

requirements and third party disclosure requirement.

Total Annual Burden: 58,950 hours.

Total Annual Cost: N/A.

Needs and Uses: In an effort to administer the requirements and obligations of the Universal Service program, FCC Forms 472, 473 and 474 and their instructions have been modified to make editorial changes, date adjustments and clarification statements. These forms instructions have also been modified to include invoice deadlines and extension request sections for the filing requirements.

OMB Control No.: 3060-XXXX.

Title: Section 1.929(c)(1), Composite Interference Contour (CIC).

Form No.: N/A.

Type of Review: New collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 50.

Estimated Time Per Response: 2 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Total Annual Burden: 100 hours.

Total Annual Cost: N/A.

Needs and Uses: Under Section 1.929(c)(1) of the Commission's rules, any increase in the composite interference contour (CIC) of a site-based licensee in the Paging and Radiotelephone Service, Rural Radiotelephone Service, or 800 MHz Specialized Mobile Radio Service is a major modification of license that requires prior Commission approval. However, the Commission released a Notice of Proposed Rulemaking (NPRM) in WT Docket No. 03-103 (68 FR 44003), proposing to amend this rule section to specify that expansion of a CIC of a site-based licensee in the Paging and Radiotelephone Service, as well as the Rural Radiotelephone Service and 800 MHz Specialized Mobile Radio Service, over water on a secondary, non-interference basis should be classified as a minor (rather than major) modification of a license. Such reclassification would eliminate the filing requirements associated with these license modifications, but require site-based licensees to provide the geographic area licensee (on the same frequency) with the technical and engineering information necessary to evaluate the site-based licensee's operations over water.

OMB Control No.: 3060-0465.

Title: Section 74.985, Signal Booster Stations.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit and not-for-profit institutions.

Number of Respondents: 6,300.

Estimated Time Per Response: .083—8.25 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement, and third party disclosure requirement.

Total Annual Burden: 919 hours.

Total Annual Cost: \$2,252,500.

Needs and Uses: Section 74.985 requires signal booster stations to: (1) Submit engineering data or showings in specified formats to the FCC's duplicating contractor; (2) to serve a copy of the application and accompanying engineering materials on affected co-channel or adjacent channel parties; and (3) retain a copy of the application at the transmitter site. The data are used to ensure that MDS and ITFS applicants and licensees have considered the potential harmful interference from their facilities. The Commission is submitting this to the OMB for extension (no change) to obtain the full three year clearance.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

November 14, 2003.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's

burden estimate; (c) ways to enhance the quality, utility and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction (PRA) comments should be submitted on or before January 26, 2004. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street SW., Washington, DC 20554 or via the Internet to Leslie.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Les Smith at (202) 418-0217 or via the Internet at Leslie.Smith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0780.

Title: Uniform Rate-Setting Methodology.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; and State, Local and Tribal Government.

Number of Respondents: 160.

Estimated Time per Response: 20 to 50 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 3,500 hours.

Total Annual Cost: None.

Needs and Uses: The uniform rates proposals will be filed with the Commission and served on all affected local franchise areas (LFAs). The Commission will review the rate proposals, comments received from the LFAs, and replies received from cable operators in considering whether the interests of subscribers will be protected under the new rate proposal.

OMB Control Number: 3060-0427.

Title: Section 73.3523, Dismissal of Applications in Renewal Proceedings.

Form Number: N/A.

Type of Review: Extension of currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 1.

Estimated time per response: 1 hour.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 1 hour.

Total Annual Costs: \$1,600.

Needs and Uses: 47 CFR 73.3523 requires an applicant for a construction permit to obtain approval from the FCC to dismiss or withdraw its application when that application is mutually exclusive with a renewal application. This request for approval must contain a copy of any written agreement and an affidavit stating that it has not received any consideration (pre-Initial Decision), or it has not received any consideration in excess of legitimate and prudent expenses (post-Initial Decision) for the dismissal/withdrawal of its application. In addition, within 5 days of the applicant's request for approval, each remaining competing applicant and the renewal applicant must submit an affidavit certifying that it has not paid any consideration (pre-Initial Decision), or that it has not paid consideration in excess of legitimate and prudent expenses (post-Initial Decision) for the dismissal/ withdrawal of a competing application. The FCC staff uses the data to ensure that an application was filed under appropriate circumstances and not to extract payments prohibited by the Commission.

