

## I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Federal Employees' Compensation Act (FECA) 5 U.S.C. 8101, *et seq.*, the Black Lung Benefits Act (BLBA) 30 U.S.C. 901 *et seq.*, and the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384 *et seq.* These Acts provide, in addition to compensation for employment-related injury and/or disability, payments to provider institutions for certain non-professional medical treatment and services related to the injury or disability. The Uniform Billing Form (OWCP-92) consists of the industry standard billing form (UB-92), which has been approved by the American Hospital Association, the Centers for Medicare and Medicaid Services, and the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS), by various other government health care programs, and the private sector, for the purpose of payment to institutional providers of medical services. The OWCP-92 also includes detailed instructions developed by OWCP that provide the information necessary to providers who file bills for services that may be payable under FECA, BLBA and the EEOICPA. This information collection is currently approved for use through December 31, 2003.

## II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

## III. Current Actions

The Department of Labor seeks approval for the extension of this

information collection in order to carry out its responsibility to provide payment covered medical services to injured employees who are covered under the FECA, BLBA and the EEOICPA.

## DEPARTMENT OF LABOR

### Employment Standards Administration; Wage and Hour Division

#### Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29

CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by

writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

#### Modification to General Wage Determination Decisions

#### NUCLEAR REGULATORY COMMISSION

[IA-03-002]

##### Mr. Lowell S. Trujillo; Order Prohibiting Involvement in NRC-Licensed Activities (Effective Immediately)

**I**

Mr. Lowell S. Trujillo is not a holder of any Byproduct, Source, or Special Nuclear Material License issued by the Nuclear Regulatory Commission (NRC or Commission)

**II**

In July 2002, Mr. Lowell S. Trujillo and two other individuals started a business venture in the State of Idaho under the name of Structural Testing and Inspection (STI). In September 2002, the NRC was contacted by a Deputy Sheriff from Custer County, Idaho, to discuss the Deputy Sheriff's having temporarily impounded, and later released, a portable gauge containing NRC-licensed material that was in the possession of STI. The Deputy Sheriff indicated that he had released the gauge when he was shown a bill of sale and an NRC license. In late September 2002, the NRC conducted an
