#### **I. What Action Is EPA Taking Today?**

The EPA is proposing to approve a requested revision to the Illinois SIP, affecting air permit rules, submitted on August 31, 1998. The submittal revises provisions for major modifications to stationary sources to align more closely with the Clean Air Act (CAA). The CAA sets forth the criteria for determining the applicability of the nonattainment NSR requirements in a serious or severe ozone nonattainment area.

#### **II. Where Can I Find More Information About This Proposal and Corresponding Direct Final Rule?**

#### **Revisions to Federal Operating Permits Program Fee Payment Deadlines for California Agricultural Sources**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to amend the Federal Operating Permits Program under title V of the Clean Air Act (Act) to extend the date by which State-exempt major agricultural sources in California must pay fees and to allow their permit applications to be considered complete even though fees may not have been paid on or before the date that applications are due. This action would allow EPA to process the applications and issue permits while the Agency computes a fee amount based on the cost of administering the permits

program for these sources. The proposed amendments would extend the due date for submitting operating permit fees to EPA until May 14, 2004, for agricultural sources that are major sources subject to title V but are not being permitted by 35 local air districts in the State of California. In the “Rules and Regulations” section of today’s **Federal Register**, we are issuing the amendments as a direct final rule, without prior proposal, because we view the revisions as noncontroversial and anticipate no significant adverse comments. We have explained our reasons for this approval in the preamble to the direct final rule. If we receive no adverse comment, we will not take further action on this proposed rule. If we receive adverse comment, we will withdraw the direct final rule and it will not take effect. We will address all public comments in a subsequent final rule based on this proposed rule. We will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.

**DATES:** Written comments must be received by June 12, 2003.

**ADDRESSES:** Comments may be submitted by mail to EPA Docket Center (Air Docket), U.S. EPA West (MD-6102T), Room B-108, 1200 Pennsylvania Avenue, NW., Washington, DC, 20460, Attention Docket ID No. OAR-2003-0047.

Comments may also be submitted electronically, by facsimile, or through hand delivery/courier. Follow the detailed instructions as provided in the **SUPPLEMENTARY INFORMATION** section.

**FOR FURTHER INFORMATION CONTACT:** For further information, contact Ms. Candace Carraway, U.S. EPA, Information Transfer and Program Implementation Division, C304-04, Research Triangle Park, North Carolina 27711, telephone number (919) 541-3189, facsimile number (919) 541-5509, electronic mail address: [carraway.candace@epa.gov](mailto:carraway.candace@epa.gov).

### Comments

You may submit comments electronically, by mail, by facsimile, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period.

Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

### Electronically

If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

### EPA Dockets

Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket>, and follow the online instructions for submitting comments. To access EPA's electronic public docket from the EPA Internet Home Page, select "Information Sources," "Dockets," and "EPA Dockets." Once in the system, select "search," and then key in Docket ID No. OAR-2003-0047. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

### E-mail

Comments may be sent by electronic mail (e-mail) to [air-and-r-docket@epa.gov](mailto:air-and-r-docket@epa.gov), Attention Docket ID No. OAR-2003-0047. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the

comment that is placed in the official public docket and made available in EPA's electronic public docket.

### What Are the Administrative Requirements for This Action?

*Regulatory Flexibility Act (RFA), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), 5 U.S.C. 601 et seq.*

The RFA generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For purposes of assessing the impacts of today's rule on small entities, small entity is defined as (1) a small business that meets the Small Business Administration size standards for small

businesses found in 13 CFR 121.201; (2) a small governmental jurisdiction that is a government of a city, country, town, school district or special district with a population of less than 50,000; and (3) a small organization that is a not-for-profit enterprise which is independently owned and operated and is not dominant in its field.

After considering the economic impacts of today's proposed rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. In determining whether a rule has significant economic impact on a substantial number of small entities, the impact of concern is any significant adverse economic impact on small entities, since the primary purpose of the regulatory flexibility analyses is to identify and address regulatory alternatives "which minimize any significant economic impact of the proposed rule on small entities" (5 U.S.C. 603 and 604). Thus, an agency may certify that a rule will not have a significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, or otherwise has a positive economic effect on all of the small entities subject to the rule. The amendments in today's proposed rule would merely defer the deadline for paying permit fees for sources affected by the proposed rule, thereby giving them more flexibility and reducing the burden on these sources. We have therefore concluded that today's proposed rule will relieve regulatory burden for all small entities. We continue to be interested in the potential impacts of the proposed rule on small entities and welcome comments on issues related to such impacts.

For information regarding other administrative requirements for this action, please see the direct final rule action that is located in the Rules and Regulations section of this **Federal Register**.

#### Project XL Site-specific Rulemaking for Anne Arundel County Millersville Landfill, Severn, MD

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is publishing this proposed site-specific rule to implement a project under the Project eXcellence and Leadership (Project XL) program, an EPA initiative which encourages regulated entities to achieve better environmental results at decreased costs at their facilities. Today's proposal would provide site specific regulatory flexibility under the Resource Conservation and Recovery Act (RCRA), for the Anne Arundel County Millersville Landfill and Resource Recovery Facility, Severn, Maryland (the Landfill). The Landfill is owned and operated by Anne Arundel County (the County).

The County, the State of Maryland, and EPA signed a Final Project Agreement (FPA) for this project, which would allow for the addition of liquids to this landfill. The addition of liquids to landfills accelerates the biodegradation of landfill waste and is allowed for certain prescribed liner designs under current RCRA municipal solid waste landfill (MSWLF) regulations. The principal objective of this XL project to demonstrate that the alternative liner design at the Landfill is as protective as the liner prescribed in current RCRA municipal solid waste landfill regulations over which leachate recirculation is allowed under existing RCRA regulations.

The County Landfill is one of several landfills, located in different geographic and climatic regions across the country, that under Project XL are testing this bioreactor technology over alternative liner designs. In order to carry out this project, the Landfill needs relief from certain requirements in EPA regulations which set forth design and operating criteria for MSWLFs, requirements which would otherwise preclude the addition of liquids at this landfill. If promulgated, today's proposed rule would allow the addition of Landfill leachate and onsite storm water to a designated (approximately 160 by 200 foot) portion of Cell 8.4 at the Landfill. Expected benefits of this project include

accelerated biodegradation of the Landfill waste, decreased time for the waste to reach stabilization and improved management of leachate and storm water.

Requests for a public hearing should be submitted to the address below.