OMB Control Number: 3060-0561.

Title: Section 76.913, Assumption of Jurisdiction by the Commission.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: State, local or tribal government.

Number of Respondents: 10.

Estimated Time per Response: 8 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 80 hours.

Total Annual Cost: None.

Needs and Uses: 47 CFR section 76.913 permits a local franchising authority (LFA) that is unable to meet certification standards to petition the FCC to regulate the basic service cable rates of its franchisee. The FCC uses this information collected under this control number to identify situations where the Commission should exercise jurisdiction over basic service and equipment rates in place of local franchising authority. Without this information, the basic cable rates of some franchising areas, which are not subject to effective competition, would remain unregulated in contravention of the goals of the 1992 Cable Act.

SUPPLEMENTARY INFORMATION: This is a summary of the *Auction No. 55 Procedures Public Notice* released on October 17, 2003. The complete text of the *Auction No. 55 Procedures Public Notice*, including attachments, as well as related Commission documents, are available for public inspection and copying during regular business hours at the FCC Reference Information Center, Portals II, 445 12th Street, SW., Room C-A257, Washington, DC, 20554. The *Auction No. 55 Procedures Public Notice* and related Commission documents may also be purchased from the Commission's duplicating contractor, Qualex International, Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC, 20554, telephone 202-863-2893, facsimile 202-863-2898, or via e-mail qualexint@aol.com. When ordering documents from Qualex, please provide the appropriate FCC document number (for example, FCC 95-395 for the *900 MHz Second Order on Reconsideration and Order*). The *Auction No. 55 Procedures Public Notice* and related documents are also

available on the Internet at the Commission's Web site: <http://wireless.fcc.gov/auctions/55/>.

I. General Information

A. Introduction

1. The *Auction No. 55 Procedures Public Notice* announces the procedures and minimum opening bids for the upcoming auction of licenses in the SMR Service scheduled for February 11, 2004 (Auction No. 55). On September 17, 2003, in accordance with the Balanced Budget Act of 1997, the Bureau released a public notice seeking comment on reserve prices or minimum opening bids and the procedures to be used in Auction No. 55. The Bureau received no comments in response to the *Auction No. 55 Comment Public Notice*, 68 FR 55955 (September 29, 2003).

i. Background of Proceeding

2. On April 17, 1995, the Commission released the *900 MHz Second Report and Order and Second Further Notice of Proposed Rule Making*, 60 FR 21987 (May 4, 1995), in which it adopted final service rules and requested comment on proposed auction rules for licensing 900 MHz SMR spectrum. On September 14, 1995, the Commission released the *900 MHz Second Order on Reconsideration and Seventh Report and Order*, 60 FR 48913 (September 21, 1995), adopting final auction rules for the 900 MHz SMR service. In 1996, the Commission concluded an auction of 900 MHz SMR licenses in Auction No. 7.

ii. Licenses To Be Auctioned

3. Auction No. 55 will offer 60 licenses based on Major Trading Areas ("MTAs"). The MTAs are based on the Rand McNally 1992 Commercial Atlas and Marketing Guide, 123rd Edition. The Commission Rand McNally and Company has authorized interested parties to use MTAs under a blanket license agreement, which covers certain services, including the 900 MHz SMR Service. The Commission uses 51 MTAs, which include the 47 established by Rand McNally, with the following exceptions and additions: Alaska is separated from the Seattle MTA and is licensed separately, Guam and the Northern Marianas Islands are licensed as a single MTA-like area; Puerto Rico and the U.S. Virgin Islands are licensed in a single MTA-like area; and American Samoa is licensed as a single MTA-like area. The spectrum to be auctioned was previously associated with licenses that have been cancelled or terminated. A complete list of the licenses available in Auction No. 55 is included in
