

2004. Any questions concerning either this process or any other aspects of this notice should be directed to the DFO.

The SAB will acknowledge receipt of the nomination and inform nominators of the panel selected. From the nominees identified by respondents to this **Federal Register** notice (termed the "Widecast"), SAB Staff will develop a smaller subset (known as the "Short List") for more detailed consideration. Criteria used by the SAB Staff in developing this Short List are given at the end of the following paragraph. The Short List will be posted on the SAB Web site at: <http://www.epa.gov/sab>, and will include, for each candidate, the nominee's name and biosketch. Public comments on the Short List will be accepted for 21 calendar days. During this comment period, the public will be requested to provide information, analysis or other documentation on nominees that the SAB Staff should consider in evaluating candidates for the Panel.

For the SAB, a balanced review panel (*i.e.*, committee, subcommittee, or panel) is characterized by inclusion of candidates who possess the necessary domains of knowledge, the relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation), and the collective breadth of experience to adequately address the charge. Public responses to the Short List candidates will be considered in the selection of the panel, along with information provided by candidates and information gathered by SAB Staff independently of the background of each candidate (*e.g.*, financial disclosure information and computer searches to evaluate a nominee's prior involvement with the topic under review). Specific criteria to be used in evaluation of an individual subcommittee member include: (a) Scientific and/or technical expertise, knowledge, and experience (primary factors); (b) absence of financial conflicts of interest; (c) scientific credibility and impartiality; (d) availability and willingness to serve; and (e) ability to work constructively and effectively in committees.

Short List candidates will also be required to fill-out the "Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency" (EPA Form 3110-48). This confidential form allows Government officials to determine whether there is a statutory conflict between that person's public responsibilities (which includes membership on an EPA Federal advisory committee) and private

interests and activities, or the appearance of a lack of impartiality, as defined by Federal regulation. The form may be viewed and downloaded from the following URL address: <http://www.epa.gov/sab/pdf/epaform3110-48.pdf>.

In addition to reviewing background material, Panel members will be asked to attend one public face-to-face meeting over the anticipated course of the advisory activity.

Dated: July 23, 2004.

Director, EPA Science Advisory Board Staff Office.

The Agency will discuss its preliminary approach to evaluate contaminants on the CCL 2 and obtain input from meeting participants about the process before making and publishing preliminary regulatory determinations. In addition to discussions about the second round of regulatory determinations, the Agency also plans to provide updates on the Unregulated Contaminant Monitoring project and the Agency's initial efforts in developing the third Contaminant Candidate List (CCL 3).

SUPPLEMENTARY INFORMATION: The purpose of the public meeting is to obtain input from meeting participants about EPA's regulatory determination process before the Agency makes and publishes its preliminary regulatory determinations, as required under the Safe Drinking Water Act (SDWA). SDWA directs the Agency to select five or more contaminants from the CCL and determine whether or not to regulate these contaminants with a National Primary Drinking Water Regulation (NPDWR). EPA published the first CCL containing 60 contaminants in 1998 and made final regulatory determinations for 9 contaminants on the CCL in 2003. On April 2, 2004, EPA announced its preliminary decision to carry over the remaining 51 contaminants on the 1998 CCL as the draft CCL 2. EPA must make regulatory determinations for at least five contaminants on the second CCL by August 2006.

The Agency also plans to provide updates on the Unregulated Contaminant Monitoring project and the Agency's initial efforts in developing the third Contaminant Candidate List (CCL 3).

Those registered by September 3rd will receive background materials prior to the meeting. Please note that attendees will be required to pass

through security checks at the front desk and obtain a visitor's badge. Pre-registration for this meeting will help us facilitate your check-in.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

July 20, 2004.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

FOR FURTHER INFORMATION CONTACT:

Arthur Lechtman, Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554, (202) 418-1465 or via the Internet at Arthur.Lechtman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1059.

OMB Approval Date: 3/2/2004.

Expiration Date: 3/31/2007.

Title: Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems; Amendment of Parts 2 and 25 to Implement the Global Mobile Personal Communications by Satellite (GMPCS) Memorandum of Understanding and Arrangements; Petition of the National Telecommunications and Information Administration to Amend Part 25 of the Commission's Rules to Establish Emissions Limits for Mobile and Portable Earth Stations Operating in the 1610-1660.5 MHz Band.

Form No.: N/A.

Estimated Annual burden: 25 respondents; 75 total annual burden hours; 1-2 hours per respondent.

Needs and Uses: The Commission proposes that Mobile Satellite Service (MSS) carriers subject to the emergency call center requirement (47 CFR 25.284) prepare and submit a report on their plans for implementing call centers no later than three months prior to the call center's effective date (*i.e.*, 12 months after **Federal Register** publication of Revision of the Commission's Rules to Ensure Compatibility With Enhanced 911 Emergency Calling Systems, CC Docket No. 94-102, Amendment of Parts 2 and 25 to Implement the Global Mobile Personal Communications by Satellite (GMPCS) Memorandum of Understanding and Arrangements; Petition of the National Telecommunications and Information Administration to Amend Part 25 of the Commission's Rules to Establish Emissions Limits for Mobile and Portable Earth Stations Operating in the 1610-1660.5 MHz Band, IB Docket No. 99-67, Report and Order and Second Further Notice of Proposed Rulemaking, FCC 03-290 (rel. Dec. 1, 2003)). These advance reports would assist Commission efforts to monitor call center development and provide the public with valuable information about MSS emergency services. In addition, the Commission proposes recordkeeping and reporting requirements that MSS carriers would be subject to after the call center rule's effective date. The Commission proposed that MSS carriers record data on the number of calls that their emergency call centers receive, the number of calls that require forwarding to a Public Safety Answering Point (PSAP), and the success rate in handing off calls to the proper PSAP. Furthermore, the Commission is seeking comment on whether MSS carriers should record and store this information themselves, subject to Commission inspection at any time, or whether MSS carriers should file the information in the form of a report once a year. The collection of call data would allow the Commission to monitor compliance with the call center requirement and track usage trends. The Commission also seeks comment on sunset provisions for any recordkeeping or reporting requirements.

Federal Communications Commission.

Deputy Secretary.
