This Notice also lists the following information:

Title of Proposal: Section 8 Random Digit Dialing Fair Market Rent Telephone Survey.

OMB Control Number: 2528-0142.

Description of the need for the information and proposed use: This provides HUD with a fast, inexpensive way to estimate and update Section 8 Fair Market Rents (FMRs) in areas not covered by AHS or CPI surveys, and in areas where FMRs are believed to be incorrect. It also provides estimates of annual rent changes. Section 8(C)(1) of the United States Housing Act of 1937 requires the Secretary to publish Fair Market Rents (FMRs) annually to be effective on October 1 of each year. FMRs are used for the Section 8 Rental Certificate Program (including space rentals by owners of manufactured homes under that program); the Moderate Rehabilitation Single Room

Occupancy program; housing assisted under the Loan Management and Property Disposition Programs; payment standards for the Rental Voucher Program; and any other programs whose regulations specify their use.

Random digit dialing (RDD) telephone surveys have been used for several years to adjust FMRs. These surveys are based on a sampling procedure that uses computers to select statistically random samples of telephone numbers to locate certain types of rental housing units for surveying. HUD contracts with a private company to conduct two types of RDD surveys: (1) Approximately 50 individual FMR areas are surveyed every year to test the accuracy of their FMRs; (2) In addition, 20 RDD surveys are conducted very year to provide updating factors for FMRs not surveyed individually and for Annual Adjustment Factors (AAFs). These surveys are conducted in the non-metropolitan portions of all 10 HUD regions, and in the 10 metropolitan portions of the regions that do not have their own Consumer Price Index (CPI) surveys.

Members of affected public: Individuals or households living in areas surveyed.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

	Number of phone calls made	Average minutes each	Minutes	Hours
Telephone surveys:				
Number who pick up phone but are screened out	416,970	1.16	484,942	8,082
Total interviewed (movers and stayers)	42,205	4.32	182,364	3,039
Mail surveys	3,984	5.00	19,920	332
Annual total	463,159	687,226	11,454

Status of the proposed information collection: Pending OMB approval.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended; and section 8(C)(1) of the United States Housing Act of 1937.

Dated: June 5, 2003.

Christopher D. Lord,

Deputy Assistant, Secretary for Policy Development.

BILLING CODE 4210-62-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; Status Review and 12-Month Finding for a Petition To List the Washington Population of the Western Gray Squirrel

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 12-month petition finding.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce a 12-month finding for a petition to list a distinct population segment (DPS) of the western gray squirrel (*Sciurus griseus griseus*) in Washington, in accordance

with the Endangered Species Act of 1973, as amended. After reviewing the best scientific and commercial information available, we find that the petitioned action is not warranted because the petitioned entity is not a DPS and, therefore, not a listable entity. Additionally, we evaluated the Washington populations of the western gray squirrel relative to the entire range of the subspecies and determined that the Washington populations collectively do not constitute a significant portion of the range of the subspecies. We ask the public to submit to us any new information that becomes available concerning the status of or threats to this subspecies. This information will help us monitor and encourage the conservation of this subspecies.
