

submit FERC-582 to the Commission's Office of the Secretary by April 30 of each year. The Commission issues bills for annual charges, and public utilities and power marketers then must pay the charges within 45 days of the Commission's issuance of the bill.

The Commission's staff uses companies' financial information filed

under waiver provisions to evaluate requests for a waiver or exemption of the obligation to pay a fee for an annual charge. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 381, sections 381.108 and 381.302 and part 382, section 382.201(c).

**Action:** The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

**Burden Statement:** Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1) × (2) × (3)
192 .....	1	4	768

**Estimated Cost Burden to Respondents:** 768 hours / 2,080 hours per year x \$107,185 per year = \$39,576. The cost per respondent is equal to \$206.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the

burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**FOR FURTHER INFORMATION CONTACT:**

Michael Miller may be reached by telephone at (202) 502-8415, by fax at (202) 273-0873, and by e-mail at [michael.miller@ferc.gov](mailto:michael.miller@ferc.gov).

**SUPPLEMENTARY INFORMATION:**

**Description**

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC Form 580 "Interrogatory on Fuel and Energy Purchases Practices, Docket No. IN79-6."

2. *Sponsor:* Federal Energy Regulatory Commission.

3. *Control No.:* 1902-0137.

The Commission is now requesting that OMB approve with a three-year extension of the expiration date, with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary to enable the Commission to carry out its responsibilities in implementing the statutory provisions of sections 205-206 of the Federal Power Act as amended by section 208 of the Public Utility Regulatory Policies Act (PURPA). The Commission is required to review "not less frequently than every two (2) years \* \* \* of practices \* \* \* to ensure the efficient use of resources (including economical purchase and use of fuel and electric energy) \* \* \*." The information is used to: (1) Review as mandated by statute, fuel purchase and cost recovery practices to insure efficient use of resources, including economical purchase and use of fuel and electric energy, under fuel adjustment clauses on file with the Commission; (2) evaluate fuel costs in individual rate filings; (3) to supplement periodic utility audits; and (4) to monitor changes and trends in the electric wholesale market. Electric market participants and the public are using the information to track market changes and trends in the electric wholesale market. The data has helped to identify market conditions. The Commission implements the filing requirements in the Code of Regulations (CFR) under 18 CFR parts 35.14.

5. *Respondent Description:* The respondent universe currently

comprises 114 companies (on average per year) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 3,600 total hours, 114 respondents (57 average per year), .5 responses per respondent, and 63 hours per response (average) (1 hour for those respondents without fuel adjustment clauses and 110 hours for those respondents with fuel adjustment clauses).

7. *Estimated Cost Burden to Respondents:* 3,600 hours / 2080 hours per year × \$107,185 per year = \$185,512.

*Statutory Authority:* Sections 205-206 of the FPA (16 U.S.C. 824d and e) and section 208 of the Public Utility Regulatory Policies Act (PURPA), (16 U.S.C. 2601 *et al.*).
