Region III Strategic Agricultural Initiative Grants; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is soliciting proposals to help implement the Food Quality Protection Act (FQPA) and to support "transition" to using less and lower risk pesticides in food production. The program supports innovative efforts that enable growers to decrease reliance on agricultural pesticides while maintaining economical outcomes, by developing, demonstrating and/or applying reduced risk alternatives and ecologically based integrated approaches to pest management. This grant program encourages "systems" approaches that integrate pest, soil, and crop management practices. Although the focus is on reducing dependency on pesticides and developing alternatives to pesticides targeted under FQPA, a broader approach to problem solving is encouraged in the development of project proposals under FQPA and section 20 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended.

DATES: Proposals must be postmarked/received by 5 p.m. eastern standard time, July 31, 2003.

ADDRESSES: Proposals may be submitted electronically, by mail, or through hand delivery/courier to John Butler at the address/e-mail listed under **FOR FURTHER INFORMATION CONTACT**.

II. Purpose of this Request

EPA's, Waste & Chemicals Management Division, Pesticides/Asbestos Programs & Enforcement Branch, Region III, is requesting proposals which will help implement requirements of FQPA, and to support the transition to using less and lower risk pesticides in food production. The program supports innovative efforts that enable growers to decrease reliance on agricultural pesticides while maintaining economical outcomes, by developing, demonstration and/or applying reduced risk alternatives and ecologically based integrated approaches to pest management. This program is included in the catalog of Federal Domestic Assistance under number 66.716.

III. High Priority Areas for Consideration

EPA will award Food Quality Protection Act Strategic Agricultural Initiative grants under the authority of section 20 of FIFRA as amended by FQPA, for projects involving research, development, monitoring, public education, training, demonstrations and studies that enable growers to decrease reliance on agricultural pesticides while maintaining economical outcomes, by developing, demonstration and/or applying reduced risk alternatives and ecologically based integrated approaches to pest management. These proposals should incorporate the following techniques:

1. Utilize demonstration projects, outreach and/or education to increase the adoption of integrated or sustainable agricultural production practices which provide alternatives to pesticides impacted negatively by FQPA decisions.

2. Work collaboratively with producers, commodity groups, and other stakeholders by making the best use of expert field consultants, USDA research, EPA's safer substitutes, and university technical support on alternatives and integrated pest management practices.

3. Actively engage scientists, farmers, industry, and local, State and Federal

partners in the specifics of implementing FQPA.

4. Demonstrate region-specific pest management technologies and integrated crop management systems to replace pesticide uses which may be canceled under FQPA.

5. Use "farmer to farmer" training and communication methods, community participation, and/or other forms of public-private cooperation.
