

circumstances so dictate. The Bureau will do so by announcement in the Automated Auction System. The Bureau seeks comment on these proposals.

#### F. Last and Best Bids

66. The Bureau proposes to allow bidders that wish to drop out of the auction or that believe they are about to lose their bidding eligibility to have an opportunity before they drop out to place up to two mutually exclusive sets of "last and best" bids on any licenses or packages for which they remain eligible. This is a limited exception to minimum acceptable bids and to click-box bidding. Such bids may be of any amount (in thousand dollar increments) between the bidder's previous high bid on the license or package and the amount of the highest acceptable bid for the license or package in the current round (the eighth increment above the minimum acceptable bid). If a bidder chooses this option, it will not be permitted to make any further bids during the auction. The Bureau seeks comment on this proposal.

#### G. Renewed Bids

67. Without regard to the minimum acceptable bid requirement, the Bureau proposes to allow a bidder to "renew" in the current round the highest previous bid it made on any license or package; that is, it may resubmit the bid without increasing the amount bid. No eligibility activity or bidding activity is conferred for renewing a non-provisionally winning bid. Renewed provisionally winning bids confer bidding activity (non-renewed provisionally winning bids count toward eligibility activity). Renewed bids will be treated as being made in the current round.

68. Renewals provide bidders a means to ensure that bids from previous rounds are considered in addition to the bids placed in the current round. Otherwise, bids made in different rounds are treated as mutually exclusive, so that the bidder may win some or all of the bids from the current round, or a previous round, but not both. The Bureau seeks comment on this proposal.

#### H. Information Regarding Bid Removal and Bid Withdrawal

69. For Auction No. 51, the Bureau proposes the following bid removal procedures. Before the close of a bidding period, a bidder has the option of removing any bid placed in that round. By removing selected bids in the bidding system, a bidder may effectively "unsubmit" any bid placed within that round. A bidder removing a bid placed

in the same round is not subject to a withdrawal payment. Once a round closes, a bidder may no longer remove a bid.

70. The Bureau proposes for Auction No. 51 that bidders not be permitted, in any round, to withdraw bids made in previous rounds. With the implementation of package bidding, bidders should not face exposure risks as they might in a simultaneous multiple round auction design. Bid withdrawal was designed to allow bidders to back out of failed aggregations—to avoid winning some licenses that are worth little to them without the others they need to implement their business plan. Therefore, to the extent that bids are allowed on all packages of licenses with significant complementarities, the use of withdrawals to mitigate such risk is no longer necessary. The Bureau seeks comment on this proposal.

#### I. Stopping Rule

71. The Bureau has discretion "to establish stopping rules before or during multiple round auctions in order to terminate the auction within a reasonable time." For Auction No. 51 the Bureau proposes to employ a two-round simultaneous stopping rule. A two-round simultaneous stopping rule means that all licenses remain open until two consecutive rounds have occurred in which no new bids are received. After the second consecutive such round, bidding closes simultaneously on all licenses. Thus, unless circumstances dictate otherwise, bidding would remain open on all licenses until bidding stops on every license. Renewed bids are not considered new bids for purposes of the stopping rule; in other words, a round in which the only bids that are placed are renewed bids is considered a round with no new bids for purposes of the stopping rule. Last and best bids are considered new bids for purposes of the stopping rule. The Bureau seeks comment on this proposal.

72. The Bureau proposes to reserve the right to declare that the auction will end after a specified number of additional rounds ("special stopping rule"). The Bureau proposes to exercise this option only in certain circumstances, such as, for example, where the auction is proceeding very slowly, there is minimal overall bidding activity, or it appears likely that the auction will not close within a reasonable period of time. Before exercising this option, the Bureau is likely to attempt to increase the pace of the auction by, for example, increasing the number of bidding rounds per day,

and/or increasing the minimum acceptable bids. The Bureau seeks comment on these proposals.
