

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

It has come to CITA's attention that some textile and apparel products may be shipped in excess of 2004 annual quota limits with the expectation that they will be allowed entry on January 1, 2005.

This notice serves to remind interested parties that charges against the limits subject to U.S. bilateral agreements, the Uruguay Round Agreements Act and the Uruguay Round Agreement on Textiles and Clothing (ATC) are by date of export and not date of entry. Shipments exported in 2004 in excess of agreed limits are in violation of the terms of these agreements.

The purpose of this notice is to advise the public that CITA reserves the right under the bilateral agreements, the Uruguay Round Agreements Act and the ATC to deny entry to goods that have been shipped in excess of 2004 limits; or to stage entry in 2005 to merchandise exported during 2004 which exceed the restraint limit(s) established for that period.

A properly completed visa, electronic visa (ELVIS) transmission, Guaranteed Access Level (GAL) certification, or exempt certification will be required for all shipments exported in 2004, regardless of the date of entry into the United States.

Textile and apparel goods that are the product of countries that are members of the World Trade Organization (WTO) and that are exported from the country of origin on or after January 1, 2005 will not require a visa, ELVIS transmission, GAL certification, or exempt certification to enter the United States. For goods that are the product of countries that are not members of the WTO, currently applicable requirements will remain in effect.

D. Michael Hutchinson,

Acting Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-S

CONSUMER PRODUCT SAFETY COMMISSION

Notice of Submission for OMB Review of Collection of Information Approval Extension and Request for Comments—Safety Standard for Multi-Purpose Lighters

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the **Federal Register** of March 30, 2004 (69 FR 16526), the Consumer Product Safety Commission published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) to announce the agency's intention to seek extension of approval of the collection of information in the Safety Standard for Multi-Purpose Lighters. 16 CFR part 1212. No comments were received in response to the March 30, 2004 notice. The Commission now announces that it has submitted to the Office of Management and Budget (OMB) a request for extension of approval of that collection of information without change for a period of three years from the date of approval.

Section 14(a) of the Consumer Product Safety Act (CPSA) (15 U.S.C. 2063(a)) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program.

Section 14(b) of the CPSA authorizes the Commission to issue regulations to prescribe a reasonable testing program to support certificates of compliance with a consumer product safety standard. Section 16(b) of the CPSA (15 U.S.C. 2065(b)) authorizes the Commission to issue rules to require that firms "establish and maintain" records to permit the Commission to determine compliance with rules issued under the authority of the CPSA.

The Commission has issued regulations prescribing requirements for a reasonable testing program to support certificates of compliance with the standard for multi-purpose lighters. These regulations require manufacturers and importers to submit a description of each model of lighter, results of prototype qualification tests for compliance with the standard, and other information before the introduction of each model of lighter into commerce. These regulations also require manufacturers, importers, and private labelers of multi-purpose lighters to establish and maintain records to demonstrate successful completion of all required tests to support the certificates of compliance that they issue. 16 CFR part 1212, subpart B.

The Commission uses the information compiled and maintained by manufacturers, importers, and private

labelers of multi-purpose lighters to protect consumers from risks of accidental deaths and burn injuries associated with those lighters. More specifically, the Commission uses this information to determine whether lighters comply with the standard by resisting operation by young children. The Commission also uses this information to obtain corrective actions if multipurpose lighters fail to comply with the standard in a manner that creates a substantial risk of injury to the public.

OMB approved the collection of information in the certification regulations for multi-purpose lighters under control number 3041-0130. OMB's current approval will expire on July 31, 2004. The Commission is requesting an extension of approval without change for these collection of information requirements.

Additional Information About the Request for Extension of Approval of Information Collection Requirements

Agency address: Consumer Product Safety Commission, Washington, DC 20207.

Title of information collection: Safety Standard for Multi-Purpose Lighters. 16 CFR part 1212.

Type of request: Extension of approval.

General description of respondents: Manufacturers and importers of multi-purpose lighters.

Estimated number of respondents: 100.

Estimated average number of hours per respondent: 100 per year.

Estimated number of hours for all respondents: 10,000 per year.

Estimated cost of collection for all respondents: \$244,800 per year.

Comments: Comments on this request for reinstatement of approval of information collection requirements should be submitted by July 26, 2004, to (1) The Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for CPSC, Office of Management and Budget, Washington, DC 20503; telephone: (202) 395-7340, and (2) the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207. Written comments may also be sent to the Office of the Secretary by facsimile at (301) 504-0127 or by e-mail at cpssc-oss@cpssc.gov.

Copies of this request for renewal of the information collection requirements and supporting documentation are available from Linda Glatz, management and program analyst, Office of Planning and Evaluation, Consumer Product

Safety Commission, Washington, DC 20207; telephone: (301) 504-7671.

Dated: June 15, 2004.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.

DEPARTMENT OF DEFENSE

Office of the Secretary

Defense Intelligence Agency Advisory Board Closed Meeting

AGENCY: Department of Defense, Defense Intelligence Agency.

ACTION: Notice.

