Office of the Chief Information Officer

Title: FY2003 and FY2004 Farm Shows Marketing and Grower Relations Assessment.

OMB Control Number: 0503-NEW.

Summary of Collection: The President's Management Agenda called upon the Department of Agriculture (USDA) to improve its online delivery of government services. In carrying out this mission, the Office of the Chief Information Officer (OCIO) seeks approval of information gathering activities that will provide key information about the impact of the eGovernment program on its key constituents: farmers, growers, and producers. It will also elucidate the programs current limitations and future challenges. OCIO will collect the information using a questionnaire.

Need and Use of the Information: OCIO will collect information to determine the principle causes of farmer use or non-use of eGovernment applications to date and provide guidance about future eGovernment functionality desired by farmers. If the information were not collected it would hinder USDA's ability to determine citizen preferences in designing applications.

such delegations of authority as she deems necessary to carry out this title." The regulations at 7 CFR 764 establish the information collection for the Farm Service Agency (FSA) to make and service direct emergency loans. FSA must request certain documentation from its applicants in order to determine emergency loan eligibility, to determine if the operation is included in a designated disaster, and to determine if the applicant has suffered a qualifying production or physical loss.

Need and Use of the Information: The collected information is submitted by loan applicants and commercial lenders to FSA for loan officials to use in making eligibility and financial feasibility determinations as required by the CONACT.
