

implementation strategies for effective infrastructure development as defined by the consensus-based Association of State and Territorial Dental Directors (ASTDD) model. The results would be used to structure flexible guidelines for infrastructure development and identify high-priority activities enabling additional sites to efficiently plan and implement cost-effective oral health improvement activities. Additionally, this project will assist in the development of objectives and indicators of sustainability—the ability of these demonstration programs to

meet the needs of their constituents beyond the seed-funding period.

The objectives of the uniform evaluation tracking reporting system are to:

1. Evaluate infrastructure development activity characteristics among the funded sites.
2. Synthesize progress and promote cross-collaboration among grantees.
3. Make progress indicators available to nonfunded sites.
4. Promote positive infrastructure growth among funded and nonfunded sites.

The above objectives will be attained through a family of uniform evaluation reporting documents designed to evaluate demographic, extent, and culture climate of infrastructure development activities. One respondent from each site will be required to submit the activity-tracking document annually. Participation is mandatory for funded sites. Nonfunded sites actively involved in infrastructure development are welcome to submit tracking information to further provide information for all sites. Participation is not mandatory for nonfunded sites.

Respondents	Number of respondents per year	Number of responses per respondent	Avg. burden per response (in hrs.)	Total annual burden (in hrs.)

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Agency for Toxic Substances and Disease Registry (ATSDR) and the Centers for Disease Control and Prevention (CDC) announce the following meeting.

Name: Public meeting of the Inter-tribal Council on Hanford Health Projects (ICHHP) in association with the Citizens Advisory Committee on PHS Activities and Research at DOE Sites: Hanford Health Effects Subcommittee (HHES).

Time And Date: 9:30 a.m.–4 p.m., August 6, 2003.

Place: Tamastslikt Cultural Institute, Umatilla Indian Reservation, 72779 Highway 331, Pendleton, Oregon 97801. Telephone: (541) 276-0355.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 25 people.

Background: A Memorandum of Understanding (MOU) was signed in October 1990 and renewed in September 2000 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments

at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

In addition, under an MOU signed in December 1990 with DOE, and replaced by an MOU signed in 2000, the Department of Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use. HHS has delegated program responsibility to CDC. Community Involvement is a critical part of ATSDR's and CDC's energy-related research and activities, and input from members of the ICHHP is part of these efforts. The ICHHP will work with the HHES to provide input on American Indian health effects at the Hanford site.

Purpose: The purpose of this meeting is to address issues that are unique to tribal involvement with the HHES, and agency updates.

Matters To Be Discussed: Agenda items will include a dialogue on issues that are unique to tribal involvement with the HHES. This will include presentations and discussions on each tribal member's respective environmental health activities, and agency updates.

Agenda items are subject to change as priorities dictate.
