SUPPLEMENTARY INFORMATION:

I. Background and Purpose of the Proposed Alteration to Existing Privacy Act System of Records, the Claims Folders System, 60-0089

A. General Background

The Social Security Administration (SSA) plans to conduct several pilot projects designed to test and gather information on the use of photographic identification to address the issue of complicit impersonation in the disability and blindness claims process. The part of the disability and blindness determination process used by SSA to supplement existing medical evidence from treatment sources when there is not enough information to make a disability or blindness determination or decision is the consultative examination (CE). Complicit impersonation is accomplished when an individual posing as the intended claimant, and with the consent of the claimant, responds to a CE appointment in order to misrepresent the claimant's true medical condition or provides false or misleading information that affects eligibility during interviews with SSA field office employees.

SSA is promulgating temporary regulations that will provide the authority for us to require individuals filing for title II or title XVI disability and blindness benefits in the pilot sites to have their photograph taken. Once these regulations are promulgated, failure to comply with the pilot requirements will result in denial of benefits.

The claimant identification pilot projects will be in effect for a six-month period of time that will begin 30 days after final rules providing regulatory authority for the pilots are published in the **Federal Register**. The pilot sites include all SSA field offices in the States of South Carolina and Kansas; the Augusta, Georgia SSA field office; and nine SSA field offices located in New York City: Uptown (Manhattan); East Bronx (Bronx); Parkway (Bronx); West Farms (Bronx); Bushwick (Brooklyn); East New York (Brooklyn); Avenue X (Brooklyn); Flatbush (Brooklyn) and Flushing (Queens).

B. Pilot Methodology

Individuals filing for title II and title XVI disability and blindness benefits at a Social Security office in the pilot sites will be required to participate in the claimant identification pilots. In addition, individuals filing via the Internet or by telephone and who are later required to undergo CEs will be included in the pilots. Each individual will be asked to provide some form of photographic identification. This identification will be photocopied and the copy will be made part of his/her SSA claims folder. If the individual does not have photographic identification available or does not wish to provide it, SSA personnel will not require it but will follow identification procedures already in place.

Next, as part of the claimant identification pilots, individuals will be required to have a photograph taken by SSA personnel, regardless of whether the individual provides photographic identification for photocopying. (An exception to the photograph requirement will be permitted when an individual has a sincere religious objection.) A copy will be made of the image and placed in the individual's SSA claims folder. Images also will be stored electronically and accessed by authorized SSA and Disability Determination Service (DDS) personnel. If DDS personnel request a CE for the individual, a hard copy image of the photograph will be made available to the person conducting the CE. This will help to determine whether the individual appearing for the CE is the same individual who presented himself or herself as the individual filing for disability benefits. When the CE physician has not been provided with a photograph or a copy of a photographic identification previously made by SSA personnel, *e.g.*, the claim was filed via the Internet or by telephone, the CE physician will copy the individual's photographic identification and place it in the claims folder.

Additionally, this same requirement will be used to verify the identity of pilot participants during the duration of the pilots if they are required to appear for subsequent interviews including Continuing Disability Reviews, SSI Redeterminations, and appeals associated with a denial of a claim including any CEs associated with those appeals.

II. Impact of the Collection, Maintenance and Use of Pilot Data on SSA Privacy Act System of Records: The Claims Folders System

The *Claims Folders System* contains information that constitutes the basic record for payments and determinations made for program benefits under the Social Security Act. Included in claim folder records is identifying information about claimants for Social Security benefits.

We are proposing to revise the description of the categories of records maintained in the *Claims Folders System*. In connection with the claimant identification pilot projects SSA is conducting, records specifically collected for the pilot projects will be maintained in the claims folders of those individuals who file for title II or title XVI disability and blindness benefits for the duration of the pilot. The records include: photocopies of identification documents, photographs taken by field office personnel or a report of contact or other documentation explaining why an individual refused to allow SSA to take their photograph, flag on the folder indicating the case is part of the pilot, and the evaluation forms developed for the pilot.

III. Effect of the Proposed Alteration on the Rights of Individuals

SSA's implementation of the claimant identification pilots will result in the collection and maintenance of information to test the use of photograph identification to address the issue of complicit impersonation in the disability and blindness claims process. SSA will maintain photocopies of identification documents and photographs. We will afford individuals suspected of fraudulent activities all due process and other rights to which they are entitled. There is potential for an adverse effect on those individuals who refuse to be photographed for reasons other than a sincere religious objection. Failure to comply with the mandatory requirements of the pilot will result in denial of benefits.

Dated: March 25, 2003.

Jo Anne B. Barnhart,
Commissioner.

SYSTEM NAME:

Claims Folders System, Social Security Administration, Office of the General Counsel, Office of Public Disclosure.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

The claims folders initially are established and maintained in Social Security field offices when claims for benefits are filed or a lead is expected to result in a claim. Telephone and address information for Social Security field offices may be found in local telephone directories under Social Security Administration (SSA). This information can also be found on the Agency's Web site, Social Security Online. The claims folders are retained in field offices until all development has been completed, and then transferred to the appropriate processing center as set out below. In addition, the information provided by Social Security claimants on the application for benefits is maintained as a computerized record. The computerized records are maintained at the following address: Social Security Administration, Office of Systems, 6401 Security Boulevard, Baltimore, MD 21235.

