

E. Safety Determination

1. *U.S. population.* As presented previously, the exposure of the U.S. general population to amicarbazone is low, and the risks, based on comparisons to the RfD, are minimal. The margins of safety from the use of amicarbazone are well within EPA's acceptable limits. Arvesta Corporation concludes that there is a reasonable certainty that no harm will result to the U.S. population from aggregate exposure to amicarbazone residues.

2. *Infants and children.* The complete toxicological data base, including the developmental toxicity and two-generation reproduction studies were considered in assessing the potential for additional sensitivity of infants and children to residues of amicarbazone. The developmental toxicity studies in rats and rabbits did not indicate any increased sensitivity of rats or rabbits to *in-utero* exposure to amicarbazone. The two-generation reproduction study did not reveal any increased sensitivity of rats to prenatal or postnatal exposure to amicarbazone. Furthermore, none of the other toxicology studies indicated any data demonstrating that young animals were more sensitive to amicarbazone than adult animals. The data taken collectively clearly demonstrate that application of an FQPA uncertainty for increased sensitivity of infants and children is unnecessary for amicarbazone.

F. International Tolerances

Amicarbazone is registered for use on corn and sugarcane in Brazil. The tolerance for these uses is 0.02 ppm.

Karen Franklin, Attorney, Wireline Competition Bureau, Telecommunications Access Policy Division, (202) 418-7400, TTY (202) 418-0484.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's public notice, CC Docket No. 96-45, DA 03-4113, released December 30, 2003. On September 16, 2003, NPCR, Inc. d/b/a Nextel Partners (Nextel Partners) filed a petition seeking designation as an eligible telecommunications carrier (ETC). Nextel Partners provides commercial mobile radio service and seeks designation as an ETC so that it can receive federal universal service support for its service offered in the State of Florida in rural study areas currently served by GTC, Inc."FL, Frontier Communications' South, ALLTEL Florida, Inc., and Quincey Telephone Company and in non-rural wire centers served by BellSouth Telecommunications, Inc.

Nextel Partners contends that the Florida Public Service Commission (Florida Commission) does not regulate commercial mobile radio service providers for purposes of ETC designations and provides a declaration from the Florida Commission asserting its lack of jurisdiction. Nextel Partners submits that the Commission has jurisdiction under section 214(e)(6) to consider and grant its petition. Nextel Partners also maintains that it satisfies all the statutory and regulatory prerequisites for ETC designation and that its designation as an ETC will serve the public interest.

The petitioner must provide copies of its petition to the Florida Commission. The Commission will also send a copy of this public notice to the Florida Commission by overnight express mail to ensure that the Florida Commission is notified of the notice and comment period.
