RIN 2120-AA66

Revision of VOR Federal Airways and Jet Routes in the Vicinity of Savannah, GA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects a final rule published in the **Federal Register** on May 15, 2003. Due to an error in rounding decimal places, the legal description of Federal Airway V-437 inadvertently contained an incorrect radial. This action corrects that error.

EFFECTIVE DATE: June 13, 2003.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules Division, ATA-400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION: On May 15, 2003, Docket No. FAA 2002-13362; Airspace Docket No. 02-ASO-7, FR Doc. 03-12049, was published revising seven VOR Federal airways and four jet routes in the vicinity of Savannah, GA. The legal description of Federal Airway V-437 contained an incorrect radial from the Savannah VORTAC. Due to an error in rounding decimal places, the affected radial was published as the "Savannah 053°" radial instead of the correct value which is the "Savannah 054°" radial. This action corrects that error by inserting the correct radial in the legal description.

Correction to Final Rule

Accordingly, pursuant to the authority delegated to me, the legal description for V-437 as published in the **Federal Register** on May 15, 2003 (68 FR 26202); FR Doc. 03-12049, and incorporated by reference in 14 CFR 71.1, is corrected as follows:

§ 71.1 [Corrected]

On page 26204 in the first column, correct the legal description of V-437 to read as follows:

Paragraph 6010(a)—Domestic VOR Federal Airways

* * * * *

V-437 [Corrected]

From Dolphin, FL; INT Dolphin 354° and Pahoake, FL, 157° radials; Pahoake;

14 CFR Parts 401, 404, and 413

[Amendment No. 401-3, 404-2, 413-5]

Commercial Space Transportation; Licensing Regulations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; technical amendment.

SUMMARY: The FAA is amending its commercial space transportation regulations to update an address and certain job titles, to accurately reflect the current organization of the regulations, and to delete some non-essential information. These administrative changes are necessary to keep our regulations clear, accurate, and current. The intended effect is to make our regulations easier for the public and regulated industry to use.

DATES: This rule is effective on June 13, 2003.

FOR FURTHER INFORMATION CONTACT: Charles Huet, Office of Commercial Space Transportation, 800 Independence Avenue, Washington, DC 20591; telephone (202) 385-4659.

SUPPLEMENTARY INFORMATION: The FAA is making some technical or administrative changes to its commercial space transportation regulations. These changes do not affect the substance of the existing regulations, impose no new requirements, and have no impact on activities carried out under the regulations.

The Secretary of Transportation has delegated commercial space licensing authority, which had previously been a function within the Office of the Secretary, to the Federal Aviation Administration. As a result, the address of the Office of Commercial Space Transportation changed. The title of the head of the office changed. Also, the official who designates a legal officer for

a regulatory hearing changed. Today's amendments reflect these changes.

The Commercial Space Act of 1998 (Pub. L. 105-303) expanded the jurisdiction of the Office of Commercial Space Transportation. In addition to its previous responsibility, the office now licenses launch of a reusable launch vehicle, operation of a reentry site, and reentry of a reentry vehicle. Previously, the FAA amended the regulations to add parts addressing these areas. The FAA is now amending 14 CFR 413.1 by adding a chart that guides the applicant to the appropriate part.

Procedural Matters

Under the Administrative Procedure Act (APA), 5 U.S.C. 553, agencies must generally publish regulations for public comment and give the public at least 30 days notice before adopting regulations. There is an exception to these requirements if the agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest. In this case, the FAA finds that notice and comment requirements are unnecessary due to the administrative nature of the changes. The changes do not affect the rights or obligations of any regulated entity. It is in the public interest that the changes take effect promptly.
