

an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation because we are establishing a safety zone.

A final "Environmental Analysis Check List" and a final "Categorical Exclusion Determination" will be available in the docket where indicated under **ADDRESSES**.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191, 195; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

■ 2. Temporarily add § 165.T11–014 to read as follows:

§ 165.T11–014 Safety Zone: San Francisco Bay, California.

(a) *Location.* During the loading of the fireworks barge at Pier 50 in San Francisco, during the transit of the barge to the location of the fireworks display, and until the fireworks display commences, the safety zone will encompass the navigable waters of San Francisco Bay within a radius of 100 feet around and under the fireworks launch barge. During the 15-minute fireworks display, the safety zone will increase in size to encompass the navigable waters of San Francisco Bay within a radius of 1,000 feet around and under the fireworks launch barge, which will be located 500 feet off of Pier 48 in approximate position 37°46'34" N, 122°23'00" W.

(b) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into, transit through, or anchoring within this zone is prohibited unless authorized by the Captain of the Port or his designated representative.

(2) Persons desiring to transit the area of a safety zone may contact the Captain of the Port at telephone number 415–399–3547 or on VHF–FM channel 16 (156.8 MHz) to seek permission to transit the area. If permission is granted, all persons and vessels must comply with the instructions of the Captain of the Port or his designated representative.

(3) All persons and vessels shall comply with the instructions of the Coast Guard Captain of the Port or the designated on-scene patrol personnel. Patrol personnel can be comprised of commissioned, warrant, and petty officers of the Coast Guard onboard Coast Guard, Coast Guard Auxiliary, local, state, and federal law enforcement vessels. Upon being hailed by U.S. Coast Guard patrol personnel by siren, radio, flashing light, or other means, the operator of a vessel shall proceed as directed.

(c) *Effective period.* The safety zone in this section is effective from 10 a.m. until 11:30 p.m. on May 29, 2004.

(d) *Enforcement period.* (1) A 100-foot safety zone will be enforced during

loading operations, scheduled to commence at 10 a.m. (PDT) on May 29, 2004.

(2) A 100-foot safety zone will be enforced while the barge is towed from Pier 50 to the location of the fireworks display approximately 500 feet off of Pier 48. The towing evolution is scheduled to take place between 9 p.m. and 10 p.m. (PDT) on May 29, 2004. (3) The safety zone will increase in size to 1,000 feet, and be enforced during the 15-minute fireworks display, which will commence approximately 5 minutes after the conclusion of the baseball game. The conclusion of the baseball game is tentatively scheduled to occur between 10:30 p.m. and 11 p.m. (PDT) on May 29, 2004.

Dated: May 13, 2004.

Gerald M. Swanson,

Captain, U.S. Coast Guard, Captain of the Port, San Francisco Bay.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MO–194–1194; FRL–7658–5]

Approval and Promulgation of Air Quality Implementation Plans; Missouri Update to Materials Incorporated by Reference

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; notice of administrative change.

SUMMARY: EPA is updating the materials submitted by Missouri that are incorporated by reference (IBR) into the state implementation plan (SIP). The regulations affected by this update have been previously submitted by the state agency and approved by EPA. This update affects the SIP materials that are available for public inspection at the Office of the Federal Register (OFR), Office of Air and Radiation Docket and Information Center, and the Regional Office.

DATES: *Effective Date:* This action is effective May 24, 2004.

ADDRESSES: SIP materials which are incorporated by reference into 40 CFR part 52 are available for inspection at the following locations: Environmental Protection Agency, Region VII, 901 North 5th Street, Kansas City, Kansas 66101; Office of Air and Radiation Docket and Information Center, Room B–108, 1301 Constitution Avenue, NW. (Mail Code 6102T), Washington, DC

20460, and Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Evelyn VanGoethem at (913) 551-7659, or by e-mail at vangoethem.evelyn@epa.gov.

SUPPLEMENTARY INFORMATION: The SIP is a living document which the state can revise as necessary to address the unique air pollution problems in the state. Therefore, EPA from time to time must take action on SIP revisions containing new and/or revised regulations as being part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference Federally-approved SIPs, as a result of consultations between EPA and the Office of Federal Register (OFR). The description of the revised SIP document, IBR procedures and "Identification of plan" format are discussed in further detail in the May 22, 1997, **Federal Register** document.

On June 29, 1999, EPA published a document in the **Federal Register** (64 FR 34717) beginning the new IBR procedure for Missouri. Today EPA is updating the IBR material.

