

quality standards (NAAQS) for "criteria" air pollutants such as PM. Details of EPA's plans for the review of the NAAQS for PM were initially announced in a previous **Federal Register** notice (62 FR 55201, October 23, 1997). EPA made a first external review draft of the updated *Air Quality Criteria for Particulate Matter* available for review by the Clean Air Act Scientific Advisory Committee (CASAC) and members of the public in October 1999 (64 FR 57884, October 27, 1999). Following that public review period and a meeting of the CASAC in December 1999 (64 FR 61875, November 15, 1999), EPA revised the document as appropriate to incorporate CASAC and public comments, as well as to reflect many new studies on the effects of PM that were not available in time for discussion in the first external review draft.

EPA then made a second external review draft of the *Air Quality Criteria for Particulate Matter* available for CASAC and public review in April 2001 (66 FR 18929, April 12, 2001). Following that public review period and a second CASAC meeting in July 2001 (66 FR 34924, July 2, 2001), EPA again revised the document as appropriate to incorporate changes in response to CASAC and public comments and also made further revisions reflecting new studies on effects of particulate matter that had become available between issuance of the first and second external review drafts.

EPA then made a third external review draft of the *Air Quality Criteria for Particulate Matter* available for CASAC and public review in May 2002 (67 FR 31303, May 9, 2002). Following that public review period and a third CASAC meeting in July 2002 (67 FR 41723, June 19, 2002), EPA again revised the document as appropriate to incorporate revisions in response to CASAC and public comments and also made further revisions reflecting new studies on effects of particulate matter that had become available between issuance of the second and third external review drafts, as well as re-analyses of certain existing studies occasioned after discovery of problems with applications of statistical software.

EPA made a fourth external review draft available for CASAC and public review in June 2003 (68 FR 36985, June 20, 2003). A public meeting with CASAC was held August 25–26, 2003 (68 FR 47061, August 7, 2003), during which CASAC reached closure on Chapters 1,2,3,4,5, and 6, with only relatively minor final revisions to be made. No further public review is requested on these chapters. However,

CASAC did not reach closure on Chapters 7 (toxicology), 8 (epidemiology), and 9 (integrative synthesis), each of which were to be more extensively revised or, in the case of Chapter 9, significantly restructured.

In December 2003, EPA made revised drafts of Chapters 7 and 8 available for CASAC and public review (68 FR 75240, December 30, 2003). These two revised draft chapters were reviewed by CASAC via a publically accessible teleconference call on February 3, 2004 (69 FR 657, January 6, 2004). However, CASAC did not reach closure on Chapters 7 or 8, leading to further revisions of each that are now being released for further public comment and CASAC review.

These three revised draft chapters will be reviewed by CASAC on July 20 and 21, 2004. The date and arrangements for the CASAC meeting were announced in the **Federal Register** on June 9, 2004 (69 FR 32344).