SUMMARY: Pursuant to the provisions of Subsection (d) of Section 10 of Pub. L. 92-463, as amended by Section 5 of Pub. L. 94-409, notice is hereby given that a closed meeting of the DIA Advisory Board has been scheduled as follows:

DATES: 23-24 June 2004 (8:30 a.m. to 5 p.m.)

ADDRESSES: ANSER Conference Center, 2900 S. Quincy Street, Suite 800, Arlington, VA

FOR FURTHER INFORMATION CONTACT: Ms. Jane McGehee, Program Manager/Executive Secretary, DIA Advisory Board, Washington, DC., 20340-1328 (703) 693-9567.

SUPPLEMENTARY INFORMATION: The entire meeting is devoted to the discussion of classified information as defined in Section 552b(c)(1), Title 5 of the U.S. Code, and therefore will be closed to the public. The Board will receive briefings and discuss several current critical intelligence issues in order to advise the Director, DIA.

Dated: June 21, 2004.

L. M. Bynum,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

BILLING CODE 5001-06-M

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Intent To Prepare a Draft Supplemental Environmental Impact Statement/ Supplemental Environmental Impact Report for the Pacific Energy Crude Oil Marine Terminal on Pier 400 in the Port of Los Angeles, Los Angeles County, California

AGENCY: U.S. Army Corps of Engineers, Los Angeles District, DoD.

ACTION: Notice of intent.

SUMMARY: USACE and LAHD previously prepared and certified the *Deep Draft Navigation Improvements, Los Angeles and Long Beach Harbors, San Pedro Bay, California Final SEIS/SEIR* (Deep Draft EIS/EIR) that in part analyzed the impacts of creation of Pier 400 from dredge material and the subsequent construction and operation of a new liquid bulk terminal on the new Pier 400 land (USACE and LAHD, 1992). LAHD approved the Deep Draft SEIS/SEIR in its action of November 18, 1992; and the USACE issued a Record of Decision (ROD) on January 21, 1994. The SEIS/SEIR being prepared for this specific action is a supplement to the Deep Draft EIS/EIR. The landside developments will include (1) development and construction of the liquid bulk marine terminal facilities on Pier 400, (2) construction of product storage terminals on Terminal Island and/or other suitable sites, (3) construction of a 42-inch pipeline to connect the Marine Terminal to the Storage Terminals, (4) construction of two 36-inch pipelines from the Storage Terminals to link with an existing 36-inch pipeline running between the ExxonMobil Southwest Terminal on Terminal Island and the Ultramar Liquid Bulk Terminal on Mormon Island (one of the 36-inch pipelines would deliver product to the Exxon/Mobil Southwest Terminal and the other would deliver product to the Ultramar Liquid Bulk Terminal), and (5) construction of a 24-inch pipeline from the Ultramar Terminal to the Ultramar/Valero Refinery located north of the Terminal Island Freeway and south of Anaheim Street.

The primary Federal concern is the dredging and discharging of materials within waters of the U.S. and potential impacts on the human environment. Under section 404 of the Clean Water Act, the Corps is authorized to approve discharges of dredged or fill material into waters of the U.S. Under section 10 of the Rivers and Harbors Act, the Corps

may authorize activities that could affect navigable waters. The Corps is preparing an Environmental Impact Statement (EIS) pursuant to the National Environmental Policy Act (NEPA) prior to deciding whether or not to authorize the Proposed Action. The Corps may ultimately make a determination to permit or deny the Proposed Action, or permit or deny alternatives to the Proposed Action.

Pursuant to the California Environmental Quality Act (CEQA), the Port will serve as Lead Agency for the preparation of an Environmental Impact Report (EIR) for its consideration of development approvals within its jurisdiction. The Corps and the Port have agreed to jointly prepare a Draft SEIS/SEIR in order to optimize efficiency and avoid duplication. The Draft SEIS/SEIR is intended to be sufficient in scope to address Federal, State, and local requirements and environmental issues concerning the proposed activities and permit approvals.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and Draft SEIS/SEIR can be answered by Mr. Joshua Burnam, Corps Project Manager, at 213-452-3294. Comments regarding the scope of the Draft SEIS/SEIR shall be addressed to: U.S. Army Corps of Engineers, Los Angeles District, Regulatory Branch, Attn: File Number 2004-00917-JLB, P.O. Box 532711, Los Angeles, California 90053-2325.

SUPPLEMENTARY INFORMATION:

1. *Project Site and Background Information.* The proposed marine terminal portion of this project would be located on the western side (Face C) and southern side (Face D) of Pier 400 in the Port's Planning Area 9. The currently identified new storage terminal sites would be located on Terminal Island and would also be in the Port's Planning Area 9. The proposed terminal would require approximately 4 million barrels of storage capacity. Five sites within the port (described below) with a total storage capacity of approximately 3.5 million barrels have already been identified. The total storage capacity will be limited to 3.5 million barrels pending identification of other sites in or outside the Port that could accommodate the project, in its entirety or in part, or accommodate the remaining needed capacity (approximately 500,000 barrels). Pacific Energy's anchor customer plans to use 1.0 million barrels of capacity and Pacific Energy would use the other 3.0 million barrels to serve other customers.
