

Department of the Environment and the Department of Justice and is now subject to public comment, after which the United States and the State of Maryland may modify or withdraw their consent if comments received disclose facts or considerations which indicate that the Lessee Agreement is inappropriate, improper, or inadequate. The Lessee Agreement will resolve certain potential EPA claims under sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606 and 9607(a); sections 3008(h) and 7003 of RCRA, 42 U.S.C. 6928(h) and 6973 and MDE claims under Title 7, Subtitle 2 of the Environment Article of the Annotated Code of Maryland against SBER Harbor Point, LLC and Harbor Point Development, LLC (the "Lessees").

During its operation and ownership of the Property, Allied-Signal used the Property for chromium processing activities which contributed to chromium contamination in the soil and the groundwater at the Property. In June 1989, Region III, the MDE and Allied-Signal entered into a Consent Decree under RCRA under which Allied-Signal agreed to conduct an on-site and off-site investigation. As a result of those investigations, EPA and MDE chose a remedy for the Site which required Allied-Signal to, among other things, construct a hydraulic barrier to contain the contaminated groundwater and conduct perpetual monitoring.

EPA and MDE have determined that Honeywell, the current owner of the Property, is successfully completing the requirements under the Consent Decree. Upon entering a lease with the Lessees, Honeywell will still be required to complete and maintain the remedy as provided for under the Consent Decree.

For fifteen (15) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed Lessee Agreement. The Agency's response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, PA 19103.

DATES: Comments must be submitted on or before April 24, 2003.

Availability: The proposed Lessee Agreement and additional background information relating to the proposed Lessee Agreement are available for public inspection at the U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, PA 19103. A copy of the proposed Lessee Agreement may be obtained from Suzanne Canning, U.S. Environmental Protection Agency, Legal

Program Coordinator (3RC00), 1650 Arch Street, Philadelphia, PA 19103. Comments should reference the "Allied-Signal Prospective Lessee Agreement" and "RCRA-03-2003-0088TH," and should be forwarded to Suzanne Canning at the above address.

FOR FURTHER INFORMATION CONTACT: Sheila Briggs-Steuteville (3RC43), Senior Assistant Regional Counsel, U.S. Environmental Protection Agency, 1650 Arch Street, Philadelphia, PA 19103, Phone: (215) 814-2468.

Dated: April 2, 2003.

Donald S. Welsh,

Regional Administrator, Region III.

Lead-Based Paint Activities; State of North Dakota Lead-Based Paint Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; final approval of the State of North Dakota Lead-Based Paint Activities Program.

SUMMARY: On October 4, 2002, EPA received an application from the State of North Dakota requesting authorization to administer a Program in accordance with section 402 of the Toxic Substances Control Act (TSCA). Included in the application was a letter signed September 26, 2002, by the Governor of North Dakota, stating that the State's Lead-Based Paint Abatement Program is at least as protective of human health and the environment as the Federal program under TSCA section 402. Also, included was a letter from the Attorney General of North Dakota, certifying that the laws and regulations of the State provided adequate legal authority to administer and enforce TSCA section 402. North Dakota certifies that its program meets the requirements for approval of a State program under section 404 of TSCA and that North Dakota has the legal authority and ability to implement the appropriate elements necessary to enforce the program. Therefore, pursuant to section 404, the program is deemed authorized as of the date of submission. Today's notice announces the authorization of the State of North Dakota Lead-Based Paint Activities Program to apply in the State of North Dakota effective September 26, 2002.

DATES: The Lead-Based Paint Activities Program authorization was granted to the State of North Dakota on September 26, 2002.

FOR FURTHER INFORMATION CONTACT: Amanda Hasty, Lead Coordinator, Environmental Protection Agency, Region VIII, 8P-P3T, 999 18th St., Suite 300, Denver, CO 80202-2466; telephone: (303) 312-6966; e-mail address: hasty.amanda@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General

A. Does this Notice Apply to Me?

This notice is directed to the public in general. This notice may, however, be of interest to firms and individuals engaged in lead-based paint activities in North Dakota. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by the notice. If you have any questions regarding the applicability of this notice to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. Summary

On October 28, 1992, the Housing and Community Development Act of 1992, Public Law 102-550, became law. Title X of that statute was the Residential Lead-Based Paint Hazard Reduction Act of 1992. The Act amended TSCA (15 U.S.C. 2601 *et seq.*) by adding Title IV (15 U.S.C. 2681-92), titled "Lead Exposure Reduction."

Section 402 of TSCA (15 U.S.C. 2682) authorizes and directs EPA to promulgate final regulations governing lead-based paint activities in target housing, public and commercial buildings, bridges and other structures. On August 29, 1996 (61 FR 45777) (FRL-5389-9), EPA promulgated final TSCA section 402/404 regulations governing lead-based paint activities in target housing and child-occupied facilities (a subset of public buildings). These regulations are to ensure that individuals engaged in such activities are properly trained, that training programs are accredited, and that individuals engaged in these activities are certified and follow documented work practice standards. Under section 404 (15 U.S.C. 2684), a State or Indian Tribe may seek authorization from EPA to administer and enforce its own lead-based paint activities program.

