

on April 25, 2003 (68 FR 21399). The purpose of the competition was to award grant funding of approximately \$2,200,000 for grants and cooperative agreements for the Healthy Homes Lead Outreach Grants Programs. Applications

were scored and selected on the basis of selection criteria contained in that NOFA.

A total of \$2,402,972 was awarded to six grantees. In accordance with section 102(a)(4)(C) of the Department of

Housing and Urban Development Reform Act of 1989 (103 Stat. 1987, 42 U.S.C. 3545), the Department is publishing the names, addresses, and amounts of this awards as follows:

Awardee	Address	Award amount
City of New York	100 Gold Street, New York, NY 10038	\$500,000
City of Kansas City	2400 Troost Ave., Suite 4000, Kansas City, MO 64108	250,000
City of Charlotte	600 East Trade Street, Charlotte, NC 28202	288,457
City of Minneapolis	250 South 4th Street Room 510, Minneapolis, MN 55415	370,824
City of Los Angeles	1200 West 7th St., 9th Floor, Los Angeles, CA 90017	514,764
City of San Diego	9601 Ridgehaven Court, Suite 320, Diego San Diego, CA 92123-1636.	478,927

The Catalog of Federal Domestic Assistance number for this program is 14.904.

Dated: November 4, 2003.

Joseph F. Smith,

Deputy Director, Office of Healthy Homes and Lead Hazard Control.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CO-600-1120-PI-241A]

Notice of Meeting, Southwest Resource Advisory Council (Colorado)

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management (BLM) Southwest Resource Advisory Council (RAC), will meet as indicated below.

DATES: The meeting will be held on December 12, 2003, at the Ridgeway State Park Headquarters, 28555 U.S. Highway 550, Ridgeway, Colorado and will begin at 9 a.m. The public comment periods will be at 9:30 a.m. and 3 p.m.

SUPPLEMENTARY INFORMATION: The 15 member Council advises the Secretary of the Interior, through the Bureau of Land Management, on a variety of planning and management issues associated with public land management in Southwest, Colorado. Planned agenda topics include:

- Manager reports
- Public Comment
- Discussion of Old Business
- Discussion of Energy Development
- Impacts on Local Communities

All meetings are open to the public. The public can make oral statements to

the Council at 9:30 a.m. and 3 p.m. or written statements may be submitted for the Councils consideration. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Summary minutes for the Council Meeting will be maintained in the Western Slope Center Office and will be available for public inspection and reproduction during regular business hours within thirty (30) days following the meeting.

FOR FURTHER INFORMATION CONTACT:

Bureau of Land Management (BLM), Western Slope Center, 2465 S. Townsend Ave., Montrose, Colorado 81401. Phone (970) 240-5300.

Dated: July 15, 2003.

Barry A. Tollefson,

Acting Western Slope Center Manager.

[CO-930-1430-ET; COC-34653]

Proposed Modification of Public Land Order No. 6761; Opportunity for Public Meeting; Colorado

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposes to modify the withdrawal of the Windy Gap Archaeological Sites to allow for disposal. This modification will have no effect on the restrictions imposed by Public Land Order No. 6761 and the lands containing these sites will not be disposed of until the archaeological values have been mitigated. The lands have been and remain open to mineral leasing.

DATES: Comments and requests for a public meeting must be received by February 23, 2004.

FOR FURTHER INFORMATION CONTACT:

Doris E. Chelius, BLM Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215-7076, 303-239-3706.

SUPPLEMENTARY INFORMATION: The Secretary of the Interior has approved a petition allowing the Bureau of Land Management to file an application to modify Public Land Order 6761. This order will affect the following described land:

Sixth Principal Meridian

T.2 N., R. 76 W.,

Sec. 17, lots 3 and 4;

Sec. 20, lots 1, 2, and 7.

T. 2 N., R. 77 W.,

Sec. 23, lot 8;

Sec. 24, lot 4;

Sec. 25, lots 1 and 2;

Sec. 26, lot 1.

The areas described aggregate approximately 397.80 acres of public land in Grand County.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed modification may present their views in writing to the Colorado State Director at the address shown above. Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed modification. All interested persons who desire a public meeting for the purposes of being heard on the proposed action must submit a written request to the Colorado State Director within 90 days of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting. This application will be processed in

accordance with the regulations set forth in 43 CFR 2300.

Dated: November 17, 2003.

Jenny L. Saunders,
Realty Officer.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Request for Small Reclamation Projects Act Loan To Construct Narrows Dam in Sanpete County, UT

AGENCY: Bureau of Reclamation (Interior), Lead Agency; U.S. Forest Service (Agriculture); and U.S. Army Corps of Engineers (Army), Cooperating Agencies.

ACTION: Notice of intent to prepare a supplemental draft environmental impact statement.

