

antidumping duty margins for Luoyang and Premier consistent with those final results of redetermination pursuant to remand.

The revised weighted-average dumping margins for Luoyang and Premier are as follows:

Exporter/manufacture	Weighted-average margin percentage
Luoyang Bearing Factory	5.15
Premier Bearing and Equipment, Ltd.	24.55

The Department will issue appraisal instructions directly to the CBP. The Department will instruct CBP to assess appropriate antidumping duties on the relevant entries of the subject merchandise covered by this review.

This notice is issued and published in accordance with section 751(a)(1) of the Act.

Dated: January 9, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 122203D]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of an application for a scientific research/enhancement permit (1463); request for comment.

SUMMARY: Notice is hereby given that NMFS has received an application for a permit from Ted Sedell, U. S. Forest Service in Corvallis, OR (permit 1463). The permit would affect one Evolutionarily Significant Unit (ESU) of salmonids identified in the Supplementary Information section of this notice. This document serves to notify the public of the availability of the permit application for review and comment before a final approval or disapproval is made by NMFS.

DATES: Written comments must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Daylight Savings Time on February 17, 2004.

ADDRESSES: Written comments on the modification request should be sent to the Arcata Field Office, Protected Resources Division, NMFS, 1655 Heidon Road, Arcata, CA, 95521. Comments may also be sent via fax to 707 825 4840. Comments will not be accepted if submitted via e-mail or the Internet.

The permit application and related documents are available for review, by appointment at the Arcata Field Office, Protected Resources Division, NMFS, 1655 Heidon Road, Arcata, CA, 95521, (ph: 707-825-5180; fax: 707 825 4840).

FOR FURTHER INFORMATION CONTACT:

Karen Hans at 707-825-5180, or e-mail: Karen.Hans@noaa.gov.

SUPPLEMENTARY INFORMATION:

Authority

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531 1543) (ESA), is based on a finding that such permits/modifications (1) Are applied for in good faith, (2) would not operate to the disadvantage of the listed species which are the subject of the permits, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and permit modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

This notice is relevant to the following ESU:

Coho salmon (*Oncorhynchus kisutch*): threatened Southern Oregon/Northern California Coast (SONCC).

Individuals requesting a hearing on the application listed in this notice should set out in writing the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Permit Application Received

Ted Sedell, U.S. Forest Service, requests a permit for the take of 700 juvenile ESA-listed SONCC coho salmon associated with studies assessing presence and population abundances of fish and amphibian species in selected streams/rivers throughout northern California. The

study is part of a larger survey program designed to monitor land use actions on all federal lands covered by the Northwest Forest Plan (NWFP). The applicant proposes to use single pass electrofishing as the method of capture. Permit 1463 will expire December 31, 2006.

Dated: January 9, 2004.

Phil Williams,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

[I.D. 122203E]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of applications for scientific research/enhancement permits (1464 and 1467); request for comment.

SUMMARY: Notice is hereby given that NMFS has received permit applications from S.P. Cramer & Associates, Inc. (S.P. Cramer) in Chico, CA (1464), and A.P. Klimley in Davis, CA (1467). The permits would affect federally endangered Sacramento River winter-run Chinook salmon, threatened Central Valley spring-run Chinook salmon, and threatened Central Valley steelhead. This document serves to notify the public of the availability of the permit applications for review and comment before a final approval or disapproval is made by NMFS.

DATES: Written comments must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific Standard Time on February 17, 2004.

Written comments on the permit applications should be sent to the Protected Resources Division, NMFS, 650 Capitol Mall, Suite 8-300, Sacramento, CA 95814. Comments may also be sent via fax to 916-930-3629. Comments will not be accepted if submitted via e-mail or the Internet. The applications and related documents are also available for review by appointment, for permits 1464 and 1467 at the aforementioned address.

SUPPLEMENTARY INFORMATION:**Authority**

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications (1) are applied for in good faith, (2) would not operate to the disadvantage of the listed species which are the subject of the permits, and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and permit modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222–226).

Individuals requesting a hearing on either or both of the applications listed in this notice should set out in writing the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

Species Covered in This Notice

This notice is relevant to federally endangered Sacramento River winter-run Chinook salmon (*Oncorhynchus tshawytscha*), threatened Central Valley spring-run Chinook salmon (*O. tshawytscha*), and threatened Central Valley steelhead (*O. mykiss*).

Permit Applications Received

S.P. Cramer requests a 5-year permit (1464) to take juvenile Central Valley steelhead to monitor its migratory behavior of *O. mykiss* in the Calaveras River, CA. The applicant requests authorization for an estimated annual take of 6,423 juvenile Central Valley steelhead (with 4.7 percent incidental mortality) resulting from capturing, tagging, and releasing fish.

A.P. Klimley requests a 2-year permit (1467) to handle and release adult winter-run Chinook salmon, spring-run Chinook salmon, and Central Valley steelhead that may be incidentally caught in nets deployed to capture green sturgeon (*Acipenser medirostris*) in the San Francisco Estuary and Sacramento River. Klimley requests authorization for an estimated annual take of 6 adult Sacramento River winter-run Chinook salmon, 15 adult Central Valley spring-run Chinook salmon, and 3 adult

Central Valley steelhead, with no more than one third incidental mortality resulting from capture and release of fish.

Dated: January 9, 2004.

Phil Williams,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–S

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[I.D. 120803A]

Taking of Marine Mammals Incidental to Specified Activities; Brunswick Harbor Deepening Project, Glynn County, Georgia

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of application and proposed authorization for a small take exemption; request for comments.

SUMMARY: NMFS has received a request from the U.S. Army Corps of Engineers-Savannah District (Corps) for an Incidental Harassment Authorization (IHA) to take small numbers of marine mammals, by harassment, incidental to deepening the inner harbor portion of the Brunswick Harbor in Glynn County, GA to a depth of -36 ft (-11 m) mean low water (MLW) in the inner harbor and -38 ft (-11.6 m) MLW across the bar channel. Under the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue a 1-year IHA, to the Corps to incidentally take, by harassment, small numbers of bottlenose dolphins (*Tursiops truncatus*) as a result of conducting this activity.

DATES: Comments and information must be received no later than February 17, 2004.

ADDRESSES: Comments on the application should be addressed to Michael Payne, Chief, Marine Mammal Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910–3225. Comments cannot be accepted if submitted via e-mail or the Internet. A copy of the application may be obtained by writing to this address or by telephoning the contact listed here. Publications referenced in this document are available for viewing, by

appointment during regular business hours, at this address.

FOR FURTHER INFORMATION CONTACT: Kenneth R. Hollingshead, NMFS, (301) 713–2322, ext 128.

SUPPLEMENTARY INFORMATION:**Background**

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Permission may be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses and that the permissible methods of taking and requirements pertaining to the monitoring and reporting of such takings are set forth. NMFS has defined “negligible impact” in 50 CFR 216.103 as “an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.”

Subsection 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the United States can apply for an authorization to incidentally take small numbers of marine mammals by harassment. The MMPA defines “harassment” as:

any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild [Level A harassment]; or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering [Level B harassment].

Subsection 101(a)(5)(D) establishes a 45-day time limit for NMFS review of an application followed by a 30-day public notice and comment period on any proposed authorizations for the incidental harassment of small numbers of marine mammals. Within 45 days of the close of the comment period, NMFS must either issue or deny issuance of the authorization.
