**SUPPLEMENTARY INFORMATION:** The Commission has requested emergency OMB review of this collection with an approval by September 17, 2003.

OMB Control Number: 3060–1033.

Type of Review: Extension of a currently approved collection.

Title: Multi-Channel Video Program Distributor EEO Program Annual Report, FCC Form 396–C.

Form Number: FCC 396–C. Respondents: Business or other forprofit entities; Not-for-profit

Number of Respondents: 2,200. Estimated Time per Response: 10 mins. to 2.5 hrs.

institutions.

Frequency of Response: Recordkeeping; Annual and five-year reporting requirements.

Total Annual Burden: 3,188 hours. Total Annual Cost: None.

Needs and Uses: On November 7, 2002, the FCC adopted a Second Report and Order and Third NPRM (Second R&O), MM Docket No. 98–204, FCC 02– 303, 68 FR 670 (2003), which established new EEO rules and forms to comply with the court's decision in MD/ DC/DE Broadcasters Association v. FCC. The new EEO rules ensure equal employment opportunity in the broadcast and multi-channel video program distribution (MVPD) industries through outreach to the community in recruitment and prevention of employment discrimination. In addition, the Second R&O combined previous FCC Forms 395-A and 395-M, which requested substantially the same information. The FCC adopted new Form 396-C, which is substantially the same as those portions of FCC 395-A and 395–M that sought data about the MVPD's compliance with EEO program requirements, but it omits those portions of the prior forms that sought workforce data. All MVPDs with six or more full-time employees must file an EEO report annually in the public file detailing their outreach efforts and the results for the prior year, as part of the in-depth MVPD investigation conducted once every five years. Emergency approval is needed for this form because it is due to be filed by September 30, 2003, and the FCC needs OMB approval before that date to allow time for the

Commission to post a public notice announcing OMB approval and to give filers time to file, as well as to enable the **Federal Register** time to publish this notice by September 23, 2003.

**SUPPLEMENTARY INFORMATION:** The Commission has requested emergency OMB review of this collection with an approval by September 16, 2003.

OMB Control Number: 3060–0027. Type of Review: Revision of a currently approved collection.

Title: Application for Construction Permit for Commercial Broadcast Station, FCC Form 301.

Form Number: FCC 301.

Respondents: Business or other forprofit entities; Not-for-profit institutions.

Number of Respondents: 3,370. Estimated Time Per Response: 37 to 121 hours.

Frequency of Response: On occasion requirements; Third party disclosure. Total Annual Burden: 7,427 hours. Total Annual Cost: \$35,485,300. Needs and Uses: On September 3, 2003, the United States Court of Appeals for the Third Circuit issued an Order staying the effectiveness of the new media ownership rules adopted by the Commission on June 2, 2003. (Report and Order, MB Docket 02-277 and MM Dockets 01-235, 01-317, and 00-244, and Notice of Proposed Rulemaking, In The Matter of 2002 Biennial Regulatory Review—Review of the Commission's Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996.) 68 FR 46285, August 5, 2003. The Court ordered "that the prior ownership rules remain in effect pending resolution of these proceedings." Prometheus Radio Project v. FCC. No. 03-3388 (3d Cir. Sept. 3, 2003) (per curiam). The Court's *Order* requires that the Commission process broadcast station applications under the prior ownership rules. Because FCC Form 301(June 2002) was supposed to have expired in August 2003 but was superceded by the July 2003 version, we are now requesting immediate reactivation of the previously approved version of this form.

FCC Form 301 is used to apply for authority to construct a new commercial AM, FM, or TV broadcast station, or to make changes in existing facilities of such a station. In addition, FM licensees or permittees may request, by application on FCC Form 301, upgrades on adjacent and co-channels, modifications to adjacent channels of the same class and downgrades to

adjacent channels without first submitting a petition for rulemaking. All applicants using this one-step process must demonstrate that a suitable site exists which would comply with allotment standards with respect to minimum distance separation and citygrade coverage and which would be suitable for tower construction. To receive authorization for commencement of Digital Television ("DTV") operation, commercial broadcast licensees must file FCC Form 301 for a construction permit. This application may be filed anytime after receiving the initial DTV allotment but must be filed before mid-point in a particular applicant's required construction period. The Commission will consider these applications as minor changes in facilities. Applications will not have to supply full legal or financial qualification information.
