Energy Information Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Agency information collection activities: proposed collection; comment request.

SUMMARY: The EIA is soliciting comments on the proposed revision and three-year extension to the Form EIA-886, "Annual Survey of Alternative Fueled Vehicle Suppliers and Users."

DATES: Comments must be filed by July 16, 2004. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.

ADDRESSES: Send comments to Mary Joyce. To ensure receipt of the comments by the due date, submission by fax (202-287-1944) or e-mail (mary.joyce@eia.doe.gov) is recommended. The mailing address is Energy Information Administration, EI-52, Forrestal Building, U.S. Department of Energy, Washington, DC 20585. Alternatively, Mary Joyce may be contacted by telephone at (202) 287-1752.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of any forms and instructions should be directed to Mary Joyce at the address listed above.

SUPPLEMENTARY INFORMATION:

I. Background

II. Current Actions

III. Request for Comments

I. Background

The Federal Energy Administration Act of 1974 (Pub. L. 93-275, 15 U.S.C. 761 *et seq.*) and the DOE Organization Act (Pub. L. 95-91, 42 U.S.C. 7101 *et seq.*) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Any comments received help the EIA to prepare data requests that maximize the utility of the information collected, and to assess the impact of collection requirements on the public. Also, the EIA will later seek approval by the Office of Management and Budget (OMB) under section 3507(a) of the Paperwork Reduction Act of 1995.

Form EIA-886, the Annual Survey of Alternative Fueled Vehicle Suppliers and Users, is an annual survey that collects information on:

1. The number and type of alternative fueled vehicles (AFVs) that vehicle suppliers made available in the previous calendar year and plan to make available in the following calendar year;

2. The number, type and geographic distribution of AFVs in use in the previous calendar year; and

3. The amount and distribution of each type of alternative transportation fuel (ATF) consumed in the previous calendar year.

The EIA-886 data are collected from suppliers and users of AFVs. The objectives of the EIA-886 survey are to:

1. Comply with section 503 of the Energy Policy Act of 1992 (EPACT) that requires the EIA to collect information and provide estimates related to alternative fueled vehicles, alternate transportation fuels, and replacement fuels;

2. Satisfy public requests for information on AFVs and ATFs;

3. Provide Congress with a measure of the extent to which the objectives of EPACT are being achieved; and

4. Provide EIA with a basis for estimating and forecasting total AFV and ATF use in the U.S.

The results of the EIA-886 are released annually on EIA's Web site at <http://www.eia.doe.gov/fuelalternat.html>.

II. Current Actions

EIA will be requesting a three-year extension of approval to its alternative fuel survey with the following survey changes.

1. Suppliers of AFVs, who report on section 3 of the form, will be requested to report the State where the AFV's were delivered or sold.

2. Users of AFVs, who report on section 2, will be requested to categorize alternative fuel consumption by fuel type, State, vehicle type, primary application, and engine configuration. Previously, they were requested to report alternative fuel consumption by fuel type and State only.
