The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend Class E5 airspace at Dayton, TN. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (Air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective

September 16, 2003, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

SUPPLEMENTARY INFORMATION:

Regulatory History

On November 7, 2001, we published three temporary final rules in the **Federal Register** (66 FR 56208, 56210, 56212) that created security zones effective through June 1, 2002. The section numbers and titles for these zones are—

Section 165.T17-003—Security zone: Trans-Alaska Pipeline Valdez Terminal Complex, Valdez, Alaska;

Section 165.T17-004—Security zone; Port Valdez; and

Section 165.T17-005—Security zones: Captain of the Port Zone, Prince William Sound, Alaska.

Then on June 4, 2002, we published a temporary final rule (67 FR 38389) that established security zones to replace these security zones. That rule issued in April 2002, which expired July 30, 2002, created temporary § 165.T17-009, entitled “Port Valdez and Valdez Narrows, Valdez, Alaska—security zone”.

Then on July 31, 2002, we published a temporary final rule (67 FR 49582) that established security zones to extend the temporary security zones that would have expired July 30, 2002. This extension was to allow for the completion of a notice-and-comment rulemaking to be completed to create

permanent security zones to replace the temporary zones. On October 23, 2002, we published the notice of proposed rulemaking that sought public comment on establishing permanent security zones similar to the temporary security zones (67 FR 65074). The comment period for that NPRM ended December 23, 2002. Although no comments were received that would result in changes to the proposed rule an administrative omission was found that resulted in the need to issue a supplemental notice of proposed rulemaking (SNPRM) to address the “Collection of Information” section of the proposed rule (68 FR 14935, March 27, 2003). Then, on December 30, 2002, we issued a temporary final rule (68 FR 26490, May 16, 2003) that established security zones to extend the temporary security zones until June 30, 2003. This extension was to allow for a rulemaking for the permanent security zones to be completed. Then, on September 12, 2003, we issued a temporary final rule (68 FR 62009, October 31, 2003) that established security zones to extend the temporary security zones through March 12, 2004.

Elsewhere in today's **Federal Register** we have published a temporary final rule that creates temporary security zones through October 31, 2004, to allow for the rulemaking involving this SNPRM to be completed. This SNPRM proposes permanent security zones identical to the ones in that TFR. Additionally, this SNPRM makes changes to the security zones described in the original NPRM published on October 23, 2002 (67 FR 65074). These changes include more accurate position information for the boundaries of the security zone and removal of the requirement for written requests for entry into the zone.
