I. Introduction

This notice announcing the availability of grants to State Domestic Violence Coalitions carries out several requirements in the FVPSA.

- The Department must use 10 percent of funds under the FVPSA for grants to State Domestic Violence Coalitions; and
- An application for a State coalition grant must meet the specific requirements in the statute covering eligibility and program activities.

In addition, grantees must meet other requirements, such as annual program and financial reporting and fiscal expenditure period requirements.

This notice provides information on all application requirements.

II. Background

As context for this FY 2003 notice, we wish to emphasize the importance of the work of the State Domestic Violence Coalitions and their activities and efforts leading to improved (more comprehensive and integrated) service delivery systems for victims of domestic violence and their dependents. Reducing domestic violence through coordinated prevention and services strategies is the primary goal of national efforts under the statute.

A. The Importance of Coordination of Services

The impact of domestic violence includes physical and psychological trauma, isolation from family and friends, harm to children witnessing or experiencing violence in homes in which the violence occurs, increased fear, reduced mobility and employability, homelessness, substance abuse, and a host of other health and related mental health consequences.

When programs that seek to address these issues operate independently of each other, a fragmented, and consequently less effective, prevention and service delivery system is the result. Coordination and collaboration among the police, prosecutors, the courts,

victim services providers, child welfare and family preservation services, and medical and mental health service providers is needed to provide more responsive and effective services to victims of domestic violence and their families. Faith and community based organizations should be included in the coordination and collaborative efforts. It is essential that all interested parties be involved in the design and improvement of intervention and prevention activities.

The significant correlation between domestic violence, child abuse and the use of welfare by battered women as an "economic escape route" also suggests the need to coordinate domestic violence intervention activities with programs that address child abuse, and the Temporary Assistance for Needy Families (TANF), the Federal welfare program, at the State and local levels.

B. Strengthening Prevention and Intervention Programs

Domestic violence prevention and services programs need to be inclusive in their efforts to address the needs of majority, as well as underserved, populations. Ethnic and rural communities face unique barriers in seeking services. Culture, language, and isolation can limit these populations from seeking assistance or communicating their needs. People with disabilities require special considerations regarding safety planning, transportation, and/or decreasing the risk of future violence.

Crisis intervention is essential in responding to domestic violence. Assessing the victim's safety, assessing the level of risk, and attending to the psychological and physical effects of trauma requires a coordinated effort among counselors, law enforcement, and medical personnel. Once these immediate needs are addressed, there is a need to continue comprehensive efforts throughout intervention, treatment, and future preventive services, for survivors, families, and perpetrators. These collective efforts could include: transitional housing assistance; child care; job skills training; mental health and substance abuse services to survivors and perpetrators; long-term support for survivors; coordination with adult and child protective services; and safe enforcement of child support for TANF and non-TANF families.

Domestic violence prevention programs may also extend to adolescents. The increasing incidence of date rape and violent adolescent relationships indicate the need to provide educational programs and

intervention prior to adulthood. Adolescents may have witnessed domestic violence as a child, experienced abuse directly, or themselves been perpetrators of abusive behavior. Studies on the prevention of domestic abuse and violence in interpersonal relationships suggest that youth education may represent an effective community action to reduce the incidence of violence in adolescent relationships.

Perpetrators of domestic violence often have multiple problems that contribute to their battering behavior, such as alcohol or drug abuse, insecurity or extreme jealousy, lack of self discipline or criminal behavior, or severe reactions to stress. Consequently, services for perpetrators may be more effective through coordinated efforts with substance abuse, mental health, and criminal justice programs.

Witnessing violence as a child is an important risk factor for being a victim or perpetrator of violence later in life. Developing innovative strategies for identifying and treating child witnesses is an under-explored potential avenue for preventing violence. Providing home visitation services, integrating children into shelter services with survivors, and providing long-term education and outreach can reduce the potential for these children to domestic violence as adults.

Attachment C**CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE**

Public Law 103227, Part C Environmental Tobacco Smoke, also known as the Pro Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor routinely owned or leased or contracted for by an entity and used routinely or regularly for provision of health, day care, education, or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law does not apply to children's services provided in private residences, facilities funded solely by Medicare or Medicaid funds, and portions of facilities used for inpatient drug or alcohol treatment. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1000 per day and/or the imposition of an administrative compliance order on the responsible entity. By signing and submitting this application the applicant/grantee certifies that it will comply with the requirements of the Act.

The applicant/grantee further agrees that it will require the language of this certification be included in any subawards which contain provisions for the children's services and that all subgrantees shall certify accordingly.

Attachment D**CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS**

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central point is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
3. For grantees other than individuals, Alternate I applies.
4. For grantees who are individuals, Alternate II applies.
5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;
- (f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted --
- (1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
 - (2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

BILLING CODE 4184-01-C

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Food and Drug Administration****[Docket No. 84N-0102]****Cumulative List of Orphan Drug and Biological Designations****AGENCY:** Food and Drug Administration, HHS.**ACTION:** Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of the cumulative list of orphan drug and biological designations as of December 31, 2002. FDA has announced the availability of previous lists, which are updated monthly, identifying the drugs and biologicals granted orphan designation under the Federal Food, Drug, and Cosmetic Act (the act).

ADDRESSES: Copies of the cumulative list of orphan drug and biological designations are available from the Dockets Management Branch (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852, and the Office of Orphan Products Development (HF-35), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-3666.

FOR FURTHER INFORMATION CONTACT:

Jeffrey Fritsch, Office of Orphan Products Development (HF-35), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-3666.

SUPPLEMENTARY INFORMATION: FDA's Office of Orphan Products Development (OPD) reviews and takes final action on applications submitted by sponsors seeking orphan designation of their drug or biological under section 526 of the act (21 U.S.C. 360bb). In accordance with this section of the act, which requires public notification of designations, FDA maintains a cumulative list of orphan drug and biological designations. This list includes the name of the drug or biological, the specific disease/condition for which the drug or biological is designated, and information about the sponsor such as the name, address, telephone, and contact.

At the end of each calendar year, the agency publishes a cumulative list of orphan drug and biological designations current through the calendar year. The

list that is the subject of this notice is the cumulative list of orphan drug and biological designations through December 31, 2002, and, therefore, brings the June 7, 2002 (67 FR 39409) publication up to date. This list is available upon request from the Dockets Management Branch (see **ADDRESSES**). Those requesting a copy should specify Docket No. 84N-0102, which is the docket number for this notice. In addition, the list is updated monthly and is available upon request from OPD or the FDA's Dockets Management Branch (see **ADDRESSES**). The current list is also available on the Web site at <http://www.fda.gov/orphan>.

The orphan designation of a drug or biological applies only to the sponsor who requested the designation. Each sponsor interested in developing a drug or biological for an orphan indication must apply for orphan designation in order to obtain exclusive marketing rights. Any request for designation must be received by FDA before the submission of a marketing application for the proposed indication for which designation is requested (21 CFR 316.23). Copies of the orphan drug regulations (21 CFR part 316) (57 FR 62076, December 29, 1992) and explanatory background materials for use in preparing an application for orphan designation may be obtained from OPD (see **ADDRESSES**).

The names of the drugs and biologicals shown in the cumulative list of orphan designations may change upon marketing approval/licensing, reflecting the established, proper name approved by FDA. Because drugs and biologicals not approved/licensed for marketing are investigational, the appropriate established, proper name has not necessarily been assigned.

Dated: April 4, 2003.

Jeffrey Shuren,

Assistant Commissioner for Policy.
