SUPPLEMENTARY INFORMATION

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate, allow applications and issue them as patents. When an application for a patent is allowed by the USPTO, the USPTO issues a notice of allowance and the applicant must pay the specified issue fee (including the publication fee, if applicable) within three months to avoid abandonment of the application. If the appropriate fees are paid within the proper time period, the USPTO can then issue the patent. If the fees are not paid within the designated time period, the application is abandoned and the applicant may petition the Director to accept a delayed payment with a satisfactory showing that the delay was unavoidable. This Petition for Revival of an Application for Patent Abandoned Unavoidably (Form PTO/SB/61) is approved under information collection 0651–0031. The rules outlining the procedures for payment of the issue fee and issuance of a patent are found at 37 CFR 1.18 and 1.311–1.317.

Chapter 25 of Title 35 U.S.C. provides that there are several actions that the applicant may take after issuance of a patent, including requesting the correction of errors in a patent. For original patents that are deemed wholly or partly inoperative, applicants may file a reissue application, which entails several formal requirements including an oath or declaration that the errors in the patent were not the result of any deceptive intention on the part of the applicant. The rules outlining these procedures are found at 37 CFR 1.171–1.179 and 1.322–1.325.

Chapter 30 of Title 35 U.S.C. provides that any person at any time may file a request for reexamination by the USPTO of any claim of a patent on the basis of prior art patents or printed publications. Once initiated, the reexamination proceedings are substantially *ex parte* and do not permit input from third parties, but Chapter 31 also provides for optional *inter partes* reexamination allowing third parties to participate. The rules outlining *ex parte* and *inter partes* reexaminations are found at 37 CFR 1.510–1.570 and 1.902–1.997.

If a request for *ex parte* or *inter partes* reexamination is denied, the requester may petition the Director to review the examiner's refusal of reexamination. The USPTO is adding these two petitions, the Petition to Review Refusal to Grant *Ex Parte* Reexamination (37 CFR 1.515(c)) and the Petition to Review Refusal to Grant *Inter Partes* Reexamination (37 CFR 1.927), to this information collection. These petitions are not new requirements but were not previously covered in this collection. No forms are provided for these petitions.

The public uses this information collection to request corrections of errors in issued patents, to request reissue patents, to request reexamination proceedings, and to ensure that associated fees and documentation are submitted to the USPTO. The USPTO provides 10 paper forms that the public may use to submit the necessary information for these requirements, although there are no forms provided for some of the documentation necessary for a reissue application.

This collection was previously approved by OMB in January 2001, at which time Form PTO/SB/58 Request for *Inter Partes* Reexamination was added to this collection to support the USPTO's amended rules of practice implementing third party reexamination proceedings as found in the American Inventors Protection Act of 1999. In May 2001, OMB approved a change worksheet to delete Form PTO/SB/54 Reissue Application by the Assignee, Offer to Surrender Patent from this collection due to the elimination of the requirement to file an offer to surrender the original patent at the time of filing a reissue application. The USPTO also revised Form PTOL–85B Issue Fee Transmittal in order to support a change in practice regarding publication fees and to accommodate the acceptance of payments by credit card. In November 2001, OMB approved another change worksheet that increased the total responses and burden hours as an administrative adjustment to reflect a
