k. *Description of Amendment:* SCE&G requests that its license be amended to extend the termination date by 5 years (from August 31, 2007 to August 31, 2012) to provide the time necessary to conduct, under normal operating conditions, the studies that will be requested or required under the relicensing procedures for the Saluda Project. The Commission has ordered a remediation of the project's dam that will necessitate a drawdown of Lake Murray for several years. The dam remediation project will create conditions that are not representative of the conditions under which the project normally operates and render meaningless any relicensing studies pursued under such conditions. SCE&G filed a notice of intent to relicense the project on August 30, 2002.