EPA is also making minor corrections to the table in § 52.1320(c) as follows:

On November 26, 2003 (68 FR 66350), EPA updated rules 10-2.390 and 10-5.480. We are correcting the title of the rules in the table.

On May 18, 2000 (65 FR 31491), EPA updated rules 10-5.220, 10-5.295, 10-5.500, 10-5.520, 10-5.530, 10-5.540, and 10-5.550. The table is being corrected to include the missing **Federal Register** citation (65 FR 31491) for each rule.

On August 24, 1994 (59 FR 43480), EPA updated rule 10-5.350. The **Federal Register** page citation is being corrected to read 43480.

On November 30, 2003 (66 FR 59708), EPA updated rule 10-6.400. The table is being corrected to include the missing **Federal Register** citation (66 FR 59708).

On October 13, 1992 (57 FR 46778), EPA rescinded rule 50-2.400 under the heading Missouri Department of Public Safety Division 50—State Highway Patrol Chapter 2—Motor Vehicle Inspection. This rule is being removed from the table.

On April 22, 1998 (63 FR 19825) EPA approved and incorporated by reference revisions to the Kansas City Chapter 8—Air Quality rule Section 8-4. When Sections 8-2 and 8-5 of the Kansas City Air Quality rules were updated and added on December 22, 1999 (64 FR 71666), Section 8-4 was inadvertently removed from the table. We are restoring Section 8-4 into the table. The

table is also being corrected to include the missing **Federal Register** citation (64 FR 71666) for Sections 8-2 and 8-5.

EPA is also making a minor correction to the table in § 52.1320(d). On May 5, 1995 (60 FR 22274), EPA approved consent orders for Doe Run Lead Smelter, Herculaneum, Missouri, numbers (7), (8) and (9) in the table. The **Federal Register** page citation is being corrected to read 22274.

EPA has determined that today's rule falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). Today's rule simply codifies provisions which are already in effect as a matter of law in Federal and approved state programs. Under section 553 of the APA, an agency may find good cause where procedures are "impractical, unnecessary, or contrary to the public interest." Public comment is "unnecessary" and "contrary to the public interest" since the codification only reflects existing law. Immediate notice in the CFR benefits the public by updating citations.

Statutory and Executive Order Reviews

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. For this reason, this action is also not subject to Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001). This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more

Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (65 FR 67249, November 9, 2000). This action also does not have Federalism implications because it does not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act (CAA). This rule also is not subject to Executive Order 13045, "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the CAA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by July 23, 2004. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

■ Chapter I, title 40, Code of Federal Regulations, is amended as follows:

PART 52—[AMENDED]

■ 1. The authority for citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart AA—Missouri

■ 2. In § 52.1320 paragraphs (b), (c), (d) and (e) are revised to read as follows:

§ 52.1320 Identification of plan.

* * * * *

(b) Incorporation by reference.

(1) Material listed in paragraphs (c) and (d) of this section with an EPA approval date prior to April 1, 2004, was approved for incorporation by reference by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Material is incorporated as it exists on the date of the approval, and notice of any change in the material will be published in the **Federal Register**. Entries in paragraphs (c) and (d) of this section with EPA approval dates after April 1, 2004, will be incorporated by reference in the next update to the SIP compilation.

(2) EPA Region VII certifies that the rules/regulations provided by EPA in the SIP compilation at the addresses in

paragraph (b)(3) of this section are an exact duplicate of the officially promulgated state rules/regulations which have been approved as part of the SIP as of April 1, 2004.

(3) Copies of the materials incorporated by reference may be inspected at the Environmental Protection Agency, Region VII, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101; or the EPA, Office of Air and Radiation Docket and Information Center, Room B-108, 1301 Constitution Avenue, NW., (Mail Code 6102T), Washington, DC 20460; or at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

Chapter 6—Air Quality Standards, Definitions, Sampling and Reference Methods, and Air Pollution Control Regulations for the State of Missouri

