

plantations and young forests; and reconnect streams and reconnect stream channel to their riparian areas and upslope areas.

The DEIS analyzes in detail the following six alternatives:

Alternative A—no active management (No Action);

Alternative B—restoration limited to forest plantations and road management with no commercial timber harvest;

Alternative C—continuation of the current management approach;

Alternative D—restoration focused on recovery of threatened and endangered species;

Alternative E—restoration that would reduce forest stand densities as quickly as possible; and

Alternative F—restoration based on multi-entry and multi-trajectory thinning.

All alternatives analyzed in the DEIS would be in conformance with the 1995 Eugene District Resource Management Plan (RMP) and would not require any amendment or revision of the RMP. The Preferred Alternative is *Alternative D*.

The DEIS analyzes the following issues:

- How would thinning affect development of late-successional forest habitat characteristics?
- What are the effects of restoration activities on the northern spotted owl, marbled murrelet, and coho salmon habitat?
- What level of risk to existing late-successional forest would result from restoration activities?
- How would actions meet the objectives of the Aquatic Conservation Strategy?
- How much new road construction would be needed to implement restoration actions?
- How would road decommissioning and road management actions alter public access to BLM lands?
- How would restoration actions affect the presence and spread of noxious weeds?
- What would be the economic effects of restoration activities?
- What would the restoration program cost?

#### Notice of Availability of Approved Resource Management Plan/Record of Decision

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** Notice is hereby given that the Bureau of Land Management (BLM) has prepared an Approved Resource Management Plan/Record of Decision (RMP/ROD) for the Las Cienegas National Conservation Area (NCA) and Sonoita Valley Acquisition Planning District (SVAPD) located in Pima and Santa Cruz Counties, Arizona. The RMP/ROD will be signed by the Arizona State Director and become effective upon publication of this notice.

The RMP/ROD has been prepared pursuant to the National Environmental Policy Act (NEPA), the Federal Land Policy and Management Act (FLPMA), the act establishing the Las Cienegas

National Conservation Area (H.R. 2941), and BLM management policies.

The RMP/ROD was developed with broad public participation through a six-year collaborative planning process. The RMP/ROD addresses management on approximately 49,000 acres of public land within the NCA and SVAPD. The RMP/ROD is designed to achieve or maintain desired future conditions developed through the Sonoita Valley Planning Partnership process. The RMP/ROD also includes a series of management actions to meet the desired resource conditions for upland and riparian vegetation, wildlife habitats, and cultural and visual resources as well as livestock grazing and recreation.

**ADDRESSES:** Copies of the RMP/ROD are available upon request from the Field Manager, Tucson Field Office, Bureau of Land Management, 12661 East Broadway Boulevard, Tucson, Arizona 85748-7208 or via the Internet at [www.az.blm.gov](http://www.az.blm.gov).

**FOR FURTHER INFORMATION CONTACT:**

Karen Simms, Ecosystem Planner, Tucson Field Office, Bureau of Land Management, 12661 East Broadway Boulevard, Tucson, Arizona 85748-7208; telephone number (520) 258-7210.

**SUPPLEMENTARY INFORMATION:** The approved Resource Management Plan is essentially the same as Alternative 2 in the Proposed Las Cienegas RMP/Final Environmental Impact Statement (PRMP/FEIS) that was published in June 2002. BLM received only one protest to the PRMP/FEIS. No inconsistencies with State or local plans, policies, or programs were identified during the Governor consistency review of the PRMP/FEIS. As a result, only minor editorial modifications were made in preparing the RMP/ROD. These modifications corrected errors that were noted during review of Alternative 2 of the PRMP/FEIS and provide further clarification for some of the decisions. An errata sheet is included with the RMP/ROD that identifies the location of the corrections in the PRMP/FEIS.

State Director.
