#### Description of Information Collections

*Title:* Record of Pooled Farm Allotment or Quota.

*OMB Control Number:* 0560-0033.

*Form Number:* MQ-177.

*Type of Request:* Reinstatement With Revision of a Previously Approved Information Collection.

*Abstract:* The 'Record of Pooled Farm Allotment or Quota' form is used to record tobacco allotments or quotas that are to be held in a reserve 'pool' for landowners who have been displaced because their farms have been taken by power of 'eminent domain' by a Federal, State, or other agency either by court proceedings to condemn the land or by negotiation between the agency and the owner of the land. When an owner is displaced from a farm in such a way, she/he shall notify the FSA County Committee at the FSA County office that serves that farm so that the farm allotment or quota may be placed in an eminent domain pool. The allotment or quota thus placed in a pool is held for the displaced owners to transfer to other farms they own or may purchase. An owner must request transfer of the allotment or quota from the pool within 3 years from the date of displacement from the farm to which the allotment or quota originally belonged. Pooled allotments or quotas shall be considered fully planted and, for each year in the pool, shall be established in accordance with tobacco marketing quota regulations. (An owner is a person, or persons in a joint ownership, having title to the land for a period of at least 12 months immediately prior to the date of eminent domain acquisition.)

*Estimate of Annual Burden:* 50 minutes.

### Forest Service

#### Information Collection; Aviation Forms

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice; request for comment.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the Forest Service is seeking comments from all interested individuals and organizations on the extension of the currently approved collection of four aviation forms that assist in the documentation of pilot and aircraft qualifications, approval, and data records. These OMB approved forms include: (1) Airplane Pilot Qualifications and Approval Record (FS-5700-20); (2) Helicopter Pilot Qualifications and Approval Record (FS-5700-20a); (3) Airplane Data Record (FS-5700-21); (4) and Helicopter Data Record (FS-5700-21a).

#### SUPPLEMENTARY INFORMATION:

**Title:** Airplane Pilot Qualifications and Approval Record (FS-5700-20), Helicopter Pilot Qualifications and Approval Record (FS-5700-20a), Airplane Data Record (FS-5700-21),

and Helicopter Data Record (FS-5700-21a).

**OMB Number:** 0596-0015.

**Expiration Date of Approval:** May 31, 2003.

**Type of Request:** Extension with revision.

**Abstract:** The Forest Service contracts with approximately 400 vendors for aviation services that are utilized in resource protection and project management. Total annual use of contract aircraft and pilots in recent years has exceeded 100,000 hours. Hence, in order to maintain an acceptable level of safety, mission preparedness, and cost effectiveness in aviation operations, Forest Service contracts call for rigorous qualifications for pilots and specific condition; equipment and performance requirements for aircraft. Aviation operations are conducted under extremely adverse conditions of weather, terrain, turbulence, smoke reduced visibility, minimally improved landing areas, and congested airspace around wildfires.

To ensure agency contracting officers that the pilots and aircraft meet the specific Forest Service qualifications and other requirements for aviation operations, prospective contract pilots must provide the information on the FS-5700-20 and FS-5700-20a forms. Contract Officers' Technical Representatives use the FS-5700-21 and FS-5700-21a forms as worksheets when checking the aircraft for contract compliance. A portion of the completed form is furnished to the contractor as proof of compliance.

The following changes were incorporated into the forms: (1) Below the title of each of the existing forms is a Reference to FSH 5709.12. This handbook no longer exists. The replacement reference should read FSH 5709.16. (2) Forms FS-5700-21 (Airplane Data Card) and FS-5700-21a (Helicopter Data Card) reflect the many changes that have occurred in the contracting and aircraft approval process since the forms were last updated. The basic changes consist of removing some unnecessary information from the "cards," and adding information to the "Authorized Uses" blocks. In the other sections of the form the changes reflect the deletion of unneeded information and the addition of blocks to meet new requirements such as updated Avionics and Synthetic Long-Line requirements.

Without the information supplied on these forms, Forest Service contracting officers and pilot and aircraft inspectors cannot determine if pilots and aircraft meet the detailed qualification,

equipment, and condition requirements essential to safe, effective accomplishment of Forest Service specified flying missions. Without reasonable basis to determine pilot qualifications and aircraft capability, Forest Service employees using these resources would be unnecessarily exposed to flying hazards.

The completed forms are maintained in Forest Service Regional headquarters under the care of the Regional aviation pilot and aircraft inspectors. Copies of the forms may be shared with the Office of Aircraft Services, Department of Interior, since each organization accepts contract inspections conducted by the other as meeting their own requirements.

The data collected from these forms will be used to document the basis for approval of contract pilots and aircraft for specific Forest Service aviation missions. Based upon the approvals documented on these forms, approval cards are issued to each contractor pilot and for each contractor aircraft. Forest Service personnel verify possession of properly approved cards before using contractor pilots and aircraft.

The information will be collected and revised by contracting officers or their representatives including the aircraft inspectors, and will represent data that determines whether the aircraft and/or pilots meet all contract specifications in accordance with Forest Service Handbook 5709.16, chapter 10, section 16. If the information is not collected by the Forest Service, the burden of collection, inspection and approval will be placed on another agency, most likely the Federal Aviation Administration. However, a joint study, conducted with the Department of Transportation, concluded that the Forest Service can complete their contract inspections more economically than by transferring this additional responsibility to the Federal Aviation Administration.

**Estimate of Annual Burden:** One hour.

**Type of Respondents:** Aircraft vendors that wish to contract with the Federal government for aircraft services and pilots.

**Estimated Annual Number of Respondents:** Hundreds of vendors will respond each year. Each of these vendors may have multiple aircraft and pilots.

**Estimated Annual Number of Responses per Respondent:** Contract vendors will be required to provide one response per year for each aircraft and pilot that will be involved with a Federal contract.