10-6.010	Ambient Air Quality Standards	4/18/88	7/31/89, 54 FR 31524	The state adopted and submitted a revised ozone standard and a lead standard which EPA never acted on.
10-6.020	Definitions and Common Reference Tables.	5/30/00	3/23/01, 66 FR 16139.	
10-6.030	Sampling Methods for Air Pollution Sources.	10/31/98	4/1/99, 64 FR 15688.	
10-6.040	Reference Methods	07/30/01	10/15/01, 66 FR 52361.	
10-6.050	Start-up, Shutdown, and Malfunction Conditions.	2/28/02	8/27/02, 67 FR 54967.	
10-6.060	Construction Permits Required	4/30/03	8/11/03, 68 FR 47468	Section 9, pertaining to hazardous air pollutants, is not SIP approved.
10-6.065	Operating Permits	4/30/03	9/17/03, 68 FR 54369	The state rule has sections (4)(A), (4)(B), and (4)(H)—Basic State Operating Permits. EPA has not approved those sections. Section (6), Part 70 Operating Permits, has been approved as an integral part of the operating permit program and has not been approved as part of the SIP. The “intermediate source” program in Section (5) is approved, along with other provisions of 10-6.065 on which it relies.
10-6.110	Submission of Emission Data, Emission Fees and Process Information.	8/30/02	11/22/02, 67 FR 70321 ..	Section (5), Emission Fees, has not been approved as part of the SIP.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[PA208-4215a; FRL-7664-8]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; VOC and NO_x RACT Determinations for Two Individual Sources

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is taking direct final action to approve revisions to the Commonwealth of Pennsylvania's State Implementation Plan (SIP). The revisions were submitted by the Pennsylvania Department of Environmental Protection (PADEP) to establish and require reasonably available control technology (RACT) for two major sources of volatile organic compounds (VOC) and nitrogen oxides (NO_x) located in Pennsylvania. EPA is approving these revisions to establish RACT requirements in the SIP in accordance with the Clean Air Act (CAA).

DATES: This rule is effective on July 23, 2004, without further notice, unless EPA receives adverse written comment by June 23, 2004. If EPA receives such comments, it will publish a timely withdrawal of the direct final rule in the *Federal Register* and inform the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by PA208-4215 by one of the following methods:

A. Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

B. E-mail: morris.makeba@epa.gov

C. Mail: Makeba Morris, Chief, Air Quality Planning Branch, Mailcode 3AP21, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103.

D. Hand Delivery: At the previously-listed EPA Region III address. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. PA208-4215. EPA's policy is that all comments received will be included in the public docket without change, including any personal

information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through regulations.gov or e-mail. SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to sections 182(b)(2) and 182(f) of the CAA, the Commonwealth of Pennsylvania (the Commonwealth or Pennsylvania) is required to establish and implement RACT for all major VOC and NO_x sources. The major source size is determined by its location, the classification of that area, and whether it is located in the ozone transport region (OTR). Under section 184 of the CAA, RACT, as specified in sections 182(b)(2) and 182(f) applies throughout the OTR. The entire Commonwealth is

located within the OTR. Therefore, RACT is applicable statewide in Pennsylvania.

II. Summary of the SIP Revisions

On July 2, 2003, PADEP submitted formal revisions to its SIP to establish and impose case-by-case RACT for several major sources of VOC and NO_x. This rulemaking pertains to two of those sources, namely, National Fuel Gas Supply Corporation's Roystone Compressor Station, located in Sheffield, Warren County, Pennsylvania; and Crompton Corporation's facility located in Fairview Township, Butler County, Pennsylvania. These facilities are considered major for NO_x and VOC. The RACT determinations and requirements are included in operating permits issued by PADEP. The RACT requirements imposed by PADEP and submitted to EPA for approval as SIP revisions are described in the following paragraphs.

A. National Fuel Gas Supply Corporation

The National Fuel Gas Supply Corporation (National) operates natural gas compressors and generators at its Roystone Compressor Station located in Sheffield Township, Warren County. The PADEP established and imposed RACT for both NO_x and VOC in operating permit No. OP 62-141F, issued and effective April 1, 2003. Under the conditions of the permit, the allowable NO_x emission rate for Units 1, 2, and 3 shall not exceed 5.3 pounds per hour (lbs/hr) and the allowable NO_x emission rate for Units 4, 5, 6, 7 and 8 shall not exceed 2.5 lbs/hr. The three boilers manufactured by Penneco, Struthers and Peerless; the two Smith Reboilers for Line D and Line L; and the two Pipeline Heaters (Erie L and Line D) are subject to 25 PA Code Section 129.93(c)(1). The RACT emission limitations for these sources are the installation, maintenance and operation of the sources in accordance with the manufacturers specifications. Standby generators 1 and 2 and the Waukesha Air Compressor shall comply with the presumptive RACT requirements as stated in 25 PA Code Section 129.93(c)(5). These units are to be installed, maintained, and operated in accordance with the manufacturer's specifications and good air pollution control practices. Under the conditions of its operating permit for the Roystone station, National must maintain records of the VOC emissions from the Line D and Line L dehydrators. National must maintain records of the actual throughput per day, the actual hours of operation and the glycol circulation rate
