

Preliminary Results of Review

In accordance with 19 CFR 351.221(b)(4)(i), we calculated a subsidy rate for Magnola, the sole producer/exporter subject to this new shipper review. For the period January 1, 2001, through December 31, 2001, we preliminarily find the net subsidy rate for Magnola to be 7.00 percent *ad valorem*. We will disclose our calculations to the interested parties pursuant to section 351.224(b) of the regulations.

Upon completion of this new shipper review, the Department will determine, and the Customs Service shall assess, countervailing duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(2), we have calculated a company-specific assessment rate for merchandise subject to this review. The Department will issue appropriate assessment instructions directly to the Customs Service within 15 days of publication of the final results of review. If these preliminary results are adopted in the final results of review, we will direct the Customs Service to assess the resulting assessment rates against the entered customs values for the subject merchandise on each of the company's entries during the review period. The Department also intends to instruct Customs to collect cash deposits of estimated countervailing duties at the rate of 7.00 percent on the f.o.b. value of all shipments of the subject merchandise from Magnola entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this new shipper review.
