

needs will go unmet as a result. An applicant should identify special characteristics unique to its digital television coverage area and its service relationship with its viewers, such as:

(1) Geographic or coverage characteristics of the public television station's digital television coverage area that make the digital transition unusually expensive;

(2) A severe lack of specialized human resources (such as teachers) for which digital educational television will compensate;

(3) Geographic isolation of communities which will be overcome with public television station services;

(4) Non-traditional community needs (such as adult vocational retraining) that may be met only with digital public television station broadcast capabilities;

(5) Economic conditions that place the applicant at a disadvantage in raising local funding, but which are not reflected to the per capita income levels scored above; and

(6) Historical events that have placed the public television station in severe financial stress.

The Grant Application

The grant application shall include the following:

(a) An application for federal assistance, Standard Form 424.

(b) An executive summary, not to exceed two pages, describing the public television station, its service area and offerings, its current digital transition status, and the proposed project.

(c) Evidence of the applicant's eligibility to apply under this Notice.

(d) A spreadsheet showing the total project cost, with a breakdown of items sufficient to enable RUS to determine item eligibility.

(e) A map or maps, showing the digital television coverage area for all of the applicant's transmitters and translators.

(f) The applicant's estimated rurality score, supported by a worksheet showing the population of its digital television coverage area, the derivation of the urban and rural components of that population, and a map showing the digital television coverage area and all urban areas within its boundaries. Supporting information shall list the sources of all population and coverage area information, and if the application includes computations made by a consultant or other organization outside the public television station, shall state the details of that collaboration.

(g) The applicant's estimated per capita income ratio, supported by a worksheet showing the averaging of the PCIs for all counties served.

(h) If applicable, a presentation not to exceed two pages demonstrating critical need.

(i) Evidence that the Federal Communications Commission has authorized the initiation of digital broadcasting at each of the applicant's transmitter and translator sites. In the event that a Federal Communications Commission construction permit has not been issued for one or more sites, the RUS may include those sites in the grant, and make advance of funds for that site conditional upon the submission of a construction permit.

(j) Compliance with other Federal statutes. The applicant must provide evidence of compliance with other Federal statutes and regulations, including, but not limited to the following:

(1) Executive Order (E.O.) 11246, Equal Employment Opportunity, as amended by E.O. 11375 and as supplemented by regulations contained in 41 CFR part 60;

(2) Architectural barriers;

(3) Flood hazard area precautions;

(4) Assistance and Real Property Acquisition Policies Act of 1970;

(5) Drug-Free Workplace Act of 1998 (41 U.S.C. 701);

(6) E.O.s 12549 and 12689, Debarment and Suspension; and

(7) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352).

(k) Environmental impact and historic preservation. The applicant must provide details of the digital transition's impact on the environment and historic preservation, and comply with 7 CFR part 1794, which contains RUS' policies and procedures for implementing a variety of federal statutes, regulations, and executive orders generally pertaining to the protection of the quality of the human environment. The application shall contain a separate section entitled "Environmental Impact of the Digital Transition." This shall include the Environmental Questionnaire/Certification, which is available from RUS, on which the applicant describes the impact of its digital transition. *Submission of the Environmental Questionnaire/Certification does not constitute compliance with 7 CFR part 1794.*

Grant Documents

The terms and conditions of grants shall be set forth in grant documents prepared by RUS. The documents shall require the applicant to own all facilities financed by the grant. Among other matters, RUS may prescribe conditions to the advance of funds that address the construction of the project

and the delivery of distance learning services to rural areas.
