

groundwater wells would supply the non-potable water for plant operation. Potable water would be brought to the site as bottled water.

There are two small ephemeral ponds on the site. One is on the west side of the site and is about 0.03 acres. The other pond on the north side of the property is about 0.01 acres in size. All ponds eventually drain to the East Nishnabotna River. Plant process water effluents and stormwater runoff would be discharged to the larger pond, which would need to be expanded. The existing 0.03-acre pond would be excavated to provide a deeper basin and a larger surface area. The proposed action would raise the existing dike on the larger pond sufficient to increase the size of the pond to 0.18 acres. The result would be a 0.15-acre increase of wetland habitat in the project area. The new 161-kV transmission line would span the other pond which would not be impacted by the Project. Also, a new pond would be developed to capture stormwater runoff during construction and operation. The new pond would be constructed by excavating a low area just east of the proposed plant site and creating a berm near the northern property boundary. The resulting pond would be approximately 0.46 acres with a depth of 1 to 2 feet during and after storm events.

In accordance with the Department of Energy's Floodplain/Wetlands Review Requirements (10 CFR part 1022), Western will prepare a wetland assessment and will perform the proposed actions to avoid or minimize potential harm to or within the wetland. The wetland assessment will examine the use of the wetland as a stormwater and waste water retention basin and evaluate avoidance, mitigation, or compensation to minimize loss of wetland habitat. The wetland is located in Audubon County, Iowa, in T. 78 N., R. 35 W., section 31. Maps and further information are available from the contacts listed above.

Dated: June 27, 2003.

Michael S. HacsKaylo,
Administrator.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[OAR-2003-0120, FRL-7524-1]

Agency Information Collection Activities: Proposed Collection; Comment Request; Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings, EPA ICR Number 1765.03, OMB Control Number 2060-0353

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB). This is a request to renew an existing approved collection. This ICR is scheduled to expire on September 30, 2003. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before September 5, 2003.

ADDRESSES: Submit your comments, referencing Docket ID number OAR-2003-0120, to EPA online using EDOCKET (our preferred method), by e-mail *A-and-R-Docket@epamail.epa.gov*, or by mail to: EPA Docket Center, Environmental Protection Agency, National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings, Mailcode 6102T, 1200 Pennsylvania Ave., NW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Morris, Emission Standards Division (C504-04), U.S. EPA, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-5416; fax number: (919) 541-3470; electronic mail (e-mail) address: *morris.mark@epa.gov*.

SUPPLEMENTARY INFORMATION: The EPA has established a public docket for this ICR under Docket ID number OAR-2003-0120, which is available for public viewing at the Air Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW, Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air Docket

is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA within 60 days of this notice. The EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Affected entities: Entities potentially affected by this action are manufacturers and importers of automobile refinish coatings and coating components.

Title: Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings.

Abstract: The EPA is required under section 183(e) of the Clean Air Act to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart B. The reports required under the standards enable EPA to identify all coating and coating component manufacturers and importers in the United States and to determine which coatings and coating components are

subject to the standards, based on dates of manufacture.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement: The annual public reporting burden for this collection of information is estimated to be 14 hours per year, at a total labor cost of \$906 per year. There are no capital costs associated with this collection. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: June 27, 2003.

Henry C. Thomas Jr.,

Acting Director, Office of Air Quality Planning and Standards.

Notice of Open Meeting, Environmental Financial Advisory Board, August 4-5, 2003

The Environmental Protection Agency's (EPA) Environmental Financial Advisory Board (EFAB) will hold an open meeting of the full Board in San Francisco, California on August 4-5, 2003. The meeting will be held at the Bankers Club, Bank of America Building, in the Pacific Room. The Monday, August 4 session will run from 9 a.m. to 5 p.m. and the August 5 session will begin at 8:30 a.m. and end at 11 a.m.

EFAB is chartered with providing advice and recommendations to the EPA Administrator and program offices on environmental finance. The purpose of this meeting is to discuss progress with work products under EFAB's current strategic action agenda and to develop an action agenda to direct the Board's ongoing and new activities through FY 2004.

The meeting is open to the public, but seating is limited. For further information, please contact Vanessa Bowie, EFAB Coordinator, U.S. EPA at (202) 564-5186.

Dated: July 1, 2003.

Maryann Froehlich,

Acting Comptroller.

Recent Posting to the Applicability Determination Index (ADI) Database System of Agency Applicability Determinations, Alternative Monitoring Decisions, and Regulatory Interpretations Pertaining to Standards of Performance for New Stationary Sources, National Emission Standards for Hazardous Air Pollutants, and the Stratospheric Ozone Protection Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces applicability determinations, alternative monitoring decisions, and regulatory interpretations that EPA has made under the New Source Performance Standards (NSPS); the National

Emission Standards for Hazardous Air Pollutants (NESHAP); and the Stratospheric Ozone Protection Program.

FOR FURTHER INFORMATION CONTACT: An electronic copy of each complete document posted on the Applicability Determination Index (ADI) database system is available on the Internet through the Office of Enforcement and Compliance Assurance (OECA) Web site at: <http://www.epa.gov/compliance/assistance/applicability>. The document may be located by date, author, subpart, or subject search. For questions about the ADI or this notice, contact Maria Malave at EPA by phone at: (202) 564-7027, or by email at: malave.maria@epa.gov. For technical questions about the individual applicability determinations or monitoring decisions, refer to the contact person identified in the individual documents, or in the absence of a contact person, refer to the author of the document.

SUPPLEMENTARY INFORMATION:

Background: The General Provisions to the NSPS in 40 CFR part 60 and the NESHAP in 40 CFR part 61 provide that a source owner or operator may request a determination of whether certain intended actions constitute the commencement of construction, reconstruction, or modification. EPA's written responses to these inquiries are broadly termed applicability determinations. See 40 CFR 60.5 and 61.06. Although the part 63 NESHAP and section 111(d) of the Clean Air Act regulations contain no specific regulatory provision that sources may request applicability determinations, EPA does respond to written inquiries regarding applicability for the part 63 and section 111(d) programs. The NSPS and NESHAP also allow sources to seek permission to use monitoring or recordkeeping which are different from the promulgated requirements. See 40 CFR 60.13(i), 61.14(g), 63.8(b)(1), 63.8(f), and 63.10(f). EPA's written responses to these inquiries are broadly termed alternative monitoring decisions. Furthermore, EPA responds to written inquiries about the broad range of NSPS and NESHAP regulatory requirements as they pertain to a whole source category. These inquiries may pertain, for example, to the type of sources to which the regulation applies, or to the testing, monitoring, recordkeeping or reporting requirements contained in the regulation. EPA's written responses to these inquiries are broadly termed regulatory interpretations.

EPA currently compiles EPA-issued NSPS and NESHAP applicability
