

In accordance with 10 CFR 2.309(b), a request for a hearing must be filed by May 17, 2004.

In addition to meeting other applicable requirements of 10 CFR 2.309, the general requirements involving a request for a hearing filed by a person other than an applicant must state:

1. The name, address, and telephone number of the requestor;
2. The nature of the requestor's right under the Act to be made a party to the proceeding;
3. The nature and extent of the requestor's property, financial or other interest in the proceeding;
4. The possible effect of any decision or order that may be issued in the proceeding on the requestor's interest; and
5. The circumstances establishing that the request for a hearing is timely in accordance with 10 CFR 2.309(b).

In accordance with 10 CFR 2.309 (f)(1), a request for hearing or petitions for leave to intervene must set forth with particularity the contentions sought to be raised. For each contention, the request or petition must:

1. Provide a specific statement of the issue of law or fact to be raised or controverted;
2. Provide a brief explanation of the basis for the contention;
3. Demonstrate that the issue raised in the contention is within the scope of the proceeding;
4. Demonstrate that the issue raised in the contention is material to the findings that the NRC must make to support the action that is involved in the proceeding;
5. Provide a concise statement of the alleged facts or expert opinions which support the requestor's/petitioner's position on the issue and on which the requestor/petitioner intends to rely to support its position on the issue; and
6. Provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. This information must include references to specific portions of the application (including the applicant's environmental report and safety report) that the requestor/petitioner disputes and the supporting reasons for each dispute, or, if the requestor/petitioner believes the application fails to contain information on a relevant matter as required by law, the identification of each failure and the supporting reasons for the requestor's/petitioner's belief.

In addition, in accordance with 10 CFR 2.309(f)(2), contentions must be based on documents or other information available at the time the petition is to be filed, such as the

application, supporting safety analysis report, environmental report or other supporting document filed by an applicant or licensee, or otherwise available to the petitioner. On issues arising under the National Environmental Policy Act, the requestor/petitioner shall file contentions based on the applicant's environmental report. The requestor/petitioner may amend those contentions or file new contentions if there are data or conclusions in the NRC draft, or final environmental impact statement, environmental assessment, or any supplements relating thereto, that differ significantly from the data or conclusions in the applicant's documents. Otherwise, contentions may be amended or new contentions filed after the initial filing only with leave of the presiding officer.

Each contention shall be given a separate numeric or alpha designation within one of the following groups:

1. *Technical*—primarily concerns issues relating to matters discussed or referenced in the Safety Evaluation Report for the proposed action.
2. *Environmental*—primarily concerns issues relating to matters discussed or referenced in the Environmental Report for the proposed action.
3. *Emergency Planning*—primarily concerns issues relating to matters discussed or referenced in the Emergency Plan as it relates to the proposed action.
4. *Physical Security*—primarily concerns issues relating to matters discussed or referenced in the Physical Security Plan as it relates to the proposed action.
5. *Miscellaneous*—does not fall into one of the categories outlined above.

If the requestor/petitioner believes a contention raises issues that cannot be classified as primarily falling into one of these categories, the requestor/petitioner must set forth the contention and supporting bases, in full, separately for each category into which the requestor/petitioner asserts the contention belongs with a separate designation for that category.

Requestors/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requestors/petitioners is designated the lead representative. Further, in accordance with 10 CFR 2.309(f)(3), any requestor/petitioner that wishes to adopt a contention proposed by another requestor/petitioner must do so in writing within ten days of the date the contention is filed, and designate a representative who shall have the

authority to act for the requestor/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.

III. Further Information

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," details with respect to this action, including the application for amendment and supporting documentation, are available electronically for public inspection and copying from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The relevant documents can be found in ADAMS at ML040150463. These documents may also be viewed electronically on the public computers located at the NRC's Public Document Room (PDR), O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee. Persons who do not have access to ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or (301) 415-4737, or by e-mail to pdr@nrc.gov.

Dated in Rockville, Maryland, this 10th day of March, 2004.

For the Nuclear Regulatory Commission.

Myron Fliegel,

Project Manager, Fuel Cycle Facilities Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards.

