Grant-funded activity must take place within the footprint of the regulated port, terminal U.S. inspected passenger vessel, or ferry.

In addition, applicants must have completed a security assessment and tie the security enhancements to their assessment in order to submit an eligible grant application. Security assessments must be available for review upon the request of the evaluators.

In addition, TSA must analyze the potential environmental impacts, as required by the National Environmental Policy Act (NEPA), for projects being considered for Federal funding. The purpose of the NEPA review is to weigh the impacts of major Federal actions (such as security enhancements) on elements such as adjacent communities, water supplies, historical buildings or

culturally sensitive areas prior to construction. Consequently, applicants may be required to provide additional detailed information on the activities to be conducted, locations sites, possible construction activities, and any environmental concerns that may exist.
