

control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4.8 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Publicly owned treatment works (POTWs), privately owned treatment works, new and existing industrial manufacturing and commercial discharger, storm water dischargers, treatment works treating domestic sewage (TWTDS), and States and territories.

Estimated Number of Respondents: 291,898.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 1,398,737 hours.

Estimated Total Annual Cost: \$53,546,024, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 639,957 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in the applicant respondent and NPDES-authorized state burden is due to a reduction in the burden associated with existing storm water permittees updating rather than developing Storm Water Pollution Prevention Plans.

Title: NSPS for the Phosphate Fertilizer Industry (40 CFR part 60, subparts T, U, V, W, and X), OMB Control No. 2060-0037, EPA ICR No. 1061.09. This is a request to renew an existing, approved collection that is scheduled to expire on June 30, 2003. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The NSPS for the Phosphate Fertilizer Industry, published at 40 CFR part 60, subparts T, U, V, W, and X,

were proposed on October 22, 1974 and promulgated on August 6, 1975. These standards apply to each wet-process phosphoric acid plant, each superphosphoric acid plant, each granular diammonium phosphate plant, and each triple superphosphate plant, having a design capacity of more than 15 tons of equivalent phosphorous pentoxide (P₂O₅) feed per calendar day. These standards also apply to granular triple superphosphate storage facilities.

Owners or operators of affected facilities described must make the following one-time-only initial notifications and reports on the results of the initial performance test. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. The owners or operators must install, calibrate, maintain, and operate a monitoring device which continuously measures and permanently records the total pressure drop across the scrubbing system.

Also required are semiannual reports. The owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements. Responses to the collection of information are mandatory and are being collected to assure compliance with 40 CFR part 60, subparts T, U, V, W, and X. These notifications, reports and records are essential in determining compliance.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 46 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and

requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Phosphate Fertilizer Industry.

Estimated Number of Respondents: 13.

Frequency of Response: Initial and Semiannual.

Estimated Total Annual Hour Burden: 1,194.

Estimated Total Annualized Operations and Maintenance Cost: \$320,000.

Changes in the Estimates: There is an increase of 231 hours and \$320,000 in the total estimated burden currently identified in the OMB Inventory of approved ICR burdens. This is due to an increase in the number of sources and a reconsideration of the operation and maintenance costs for the required continuous emission monitors.

Dated: April 10, 2003.

National Tribal Conference on Environmental Management; Notice of Proposal Solicitation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is requesting proposals from federally recognized Indian tribes or intertribal consortia to co-sponsor the 7th National Tribal Conference on Environmental Management (NTCEM). EPA will be the federal sponsor. The Tribal Conference will provide an opportunity for tribal leaders, tribal environmental managers, tribal organizations, federal agencies, and other interested entities/persons to share information about tribal environmental programs and discuss issues of vital interest to Indian country. The scope of the conference traditionally encompasses multi-media environmental issues involving tribes. The goals for the conference are to facilitate tribal environmental programs; establish stronger networks and relationships across environmental efforts in Indian country; identify shared lessons learned; and familiarize

tribes with the full extent of tribal and EPA program environmental activities. EPA will award a cooperative agreement to the selected host tribe to co-sponsor the conference, including personnel, planning, facilities, and management expenses.

DATES: Proposals must be received or postmarked by June 23, 2003.

A conference call for potential applicants to ask questions or seek pre-application assistance is scheduled for May 7, 2003, from 2 p.m. to 4:30 p.m. eastern standard time. Please call Caren Rothstein-Robinson at (202) 564-0544 to obtain the conference call telephone number and the access code.

ADDRESSES: Mail proposals via the U.S. Postal Service (including express and priority mail) to: Clara Mickles, Environmental Protection Agency, American Indian Environmental Office, Mail code 4104M, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

Mail proposals via commercial overnight delivery service (e.g., FedEx, DHL, UPS) to: Clara Mickles, Environmental Protection Agency, American Indian Environmental Office, Room 3334, EPA East, Mail code 4104M, 1201 Constitution Ave., NW., Washington, DC 20004.
