

programs, pursuant to sections 7(c), 24, 205, 301(a)(3), 301(a)(4), and 301(c) of the Federal Meat Inspection Act (21 U.S.C. 607(c), 624, 645, 661(a)(3), 661(a)(4), and 661(c)) and sections 5(a)(3), 5(a)(4), 5(c), 8(b), and 11(e) of the Poultry Products Inspection Act (21 U.S.C. 454(a)(3), 454(a)(4), 454(c), 457(b), and 460(e)).

The Administrator of the Food Safety and Inspection Service (FSIS) is the chairperson of the Committee. Membership of the Committee is drawn from representatives of consumer groups; producers, processors and marketers from the meat and poultry industry; state government officials; and academia. The current members of the NACMPI are: Ms. Deanna Baldwin, Maryland Department of Agriculture; Dr. Gladys Bayse, Spelman College; Dr. David Carpenter, Southern Illinois University; Dr. James Denton, University of Arkansas; Mr. Kevin Elfering, Minnesota Department of Agriculture; Ms. Sandra Eskin, American Association of Retired Persons; Mr. Michael Govro, Oregon Department of Agriculture; Dr. Joseph Harris, Southwest Meat Association; Dr. Jill Hollingsworth, Food Marketing Institute; Dr. Alice Johnson, National Turkey Federation; Mr. Michael Kowalczyk, Safe Tables Our Priority; Dr. Irene Leech, Virginia Citizens Consumer Council; Mr. Charles Link, Cargill Meat Solutions; Dr. Catherine Logue, North Dakota State University; and Mr. Mark Schad, Schad Meats. The Committee has three subcommittees to deliberate on specific issues and make recommendations to the Committee.

One of the issues to be discussed at the meeting will be FSIS's interim final rule on the control of *Listeria monocytogenes* (Lm) in ready-to-eat meat and poultry products (68 FR 34207, June 6, 2003). FSIS is interested in learning the Committee's opinion of the Agency's efforts to assess the effectiveness of the interim final rule. The Committee will also examine whether the Agency should require that establishments develop food security plans. Finally, the Committee will consider whether FSIS should require test and hold procedures for meat and poultry products that are subjected to verification testing for the presence of an adulterant by the Agency.

All interested parties are welcome to attend the meetings and to submit written comments and suggestions concerning issues the Committee will review and discuss. The comments and the official transcript of the meeting, when they become available, will be kept in the FSIS Docket Room at the address provided above. All comments

received in response to this notice will be considered part of the public record and will be available for viewing in the FSIS Docket Room between 8:30 a.m. and 4:30 p.m., Monday through Friday, except for Federal holidays.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to better ensure that the public and in particular that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it online through the FSIS Web page located at <http://www.fsis.usda.gov> and through the Regulations.gov Web site. The Regulations.gov Web site is the central online rulemaking portal of the United States government. It is being offered as a public service to increase participation in the Federal government's regulatory activities. FSIS participates in Regulations.gov and will accept comments on documents published on the site. The site allows visitors to search by keyword or Department or Agency for rulemakings that allow for public comment. Each entry provides a quick link to a comment form so that visitors can type in their comments and submit them to FSIS. The Web site is located at <http://www.regulations.gov>.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to our constituents and stakeholders. The update is communicated via Listserv, a free e-mail subscription service consisting of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The update also is available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader, more diverse audience.

Barbara J. Masters,
Acting Administrator.

Forest Service

Notice of Madison-Beaverhead Advisory Committee Meeting

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: Pursuant to the authorities in the Federal Advisory Committee Act (Pub. L. 92-463) and under the Secure Rural Schools and Community Self-Determination Act of 2000 (Pub. L. 106-393) the Beaverhead-Deerlodge National Forest's Madison-Beaverhead Resource Advisory Committee will meet on Tuesday, June 15, 2004 from 10 a.m. until 4 p.m. in Dillon, Montana, for its first business meeting. The meeting is open to the public.

DATES: Tuesday, June 15, 2004.

ADDRESSES: The meeting will be held in the Lewis & Clark Room in Mathews Hall at the University of Montana—Western, 710 South Atlantic Street, Dillon, MT 59725.

FOR FURTHER INFORMATION CONTACT: Thomas K. Reilly, Designated Forest Official (DFO), Forest Supervisor, Beaverhead-Deerlodge National Forest, at (406) 683-3973.

SUPPLEMENTARY INFORMATION: Agenda topics for this meeting include an orientation on committee responsibilities for new members, electing a chair for the committee, administrative information for members, public comment, and discussion about project proposals, as authorized under Title II of Public Law 106-393. If the meeting location is changed, notice will be posted in local newspapers, including the Dillon Tribune and The Montana Standard.

Dated: May 13, 2004.

Thomas K. Reilly,
Forest Supervisor.

Implementation of the National Forest Organizational Camp Fee Improvement Act of 2003; Correction

AGENCY: USDA, Forest Service.

ACTION: Notice of issuance of agency directives; correction.

SUMMARY: The Forest Service published a document in the **Federal Register** of May 4, 2004, providing notice of the issuance of agency directives for implementation of the National Forest Organizational Camp Fee Improvement Act of 2003. The document contained several incorrect amendment and interim directive numbers.

FOR FURTHER INFORMATION CONTACT: Kenneth Karkula, Recreation, Heritage,

and Wilderness Resources Staff (202–205–1426), USDA, Forest Service.

Correction

In the **Federal Register** of May 4, 2004, in FR Doc. 04–10064, on page 24559, in the second column, correct the third sentence in the “Summary” to read: These revisions involve amendments and interim directives (IDs) to Forest Service Manual (FSM) 2340 (Amendment 2300–2004–1); FSM 2700, zero code chapter (Amendment 2700–2004–1); FSM 2720 (Amendment 2700–2004–2); and Forest Service Handbook (FSH) 2709.11, chapter 30 (ID 2709.11–2004–1), chapter 40 (ID 2709.11–2004–2), and chapter 50 (Amendment 2709.11–2004–2).

Dated: May 11, 2004.

Gloria Manning,

Associate Deputy Chief.

Natural Resources Conservation Service

Yellow River Watershed Structure No. 16: Gwinnett County, GA

AGENCY: Natural Resources Conservation Service, Agriculture.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to Section 102[2][c] of the National Environmental Policy Act of 1969, the Council on Environmental Quality Regulations (40 CFR part 1500); and the Natural Resources Conservation Service Regulations (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Yellow River Watershed Structure No. 16, Gwinnett County, Georgia.

FOR FURTHER INFORMATION CONTACT:

Jimmy Bramblett, Water Resources Programs Leader, Natural Resources Conservation Service, Federal Building, 355 East Hancock Avenue, Athens, Georgia 30601, Telephone [706] 546–2073, E-Mail jimmy.bramblett@ga.usda.gov.

SUPPLEMENTARY INFORMATION: The Environmental Assessment of this federal assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Leonard Jordan, State Conservationist, has determined that the preparation and review of an

environmental impact statement is not needed for this project.

The project purpose is continued flood prevention. The planned works of improvement include upgrading an existing floodwater retarding structure.

The Notice of a Finding of No Significant Impact [FONSI] has been forwarded to the U.S. Environmental Protection Agency and to various Federal, State, and local agencies and interest parties. A limited number of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Jimmy Bramblett at the above number.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

Leonard Jordan,

State Conservationist.

[This activity is listed in the Catalog of Federal Domestic Assistance under 10.904, Watershed Protection and Flood Prevention, and is subject to the provisions of Executive Order 12372, which requires inter-government consultation with State and local officials].

Finding of No Significant Impact for Yellow River Watershed Structure No. 16, Gwinnett County, Georgia, May 2004

Introduction

The Yellow River Watershed is a federally assisted action authorized for planning under Public Law 106–472, the Watershed Rehabilitation Act, which amends Public Law 83–566, the Watershed Protection and Flood Prevention Act. An environmental assessment was undertaken in conjunction with development of the watershed plan. This assessment was conducted in consultation with local, State, and Federal agencies as well as with interested organizations and individuals. Data developed during the assessment are available for public review at the following location: U.S. Department of Agriculture, Natural Resources Conservation Service, 355 East Hancock Avenue, Athens, Georgia 30601.

Recommended Action

This document describes a plan for upgrading an existing floodwater retarding structure, Yellow River Watershed Structure No. 16[Y–16], to meet current dam safety criteria in Georgia. The plan calls for construction of a roller compacted concrete spillway over the embankment of the existing earthen dam. Works of improvement

will be accomplished by providing financial and technical assistance through an eligible local sponsor.

The principal project measures are to:

1. Construct a 260-foot wide rollover compacted concrete [RCC] chute spillway to protect underlying soil materials from erosion during overtopping. The RCC will be constructed as a staged broad-crested weir. This constructed auxiliary spillway is designed to bring the existing dam into compliance with current dam safety criteria in Georgia. The current auxiliary spillway will be removed from service.

2. The measures will be planned and installed by developing a contract with the current operator of the dam.

Effects of Recommended Action

Installing a roller compacted concrete spillway will bring Yellow River Watershed Structure No. 16 into compliance with current dam safety criteria. This will essentially eliminate the risk to loss of life for individuals in 40 homes, 1 recreational facility, and 1 road downstream. Additional effects will include continued protection against flooding, continued water quality benefits, continued fishing activities, continued recreational opportunities, protected land values, protected road and utility networks, and reduced maintenance costs for public infrastructure.

Wildlife habitat will not be disturbed during installation activities. No wetlands, wildlife habitat, fisheries, prime farmland, or cultural resources will be destroyed or threatened by this project. Some 13 acres of wetland and wetland type wildlife habitat will be preserved. Fishery habitats will also be maintained.

No endangered or threatened plant or animal species will be adversely affected by the project.

There are no wilderness areas in the watershed.

Scenic values will be complemented with improved riparian quality and cover conditions resulting from the installation of conservation animal waste management system and grazing land practices.

Alternatives

Eight alternative plans of action were considered in project planning. No significant adverse environmental impacts are anticipated from installation of the selected alternative. Also, the planned action is the most practical, complete, and acceptable means of protecting life and property of downstream residents.