States and Tribes that choose to apply for program authorization must submit a complete application to the appropriate Regional EPA Office for review. EPA will review those applications within 180 days of receipt

of the complete application. To receive EPA approval, a State or Tribe must demonstrate that its program is at least as protective of human health and the environment as the Federal program, and provides for adequate enforcement (section 404(b) of TSCA, 15 U.S.C. 2684 (b)). EPA's regulations (40 CFR part 745, subpart Q) provide the detailed requirements a State or Tribal program must meet in order to obtain EPA authorization.

A State may choose to certify that its lead-based paint activities program meets the requirements for EPA authorization, by submitting a letter signed by the Governor or the Attorney General stating that the program meets the requirements of section 404(b) of TSCA. Upon submission of such certification letter, the program is deemed authorized until such time as EPA disapproves the program application or withdraws the program authorization.

In accordance with 40 CFR 745.324(d), "Program Certification," the Governor of North Dakota submitted a self-certification letter to the EPA Administrator on September 26, 2002, certifying that the State program meets the requirements contained in 40 CFR 745.324(e)(2)(i) and (e)(2)(ii). Included in the application was a letter from the Attorney General of North Dakota, certifying that the laws and regulations of the State provided adequate legal authority to administer and enforce TSCA section 402.

Notice of North Dakota's application, a solicitation for public comment regarding the application was published in the **Federal Register** of January 8, 2003 (68 FR 1059) (FRL-7282-8). As determined by EPA's review and assessment, North Dakota's application successfully demonstrated that the State's Lead-Based Paint Activities Program achieves the protectiveness and enforcement criteria, as required for Federal authorization. Furthermore, no public comments were received regarding North Dakota's application. Therefore, as of September 26, 2002, the State of North Dakota is authorized to administer and enforce the lead-based paint program under TSCA section 402.

II. Federal Overfiling

TSCA section 404(b) (15 U.S.C. 2684(b)) makes it unlawful for any person to violate, or fail or refuse to comply with, any requirement of an approved State or Tribal program. Therefore, EPA reserves the right to exercise its enforcement authority under TSCA against a violation of, or a failure or refusal to comply with, any

requirement of an authorized State or Tribal program.

III. Withdrawal of Authorization

Pursuant to TSCA section 404(c), the Administrator may withdraw a State or Tribal lead-based paint activities program authorization, after notice and opportunity for corrective action, if the program is not being administered or enforced in compliance with standards, regulations, and other requirements established under the authorization. The procedures EPA will follow for the withdrawal of an authorization are found at 40 CFR 745.324(i).

IV. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before certain actions may take effect, the agency promulgating the action must submit a report, which includes a copy of the action, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this document in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

List of Subjects

Environmental protection, Hazardous substances, Lead, Reporting and recordkeeping requirements.

Dated: March 28, 2003.

Robert E. Roberts,

Regional Administrator, Region VIII.

Standards for the Use or Disposal of Sewage Sludge; Agency Response to the National Research Council Report on Biosolids Applied to Land and the Results of EPA's Review of Existing Sewage Sludge Regulations

AGENCY: Environmental Protection Agency.

ACTION: Notice, with request for comment.

SUMMARY: The Environmental Protection Agency is providing notice and requesting public comment on the Agency's preliminary review of

regulations under the Clean Water Act governing the use and disposal of sewage sludge. As part of this review, EPA commissioned the National Research Council (NRC) of the National Academy of Sciences to independently review the technical basis of the chemical and pathogen regulations applicable to sewage sludge that is applied to land. In July 2002, the NRC published a report entitled "Biosolids Applied to Land: Advancing Standards and Practices" in response to the EPA's request.

Today, the Agency is also announcing a strategy explaining how EPA plans to respond to the recommendations in the NRC report. Today's notice explains the rationale for the strategy and solicits public comments on the strategy.

In addition, EPA is announcing the preliminary results of its review of existing sewage sludge regulations under the Clean Water Act. At this time, EPA has not identified any additional toxic pollutants that warrant regulation in sewage sludge. The next step in identifying chemicals that may warrant regulation is to conduct a screening analysis of those chemicals for which adequate data and analytical methods are available and for which there is evidence that they may occur in sewage sludge. EPA plans to complete this screening analysis by January 2004. The terms "sewage sludge" and "biosolids" are used interchangeably in this notice.

DATES: EPA requests comments on all aspects of this notice. If you wish to submit comments on this action, you must do so by July 8, 2003.

ADDRESSES: Send your comments to: Water Docket, Environmental Protection Agency, Mailcode: 4101T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, Attention Docket ID No. OW-2003-0006. Comments may also be submitted electronically or through hand delivery/courier. Follow the detailed instructions for providing comments in section B of the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Arleen Plunkett, U.S. Environmental Protection Agency, Office of Water, Health and Ecological Criteria Division (4304T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460. (202) 566-1119. plunkett.arleen@epa.gov.