SUMMARY: The Bureau of Reclamation (Reclamation), the Federal agency with administrative authority under the Small Reclamation Projects Act (SRPA), in cooperation with the U.S. Forest Service and U.S. Army Corps of Engineers, intends to prepare a supplemental draft environmental impact statement (EIS) pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended, and 40 CFR 1502.9. The supplemental draft EIS will describe the effects of granting a SRPA loan and authorizing use of withdrawn lands to the Sanpete Water Conservancy District (SWCD) for the purpose of constructing the Narrows Dam and Reservoir and rehabilitating the existing Gooseberry (Narrows) Tunnel. The purpose of the proposed action is to enable the SWCD to develop an existing Gooseberry Project right to 5,400 acre-feet of water.

FOR FURTHER INFORMATION CONTACT: Mr. Kerry Schwartz, Bureau of Reclamation, Provo Area Office, 302 East 1860 South, Provo, Utah 84606-7317; telephone (801) 379-1150; faxogram (801) 379-1159; e-mail: kschwartz@uc.usbr.gov.

SUPPLEMENTARY INFORMATION: The draft EIS for this proposed action was prepared and published for public comment in 1998. The supplemental draft EIS will incorporate comments received on the draft EIS in 1998 as well as new information received since that time. When the supplemental draft EIS is complete, a Notice of Availability will be published in the **Federal Register**. That notice will contain information about public hearings that will be held to receive comments on the supplemental draft EIS. Public

comments on the draft document will be solicited for a 60-day comment period.

Background

Water development in the Gooseberry Creek drainage in Utah has a lengthy history dating back to the early 20th century. The proposed action for which this supplemental draft EIS is being prepared was initiated in 1981 by a Notice of Intent published in the **Federal Register** by the SWCD to apply for a SRPA loan to help finance construction of the Narrows Dam and Reservoir and rehabilitation of the existing Gooseberry (Narrows) Tunnel. The proposed reservoir would have a total capacity of 17,000 acre-feet of water and would provide active storage of no more than 14,500 acre-feet of water for the purpose of receiving 5,400 acre-feet per year of water from Gooseberry Creek by transmountain diversion through the Gooseberry (Narrows) Tunnel, under a water right approved by the Utah State Engineer on January 7, 1985.

A draft EIS analyzing the potential impacts of the proposed action was prepared by Reclamation and circulated for public review in 1993. A final EIS and Record of Decision were completed in 1995, but the Record of Decision was rescinded later in 1995. A new draft EIS was published in March 1998 for public review and comment, and public hearings were held to receive comments on the draft EIS in April 1998. Since that time, Reclamation has addressed and incorporated comments received on the 1998 draft EIS and engaged in written and oral communications with the interested public, including its cooperating agencies, and other state and Federal regulatory agencies. Because of new information either received or developed from comments received on the 1998 draft EIS, Reclamation and its cooperating agencies have determined that a supplemental draft EIS should be prepared and published for public review and comment rather than proceeding with publication of a final EIS. Specifically, the supplemental draft EIS will update or add new information as follows:

- Updated hydrology studies through 2002.
- Updated water quality studies through 2002.
- Updated population and demographics based on a 2000 census.
- Updated water usage data.
- Updated recreation data.
- Added discussion regarding Skyline Mine water development.
- Updated brown trout habitat suitability curves.

- Updated project cost estimates.
- Updated wetlands delineations.
- Added discussion and analysis related to Wild and Scenic Rivers proposed designation for Gooseberry Creek.

- Updated Endangered Species Act compliance for Colorado pikeminnow use of the lower Price River

Purpose and Need for Action

Reclamation has received an application for a SRPA Loan from the SWCD for the purposes of constructing the Narrows Project. The primary purpose of the Narrows Project is to develop an irrigation and municipal and industrial supply source for water users in north Sanpete County, Utah. The following water needs would be addressed by the proposed

- Demand for municipal water for present and future use currently exceeds the available supply. The proposed Narrows Project would develop through exchange an additional supply of municipal water to offset current shortages and accommodate anticipated population growth in the project area;

- The current water supply for agricultural irrigation does not provide adequate supply and storage during July, August, and September of each year. The proposed Narrows Project would provide late season irrigation water to offset at least some of the current shortages; and

- The Gooseberry (Narrows) Tunnel in Sanpete County is in need of rehabilitation to maintain and enhance its dependability and capability to deliver water to Sanpete County users. The proposed Narrows Project would include such rehabilitation work to prevent tunnel failure and ensure the tunnel's continuing usefulness.

In addition to the primary purpose of supplying water to Sanpete County, the project would have the additional benefit of providing improved and additional recreation and fishery opportunities in Sanpete County.

Proposed Action

Reclamation proposes to approve the SWCD's loan application under the SRPA and authorize use of withdrawn lands to enable the SWCD to construct the Narrows Project. If the loan and use of the land are approved, a supplemental water supply would be developed for presently irrigated lands and municipal water users in north Sanpete County. A dam and reservoir would be built on Gooseberry Creek and water would be diverted through the existing Gooseberry (Narrows) Tunnel (which would be rehabilitated) to Cottonwood Creek. Pipelines would be