Supplemental Security Income (SSI) claims folders are held in Social Security field offices pending establishment of a payment record, or until the appeal period in a denied claim situation has expired. The folders are then transferred to a folder-staging facility (FSF) in Wilkes-Barre, Pennsylvania. The address is: Social Security Administration, SSI Folder Staging Operations, Wilkes-Barre Data Operations Center, PO Box 7000, Wilkes-Barre, PA 18703.

Retirement and Survivors Insurance (RSI) claims folders are maintained primarily in the SSA's PSCs (contact the system manager at the address below for PSC address information). If the individual to whom the claim pertains resides outside the United States or any of its possessions, the folder is maintained in the Office of Central Operations (OCO) Rolling Heights Building (Megasite). The address for the Megasite is: 2255 Rolling Road, Baltimore, MD 21244.

Disability Insurance (DI) claims folders for individuals under age 55 are maintained primarily in the OCO Megasite (*see the address above*).

DI claims folders for disabled individuals age 55 and over are maintained in SSA's National Records Center (NRC). The address for the NRC is: 601 S. 291 Hwy., 6000 E. Geospace Dr., Independence, MO 64056.

If the individual to whom the claim pertains resides outside the United States or any of its possessions, DI claims folders for individuals are maintained in the OCO Megasite (*see the address above*).

Special Veterans Benefits (SVB) claims folders are held in Social

Security field offices and the Veterans Affairs Regional Office (VARO), Philippines pending establishment of a payment record or until the appeal period in a denied claim situation has expired. Contact the system manager for address information for SVB claims folders maintained in the VARO, Philippines. The VA data file associated with SVB claims is located in SSA's San Francisco Regional Office. The address is: Center for Infrastructure, Systems Support Staff, Frank Hagel Federal Building, 1221 Nevin Avenue, Richmond, California 94801.

In addition, claims folders are transferred to the General Services Administration and on occasion may be temporarily transferred to other Federal agencies. The DI claims folders also are transferred to State agencies for disability and vocational rehabilitation determinations. Contact the system manager for address information.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Claimants, applicants, beneficiaries and potential claimants for benefits and payments administered by the Social Security Administration (*e.g.*, title II RSI and DI benefits; and title VIII SVB and title XVI SSI payments). Folders also are maintained on claims that have been denied.

CATEGORIES OF RECORDS IN THE SYSTEM:

The claims folder contains the name and Social Security number of the claimant or potential claimant; the application for benefits; earnings record information established and maintained by SSA; documents supporting findings of fact regarding factors of entitlement and continuing eligibility; payment documentation; correspondence to and from claimants and/or representatives; information about representative payees; and leads information from third parties such as social service agencies, IRS, VA and mental institutions. There is also a VA data file associated with SVB claims. This data includes potential beneficiaries for title VIII SVB and will be used to help determine individuals' eligibility.

The claims folder also may contain data collected as a result of inquiries or complaints, and evaluation and measurement studies of the effectiveness of claims policies. Separate files may be maintained of certain actions, which are entered directly into the computer processes. These relate to reports of changes of address, work status, and other post-adjudicative reports. Separate files also temporarily may be maintained for the purpose of resolving problem cases.

Separate abstracts also are maintained for statistical purposes (*i.e.*, disallowances, technical denials, and demographic and statistical information relating to disability decisions).

In addition, the claims folder may contain information collected in connection with SSA's Claimant Identification Pilot Projects. This information includes: photocopies of identification documents, photographs taken by field office personnel or a report of contact or other documentation explaining why an individual refused to allow SSA to take their photograph, flag on the folder indicating the case is part of the pilot, and the evaluation forms developed for the pilot.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Claims folders may be referred to State disability determination services agencies or vocational rehabilitation agencies in disability cases. They may also be used for quality review, evaluation, and measurement studies, and other statistical and research purposes. Extracts may be maintained as interviewing tools, activity logs, records

of claims clearance, and records of type or nature of actions taken.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records generally are maintained manually in file folders. However, some records may be maintained in magnetic media (*e.g.*, on disk and microcomputer).

RETRIEVABILITY:

Claims folders are retrieved both numerically by SSN and alphabetically by name.

SAFEGUARDS:

Paper claims folders are protected through limited access to SSA records. Access to the records is limited to those employees who require such access in the performance of their official duties. All employees are instructed in SSA confidentiality rules as a part of their initial orientation training.

Safeguards for automated records have been established in accordance with the Systems Security Handbook. All magnetic tapes and disks are within an enclosure attended by security guards. Anyone entering or leaving this enclosure must have special badges, which are issued only to authorized personnel. All microfilm and paper files are accessible only by authorized personnel and are locked after working hours.

For computerized records, electronically transmitted between SSA's central office and field office locations (including organizations administering SSA programs under contractual agreements), safeguards include a lock/unlock password system, exclusive use of leased telephone lines, a terminal oriented transaction matrix, and an audit trail.

