#### ISO New England Inc., et al.; Bangor Hydro-Electric Company, et al.; The Consumers of New England v. New England Power Pool; Notice of Extension of Time

June 28, 2004.

On June 22, 2004, ISO New England Inc. (ISO), and the New England transmission owners (consisting of Bangor Hydro-Electric Company; Central Maine Power Company; New England Power Company; Northeast Utilities Service Company on behalf of its operating companies: The Connecticut Light and Power Company, Western Massachusetts Electric Company, Public Service Company of New Hampshire, Holyoke Power and Electric Company, and Holyoke Water Power Company; NSTAR Electric & Gas Corporation on behalf of its operating affiliates: Boston Edison Company, Commonwealth Electric Company, Canal Electric Company, and Cambridge Electric Light Company; The United Illuminating Company; Vermont Electric Power Company, Inc.; Fitchburg

Gas and Electric Light Company; and Utilil Energy Services, Inc. (collectively New England TOs) submitted a partial compliance filing, as directed by the Commission's Order (Order) issued March 24, 2004, in Docket Nos. RT04-2-000, *et al.*, 106 FERC ¶ 61,280 (2004). The June 22, 2004, filing included a request for an extension of time to file the portion of the compliance filing relating to reversionary interests (and revisions to the Participants Agreement otherwise required in the March 24, 2004, Order.)

The ISO and the New England TOs state that an extension of time is necessary to allow the parties to continue ongoing settlement discussions aimed at resolving outstanding issues in these proceedings.

Upon consideration, notice is hereby given that the date for filing the portion of the compliance filing relating to reversionary interests (and revisions to the Participants Agreement required by the March 24, 2004, Order) is granted to and including August 20, 2004, as requested by ISO New England and New England TOs.

#### Questar Pipeline Company; Notice of Tariff Filing

June 28, 2004.

Take notice that on June 24 2004, Questar Pipeline Company (Questar) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the following tariff sheets, to be effective August 1, 2004:

Thirty-First Revised Sheet No. 5

Original Volume No. 3

Thirty-Eighth Revised Sheet No. 8

Questar states that the revised tariff sheets reflect the Gas Research Institute's instructions to discontinue collecting GRI surcharges effective August 1, 2004.

Questar further states that a copy of this filing has been served upon its customers, the Public Service Commission of Utah and the Public Service Commission of Wyoming.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission,

888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's rules and regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. [Docket No. CP04-347-000]

#### Questar Pipeline Company; Notice of Filing

June 7, 2004.

Take notice that on June 2, 2004, Questar Pipeline Company (Questar), 180 East 100 South, Salt Lake City, Utah 84111, filed in the captioned docket an abbreviated application, pursuant to section 7(c) of the Natural Gas Act (NGA) requesting authority to reconfigure Questar's existing Oak Spring Compressor Station (Oak Spring). Oak Spring is located adjacent to Questar's existing Main Line Nos. 40 and 104 in Carbon County, Utah. The application is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online

Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Questar notes that Oak Spring is part of Questar's southern transmission system and that the station consists of three compressor units previously certificated by the Commission. Questar seeks authorization to reconfigure Oak Spring by placing one existing compressor unit in series with two other existing compressor units. Questar asserts that the configuration will provide an additional 10,000 Dth per day of capacity which will become available for an approximate 12-month period, commencing upon the in-service date of the reconfiguration and terminating upon the in-service date of Questar's proposed Southern System Expansion Project (SSXP).<sup>1</sup> Questar proposed that Oak Spring's reconfiguration will be completed and made available for service by November 1, 2004.

Any questions regarding the application are to be directed to Lenard G. Wright, Director, Federal Regulation, Questar Pipeline Company, 180 East 100 South, P.O. Box 45360, Salt Lake City, Utah 84145-0360.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition

to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

<sup>1</sup> Questar states that the target date for filing the SSXP application with the Commission is September 2004.