NUCLEAR REGULATORY COMMISSION

Application for a License To Export a Utilization Facility

Pursuant to 10 CFR 110.70(b)(1) "Public notice of receipt of an application," please take notice that the Nuclear Regulatory Commission has received the following request for an export license. Copies of the request are available electronically through ADAMS and can be accessed through the Public Electronic Reading Room (PERR) link <http://www.nrc.gov/NRC/ADAMS/index.html> at the NRC home page.

A request for a hearing or petition for leave to intervene may be filed within 30 days after publication of this notice in the **Federal Register**. Any request for hearing or petition for leave to intervene

shall be served by the requestor or petitioner upon the applicant, the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555; the Secretary, U.S. Nuclear Regulatory Commission, Washington,

DC 20555; and the Executive Secretary, U.S. Department of State, Washington, DC 20520.

In its review of the application for a license to export a utilization facility as defined in 10 CFR part 110 and noticed

herein, the Commission does not evaluate the health, safety or environmental effects in the recipient nation of the facility to be exported. The information concerning the application follows.

NRC EXPORT LICENSE APPLICATION FOR A UTILIZATION FACILITY

Name of Applicant: Westinghouse Electric Company. Date of Application: February 25, 2004. Date Received: February 26, 2004. Application Number: XR169 Docket Number: 11005472.	Description of Facility: Major equipment, replacement parts and components for construction of four (4) utilization facilities (pressurized water reactors) of between 900 to 1500 MWe each.. Approximate Value: \$2.5 Billion.	End Use: For electricity generation at the Ling Ao Site and San Men Site.	Country of Destination: People's Republic of China

NUCLEAR REGULATORY COMMISSION

Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission (NRC) has issued a revision of a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques used by the staff in its review of applications for permits and licenses, and data needed by the NRC staff in its review of applications for permits and licenses.

Revision 3 of Regulatory Guide 1.32, "Criteria for Power Systems for Nuclear Power Plants," provides guidance to licensees and applicants of nuclear power, research, and test reactors concerning methods acceptable to the NRC staff for complying with the NRC's regulations for the design, operation, and testing of electric power systems in nuclear power plants.

Comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time. Written comments may be submitted to the Rules and Directives Branch, Division of

Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Questions on the content of this guide may be directed to Mr. S.K. Aggarwal, (301) 415-6005; e-mail ska,nrc.gov.

Regulatory guides are available for inspection or downloading at the NRC's Web site at <http://www.nrc.gov> under Regulatory Guides and in NRC's Electronic Reading Room (ADAMS System) at the same site. Single copies of regulatory guides may be obtained free of charge by writing the Reproduction and Distribution Services Section, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by fax to (301) 415-2289, or by e-mail to Distribution@nrc.gov. Issued guides may also be purchased from the National Technical Information Service (NTIS) on a standing order basis. Details on this service may be obtained by writing NTIS at 5285 Port Royal Road, Springfield, VA 22161; telephone 1-800-553-6847; <http://www.ntis.gov/>. Regulatory guides are not copyrighted, the Commission approval is not required to reproduce them. (5 U.S.C. 552(a))

Dated at Rockville, MD this 4th day of March 2004.

For the Nuclear Regulatory Commission.

Jack R. Strosnider,

Deputy Director, Office of Nuclear Regulatory Research.

BILLING CODE 7590-01-M

OFFICE OF PERSONNEL MANAGEMENT

Federal Prevailing Rate Advisory Committee; Open Committee Meetings

According to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on—

Thursday, March 25, 2004;
 Thursday, April 8, 2004; and
 Thursday, April 22, 2004.

The meetings will start at 10 a.m. and will be held in Room 5A06A, Office of Personnel Management Building, 1900 E Street, NW., Washington, DC.

The Federal Prevailing Rate Advisory Committee is composed of a Chair, five representatives from labor unions holding exclusive bargaining rights for Federal blue-collar employees, and five representatives from Federal agencies. Entitlement to membership on the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the Prevailing Rate System and other matters pertinent to establishing prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Personnel Management.

This scheduled meeting will start in open session with both labor and management representatives attending. During the meeting either the labor members or the management members may caucus separately with the Chair to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would unacceptably impair the ability of the Committee to reach a consensus on the
