## **Analysis of Comments Received**

As noted above, there were no case or rebuttal briefs submitted in this investigation, nor was a hearing held in this investigation.

## Use of Facts Available

In the Preliminary Determination, the Department applied total adverse facts available to the mandatory respondent, NGK, because NGK chose not to participate in the investigation. See Preliminary Determination at 35628. Specifically, the Department assigned NGK a dumping margin of 105.80 percent, the estimated dumping margin rate in the petition. See Initiation Notice at 4171. Also, the Department used the petition margin of 105.80 percent as the "all others" rate. See Preliminary Determination at 35629. Interested parties did not comment on the Department's use of adverse facts available in the Preliminary Determination, nor did they comment on the Department's choice of facts available. For this final determination, we are continuing to apply total adverse facts available to NGK.

## Suspension of Liquidation

Pursuant to section 735(c)(1)(B) of the Act, we are instructing the U.S. Bureau of Customs and Border Protection (BCBP) to continue to suspend liquidation of all entries of high and ultra-high voltage ceramic station post insulators from Japan that are entered, or withdrawn from warehouse, for consumption on or after June 16, 2003, the date of publication of the *Preliminary Determination*. BCBP shall continue to require a cash deposit or the

posting of a bond equal to the estimated amount by which the normal value exceeds the U.S. price as shown below. The suspension of liquidation instructions will remain in effect until further notice.

We determine that the following percentage margins exist for the period October 1, 2001 through September 30, 2002:

Manufacturer/Exporter	Weighted- Average Percent Margin
NGKAll Others	105.80 105.80

## **International Trade Commission (ITC) Notification**

In accordance with section 735(d) of the Act, we have notified the ITC of our determination. As our final determination is affirmative, the ITC will determine, within 45 days, whether these imports are causing material injury, or threat of material injury, to an industry in the United States. If the ITC determines that material injury, or threat of injury does not exist, the proceeding will be terminated and all securities posted will be refunded or cancelled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing BCBP officials to assess antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

# Notification Regarding Administrative Protective Order (APO)

This notice also serves as a reminder to parties subject to APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: October 29, 2003.

## FOR FURTHER INFORMATION CONTACT:

Caratina L. Alston, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 482–5438.

**SUPPLEMENTARY INFORMATION: Chapter** 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established Rules of Procedure for Article 1904 Binational Panel Reviews ("Rules"). North American Free-Trade Agreement (NAFTA), Article 1904 NAFTA Panel Reviews; Decision of the Committee

**AGENCY:** NAFTA Secretariat, United States Section, International Trade Administration, Department of Commerce

**ACTION:** Notice of completion of extraordinary challenge.

SUMMARY: On October 30, 2003 the Extraordinary Challenge Committee (ECC) issued its decision in the matter of Gray Portland Cement and Clinker from Mexico, Secretariat File No. ECC–2000–1904–01USA.

#### FOR FURTHER INFORMATION CONTACT:

Caratina L. Alston, United States Secretary, NAFTA Secretariat, Suite 2061, 14th and Constitution Avenue, Washington, DC 20230, (202) 482–5438.

SUPPLEMENTARY INFORMATION: Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established Rules of Procedure for Article 1904 Binational Panel Reviews ("Rules"). These Rules were published in the Federal Register on February 23, 1994 (59 FR 8686). The panel review in this matter was conducted in accordance with these Rules.

**SUPPLEMENTARY INFORMATION:** On March 23, 2000, the Office of the United States Trade Representative filed a Request for an Extraordinary Challenge Committee

to review decisions dated July 18, 1999 and November 10, 1999, with the United States Section of the NAFTA Secretariat pursuant to Article 1904 of the North American Free Trade Agreement. Panel review was requested of the final antidumping duty administrative review determination made by the International Trade Administration, respecting Gray Portland Cement and Clinker from Mexico. This determination was published in the Federal Register (65 FR 9243) on February 24, 2000. The NAFTA Secretariat assigned Secretariat File Number ECC-2000-1904-01USA to this request.

Committee Decision: The Committee concluded that the petitioners here, the United States and the STCC, have failed to demonstrate either that the Binational Panel "manifestly exceeded its powers, authority or jurisdictions" or that the Panel's determination on the single issue raised in the petition "threatens the integrity of the Binational Panel review process." Inasmuch as these criteria have not been met, the petition is denied and the June 18, 1999 decision of the Binational Panel will not be disturbed.

The Committee Members are hereby discharged from their duties effective October 30, 2003.

Dated: October 30, 2003.