RETENTION AND DISPOSAL:

The retention periods for claims folders are as follows:

A. RSI CLAIMS FOLDERS

Folders for disallowed life and death claims, withdrawals, and lump-sum claims in which potential entitlements exist are transferred to the FRC after being so identified and then destroyed 10 years thereafter.

Folders for awarded claims where the last payment has been made and there is no future potential claimant indicated in the record are transferred to the FRC and then destroyed 5 years thereafter.

B. DI CLAIMS FOLDERS

Folders for DI denial claims are transferred to the FRC after expiration of

the reconsideration period and then destroyed 10 years thereafter.

Folders for terminated DI claims are transferred to the FRC after being identified as eligible for transfer and then destroyed 10 years thereafter.

C. SSI CLAIMS FOLDERS AND SVB FOLDERS

Folders for SSI and SVB death termination claims are destroyed 2 years after resolution of possible outstanding overpayments or underpayments. Folders for other SSI and SVB terminations are transferred to the FRC after termination and destroyed after 6 years, 6 months.

When a subsequent claim is filed on the SSN the claim folder is recalled from the FRC. Similarly, claims folders may be recalled from the FRC at any time by SSA, as necessary, in the administration of Social Security programs. When this occurs, the folder will be temporarily maintained in a Social Security field, regional or central office.

Separate files of actions entered directly into the computer processes are shredded or destroyed by heat after 1 to 6 months. Claims leads that do not result in a filing of an application are destroyed 6 months after the inquirer is invited by letter to file a claim.

All paper claim files are disposed of by shredding or the application of heat when the retention periods have expired.

SYSTEM MANAGER(S) AND ADDRESS:

Executive Director, Office of Public Disclosure, Office of the General Counsel, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235.

NOTIFICATION PROCEDURE:

When requesting notification, the individual should provide the type of claim he or she filed (RSI, DI, HI, BL special minimum payments, SSI or SVB). If more than one claim is filed, each should be identified, whether he/she is or has been receiving benefits, whether payments are being received under his or her own SSN, and if not, the name and SSN under which received, if benefits have not been received, the approximate date and place the claim was filed, and his/her address and/or telephone number. (Furnishing the SSN is voluntary, but it will make searching for an individual's record easier and prevent delay.)

An individual can determine if this system contains a record about him/her by writing to the systems manager(s) at the above address and providing his/her name, SSN or other information that may be in the system of records that will

identify him/her. An individual requesting notification of records in person should provide the same information, as well as provide an identity document, preferably with a photograph, such as a driver's license or some other means of identification. If an individual does not have any identification documents sufficient to establish his/her identity, the individual must certify in writing that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense.

If notification is requested by telephone, an individual must verify his/her identity by providing identifying information that parallels the record to which notification is being requested. If it is determined that the identifying information provided by telephone is insufficient, the individual will be required to submit a request in writing or in person. If an individual is requesting information by telephone on behalf of another individual, the subject individual must be connected with SSA and the requesting individual in the same phone call. SSA will establish the subject individual's identity (his/her name, SSN, address, date of birth and place of birth along with one other piece of information such as mother's maiden name) and ask for his/her consent in providing information to the requesting individual.

If a request for notification is submitted by mail, an individual must include a notarized statement to SSA to verify his/her identity or must certify in the request that he/she is the person claimed to be and that he/she understands that the knowing and willful request for, or acquisition of, a record pertaining to another individual under false pretenses is a criminal offense. These procedures are in accordance with SSA Regulations (20 CFR 401.40).

An individual who requests access to his or her medical records shall be given direct access to those records unless SSA determines that it is likely that direct access would adversely affect the individual. If SSA determines that direct access to the medical record(s) would likely adversely affect the individual, he or she must designate a responsible representative who is capable of explaining the contents of the medical record(s) to him or her and who would be willing to provide the entire record(s) to the individual. These procedures are in accordance with SSA Regulations (20 CFR 401.55).

A parent or guardian who requests notification of or access to a minor's medical record shall at the time he/she makes the request designate a physician or other health professional (other than a family member) who is capable of explaining the contents of the medical record(s) to him or her and who would be willing to provide the entire record(s) to the individual. These procedures are in accordance with SSA Regulations (20 CFR 401.55).

RECORD ACCESS PROCEDURES:

Same as notification procedures. Requesters should also reasonably specify the information they are seeking. These procedures are in accordance with SSA Regulations (20 CFR 401.40(c) and 401.55).

CONTESTING RECORD PROCEDURES:

Same as notification procedures. Requesters should also reasonably identify the record, specify the information they are contesting and state the corrective action sought and the reasons for the correction with supporting justification showing how the record is incomplete, untimely, inaccurate or irrelevant. These procedures are in accordance with SSA Regulations (20 CFR 401.65).

RECORD SOURCE CATEGORIES:

Information in this system is obtained from claimants, beneficiaries, applicants and recipients; accumulated by SSA from reports of employers or self-employed individuals; various local, State, and Federal agencies; claimant representatives and other sources to support factors of entitlement and continuing eligibility or to provide leads information.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE PRIVACY ACT:
