

not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Policy: MMS's practice is to make comments, including names and addresses of respondents, available for public review during regular business hours. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor this request to the extent allowable by law; however, anonymous comments will not be considered. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

MMS Federal Register Liaison Officer: Denise Johnson (202) 208-3976.

Dated: May 11, 2004.

E.P. Danenberger,

Chief, Engineering and Operations Division.

BILLING CODE 4310-MR-U

DEPARTMENT OF THE INTERIOR

National Park Service

Lake Mead National Recreation Area; Environmental Assessment

AGENCY: National Park Service, Interior.

ACTION: Availability of environmental assessment.

SUMMARY: Lake Mead National Recreation Area (NRA) will release for public review an Environmental Assessment (EA) regarding the construction and operation of a wireless telecommunication facility. Cingular Wireless has proposed to construct the facility, referred to as the Saddle Cove site, near the Boulder Maintenance Facility within Lake Mead NRA, a unit of the National Park System. The overall objective of the project is to serve the public interest by providing improved wireless cellular coverage to the area. In order to provide coverage to a sufficient area, new facilities must be located

within a search ring so that calls can hand off from existing facilities to the new ones without being lost. The proposed site, which is located in a developed area, is approximately 40' x 40' in size, and the proposed facility will include a small building and 120-foot lattice tower mounted with microwave dishes and several antennas.

DATES: The EA will be released for public review on or before June 15, 2004. Written comments must be postmarked no later than July 15, 2004. Copies of the document can be requested from the Office of the Superintendent, or the document can be viewed online at <http://www.nps.gov/lame/pphtml/documents.html>.

ADDRESSES: Comments should be mailed to Superintendent, Lake Mead NRA, 601 Nevada Way, Boulder City, NV 89005, or submitted by e-mail on the park's Web site at <http://www.nps.gov/lame/pphtml/contact.html>.

FOR FURTHER INFORMATION CONTACT:

Michael Boyles, Environmental Compliance Specialist, Lake Mead National Recreation Area, (702) 293-8978.

SUPPLEMENTARY INFORMATION: Cingular Wireless worked in cooperation with the National Park Service to prepare the EA. Public scoping occurred between March 15 and April 15, 2004. The park prepared a press release for local media outlets and the park website to announce Cingular's proposal and the intent to prepare an EA. One comment was received, supporting the project based on the increased safety associated with cellular phone coverage.

The park will use the EA and the comments it receives from the public in making its decision as to whether, and under what conditions, to grant the applicant's request for a right-of-way permit for the telecommunications facility. The applicant pays for the processing of the application and, if it is approved, the applicant will pay fair market value for the use of the land. Approval of the request would result in the construction of a 120-foot lattice tower, mounted with a microwave dish and several antennas. Associated equipment would be located in a shelter approximately 10' by 16' in size near the base of the tower. Approximately 290 feet of trenching would be necessary to connect the proposed facility to existing utilities. The total area of the site is approximately 40' by 40'. Access to the site would require grading a 45 foot long road to connect the site to an existing powerline road. The site will be constructed in an area previously disturbed by the construction of Boulder Beach Filtration Plant, Ranger Station,

and Maintenance Yard, which are located nearby.

The EA will address impacts to soils and vegetation, wildlife, air quality, scenic quality, cultural resources, visitor experience, safety, and land use. Biological surveys found no threatened or endangered species in the project area. The EA will be sent to agencies, organizations, and individuals on the park's mailing list, and to others who request a copy. Copies of the EA can be requested by writing to the Superintendent, 601 Nevada Way, Boulder City, NV 89005, or the document can be viewed online at <http://www.nps.gov/lame/pphtml/documents.html>.

Dated: May 5, 2004.

Bernard C. Fagan,

Deputy Chief, Office of Policy, National Park Service.

DEPARTMENT OF THE INTERIOR

National Park Service

Mammoth Cave National Park; Environmental Assessment

AGENCY: National Park Service.

ACTION: Notice of document availability.

SUMMARY: (Authority: 16 U.S.C. 3; 16 U.S.C. 5; 16 U.S.C. 79; Director's Order 53). Mammoth Cave National Park will release for public review the Environmental Assessment regarding placement of a wireless telecommunication facility (WTF). Kentucky RSA #3 Cellular General Partnership d/b/a Bluegrass Cellular has proposed to construct a telecommunications facility (WTF) at the Hickory Cabin Fire Tower site within Mammoth Cave National Park, a unit of the National Park Service. It is the responsibility of Mammoth Cave National Park and the purpose of the Environmental Assessment to evaluate the impacts of the proposed wireless telecommunication facility on the park environs. The Environmental Assessment addresses the proposed placement and one alternative placement of the Wireless Telecommunication facility within the park.

DATES: The Environmental Assessment will be released in June 2004 and will be available for public review for at least 30 days at the Office of the Superintendent and online at the Mammoth Cave National Park Web site <http://www.nps.gov/maca/pphtml/documents.html>.

FOR FURTHER INFORMATION CONTACT:

Henry Holman, Management Assistant,
270-758-2187.

SUPPLEMENTARY INFORMATION: Copies of the document can be requested by writing to the Superintendent, P.O. Box 7, Mammoth Cave, Kentucky 42259 or by e-mail addressed to Henry_Holman@nps.gov.

Dated: April 7, 2004.

Patricia A. Hooks,

Regional Director, Southeast Region.

BILLING CODE 4312-52-P

DEPARTMENT OF THE INTERIOR**National Park Service**

Notice of Intent To Prepare an Environmental Impact Statement, Arlington County and Vicinity Rowing Facility, George Washington Memorial Parkway

SUMMARY: In accordance with section 102(2)(c) of the National Environmental Policy Act of 1969, the National Park Service (NPS) is preparing an Environmental Impact Statement (EIS) to assess the impacts of building a boathouse with indoor storage space and floating docks at four possible locations within George Washington Memorial Parkway, two on the shore opposite Theodore Roosevelt Island, one south of the CSX/14th Street Bridges, and another on Daingerfield Island. For each location the EIS will consider the impact of two sizes of boathouse, approximately 10,000 square feet and 14,000 square feet. The proposed facility will house high school rowing programs, provide additional storage bays for the general public, as well as training facilities.

Public Involvement: Public involvement will be a key component in the preparation of the EIS. The NPS will be holding a public scoping meeting sometime during the months of May or June 2004 at a public site in Arlington County to provide the public an opportunity to present ideas, questions, and concerns directly to the planning team. The location and time will be advertised in the local newspapers and media.

The purpose of this meeting is to determine the concerns/issues that should be addressed in the EIS. Individuals unable to attend the scoping meetings may request information from the Superintendent, George Washington Memorial Parkway at the address listed below, or by checking our homepage on the Internet at the following address: <http://www.nps.gov/gwmp/> or <http://>

www.nps.gov/gwmp/pphtml/documents.html.

Comments: If you wish to submit issues or provide input to this initial phase of developing the EIS, you may do so by any one of several methods. In addition to attending scoping meetings, you may mail comments to: Audrey F. Calhoun, Superintendent, George Washington Memorial Parkway, c/o Turkey Run, McLean, Virginia 22101. You may comment via the Internet to GWMP-Superintendent@nps.gov.

Please submit Internet comments as an ASCII file avoiding the use of special characters and any form of encryption. Please also include "Attn: Arlington County and Vicinity Rowing Facility Planning Team" and your name and return address in your Internet message. If you do not receive a confirmation from the system that we have received your Internet message, please contact Park Planner Deborah Feldman at the George Washington Memorial Parkway at (703) 289-2512.

Scoping comments should be received no later than 60 days from the publication of this Notice of Intent. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home addresses from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT:

Superintendent Audrey Calhoun, George Washington Memorial Parkway, c/o Turkey Run Headquarters, McLean, Virginia 22101.

Dated: March 22, 2004.

Terry R. Carlstrom,

Regional Director, National Capital Region, National Park Service.

BILLING CODE 4312-52-M

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 731-TA-1082 and 1083 (Preliminary)]

Chlorinated Isocyanurates From China and Spain

AGENCY: United States International Trade Commission.

ACTION: Institution of antidumping investigations and scheduling of preliminary phase investigations.

SUMMARY: The Commission hereby gives notice of the institution of investigations and commencement of preliminary phase antidumping investigations Nos. 731-TA-1082 and 1083 (Preliminary) under section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act) to determine whether there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from China and Spain of chlorinated isocyanurates, provided for in subheading 2933.69.60 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value. Unless the Department of Commerce extends the time for initiation pursuant to section 732(c)(1)(B) of the Act (19 U.S.C. 1673a(c)(1)(B)), the Commission must reach preliminary determinations in antidumping investigations in 45 days, or in this case by June 28, 2004. The Commission's views are due at Commerce within five business days thereafter, or by July 6, 2004.

For further information concerning the conduct of these investigations and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A and B (19 CFR part 207).

EFFECTIVE DATE: May 14, 2004.

FOR FURTHER INFORMATION CONTACT: Fred Ruggles (202-205-3187), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://>
