

SUMMARY: This action changes the controlling agency for Restricted Area R-6601, Fort A.P. Hill, VA, from "FAA, Richmond ATCT," to "FAA, Potomac Approach"; and the controlling agency for Restricted Areas R-6608A, R-6608B, and R-6608C, Quantico, VA, from "FAA, Dulles ATCT," to "FAA, Potomac Approach." This change is needed due to the airspace realignments associated with the establishment of the Potomac Consolidated Terminal Radar Approach Control (TRACON) facility. The new Potomac TRACON will assume air traffic control (ATC) responsibility for the airspace encompassing these restricted areas. This is only an administrative change to reflect the name of the proper controlling ATC facility. The change will not affect the current restricted area boundaries, altitudes, time of designation, or the activities conducted within the areas.

EFFECTIVE DATE: 0901 UTC, February 20, 2003.

SUPPLEMENTARY INFORMATION:

Background

The commissioning of the new Potomac TRACON will consolidate several air traffic facilities that currently provide ATC service in the greater Washington, DC, area. This consolidation includes two facilities (*i.e.*, Dulles Airport Traffic Control Tower (ATCT) and Richmond ATCT) that are currently designated as the controlling agencies for Restricted Areas R-6601, R-6608A, R-6608B, and R-6608C. With Potomac TRACON assuming responsibility for the airspace encompassing these restricted areas, the FAA is taking action to change the name of the controlling agency to "Potomac Approach."

The Rule

This action amends 14 CFR part 73 by changing the name of the controlling agency for Restricted Area R-6601, Fort A.P. Hill, VA, from "FAA, Richmond ATCT" to "FAA, Potomac Approach." In addition, this action changes the name of the controlling agency for Restricted Areas R-6608A, R-6608B, and R-6608C, Quantico, VA, from "FAA, Dulles ATCT" to "FAA, Potomac Approach." These administrative changes will not alter the boundaries, altitudes, time of designation, or activities conducted within the

restricted areas; therefore, I find that notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

Section 73.66 of part 73 was republished in FAA Order 7400.8K, dated September 26, 2002.

This regulation is limited to an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. It has been determined that this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This action is a minor administrative change to amend the designated controlling agency of existing restricted areas. There are no changes to air traffic procedures or routes as a result of this action. Therefore, this action is not subject to environmental assessments and procedures in accordance with FAA Order 1050.1D, "Policies and Procedures for Considering Environmental Impacts," and the National Environmental Policy Act of 1969.

Amendment to Using Agency for Restricted Area 2301E, Ajo East, AZ; Restricted Area 2304, Gila Bend, AZ; and Restricted Area 2305, Gila Bend, AZ

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action changes the using agency of restricted area 2301E (R-2301E), East Ajo AZ; R-2304, Gila Bend AZ; and R-2305, Gila Bend AZ, from "US Air Force, 58th Fighter Wing, Luke AFB, AZ," to "U.S.A.F., 56th Fighter Wing, Luke AFB, AZ." The FAA is taking this action in response to a request from the United States Air Force (USAF) to reflect an administrative change of responsibility for the restricted areas. There are no changes to the boundaries; designated altitudes; time of designation; or activities conducted within the affected restricted areas.

SUPPLEMENTARY INFORMATION:

The Rule

This amendment to 14 Code of Federal Regulations (CFR) part 73 changes the using agency of R-2301E, East Ajo, AZ; R-2304, Gila Bend, AZ; and R-2305, Gila Bend, AZ. On November 8, 2002, the United States Air Force requested that the FAA change the using agency for R-2301E, R-2304, and R-2305, from "US Air Force, 58th Fighter Wing, Luke AFB, AZ," to "US Air Force, 56th Fighter Wing, Luke AFB, AZ." This action addresses that request. This is an administrative change and does not affect the boundaries; designated altitudes; or activities conducted within the restricted areas. Therefore, notice and public procedures under 5 U.S.C. 553(b) are unnecessary.

Section 73.48 of part 73 of the Federal Aviation Regulations was republished in FAA Order 7400.8K dated September 26, 2002.

The FAA has determined that this action only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1D, Policies and Procedures for Considering Environmental Impacts. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
