Abstract: This FRSS survey is designed to collect information from public secondary schools nationwide on dual credit and exam-based courses. Dual credit, whereby high school students can earn both high school and postsecondary credits for the same courses, is an area that has grown rapidly over the past decade. High school advanced placement courses and international baccalaureate programs are also offered by many schools and may affect subsequent postsecondary options. This survey is designed to obtain a variety of information on this growing area. This information can provide education policymakers with important baseline information about the prevalence and characteristics of dual credit courses.
