to comment on the proposed action. A public scoping meeting will also be held during the comment period. Public notice will be given for the time and place of the meeting. A tier I draft EIS will be prepared based on the outcome of the scoping process. Coordination has been initiated and will continue with appropriate Federal, State and local agencies and private organizations and citizens who have previously expressed or are known to have an interest in the proposed action. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.
