

alternative method would provide at least the same measure of protection as the existing standard.

2. Drummond Company, Inc.

[Docket No. M-2004-033-C]

Drummond Company, Inc., P.O. Box 10246, Birmingham, Alabama 35202-0246 has filed a petition to modify the application of 30 CFR 75.904 (Identification of circuit breakers) to its Shoal Creek Mine (MSHA I.D. No. 01-02901) located in Jefferson County, Alabama. The petitioner requests a modification of the existing standard to permit the use of an alternative method for identifying circuit breakers and disconnecting devices. The petition proposes to mount the circuit breaker and corresponding receptacle on a panel in a manner that will maintain a physical relationship between the breaker and the receptacle; and to install two permanent labels on each panel that will indicate Circuit #1 and Circuit #2, etc., just above the circuit breaker and the corresponding receptacle that operates the circuit breaker. The petitioner has listed in this petition other procedures that would be followed for implementation of the proposed alternative method. The petitioner proposes to identify labeling on the trailing cable plugs that will indicate that the machine is attached to a particular cable; post signs in strategic locations on the power center that will indicate labeling requirements; provide specific training before the proposed alternative method is implemented to all miners who are designated to verify the instantaneous short circuit settings; and submit proposed revisions for its approved Part 48 training plan to the Coal Mine Safety and Health District Manager for the area in which the mine is located that will specify task training for miners designated to verify the labeling and short circuit settings. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

3. Warrior Coal, LLC

[Docket No. M-2004-034-C]

Warrior Coal, LLC, 57 J.E. Ellis Road, Madisonville, Kentucky 42431 has filed a petition to modify the application of 30 CFR 75.1103-4(a) (Automatic fire sensor and warning device systems; installation; minimum requirements) to its Cardinal Mine (MSHA I.D. No. 15-17216) located in Hopkins County, Kentucky. The petitioner requests a modification of the existing standard to permit the use of an alternative method of compliance for an automatic fire

sensor and warning device system to identify a fire within each belt flight. The petitioner proposes to install a low-level carbon monoxide detecting system as an early warning fire detection system in all belt entries where a monitoring system identifies a sensor location in lieu of identifying each belt flight. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via e-mail to comments@msha.gov, by fax at (202) 693-9441, or by regular mail to the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209. All comments must be postmarked or received in that office on or before September 1, 2004. Copies of these petitions are available for inspection at that address.

Dated at Arlington, Virginia this 20th day of July 2004.

Marvin W. Nichols, Jr.,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4510-43-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before September 1, 2004 to be assured of consideration.

ADDRESSES: Comments should be sent to: OMB Desk Officer for NARA, Office of Management and Budget, New Executive Office Building, Washington, DC 20503; fax: 202-395-5167.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm

at telephone number 301-837-1694 or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on May 13, 2004 (69 FR 26623-26624). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Request for and Record of Pass.

OMB number: 3095-0026.

Agency form number: NA Form 6006.

Type of review: Regular.

Affected public: Individuals or households, business or other for-profit organizations and institutions, and Federal government.

Estimated number of respondents: 1,300.

Estimated time per response: 3 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 65 hours.

Abstract: The collection of information is necessary as a security measure to protect employees, information, and property in NARA facilities and to facilitate the issuance of passes. Use of the form is authorized by 44 U.S.C. 2104. Respondents who are contractors are given a building pass which expires at the end of each fiscal year; those who are volunteers are given a pass valid for 2 years. At the NARA College Park facility, individuals receive an access card with the pass that is electronically coded to permit access to secure zones ranging from a general nominal level to stricter access levels for classified records zones. The access card system is part of the security management system which meets the accreditation standards of the Government intelligence agencies for

storage of classified information, and serves to comply with E.O. 12958, as amended.

Dated: July 27, 2004.

L. Reynolds Cahoon,

Assistant Archivist for Human Resources and Information Services.

BILLING CODE 7515-01-P

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a current valid OMB control number.

1. *Type of submission, new, revision, or extension:* Revision.
2. *The title of the information collection:* 10 CFR part 35, Medical Use of Byproduct Material.
3. *The form number if applicable:* Not applicable.
4. *How often the collection is required:* Reports of medical events, doses to an embryo/fetus or nursing child, or leaking sources are reportable on occurrence. A certifying entity desiring to be recognized by the NRC must submit a one-time request for recognition.

5. *Who will be required or asked to report:* Physicians and medical institutions holding an NRC license authorizing the administration of byproduct material or radiation therefrom to humans for medical use.

6. *An estimate of the number of responses:* The estimated number of annual responses: 242,030 (51,309 responses from NRC licensees + 1,759 recordkeepers and 184,686 responses from Agreement State licensees + 6,332 recordkeepers). Also 23 specialty certification boards are expected to request recognition under the proposed revision of part 35 (amendment of 10 CFR part 35, "Medical Use of Byproduct

Material—Recognition of Specialty Boards").

7. *The estimated number of annual respondents:* 8,091 (1,759 NRC licensees and 6,332 Agreement State licensees).

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 1,113,217 hours (242,030 hours for NRC licensees and 871,059 hours for Agreement State licensees [an average of 138 hours per licensee] and an additional one-time burden of 128 hours for certifying boards).

9. *An indication of whether section 3507(d), Pub. L. 104-13 applies:* Not applicable.

10. *Abstract:* 10 CFR part 35, "Medical Use of Byproduct Material," contains NRC's requirements and provisions for the medical use of byproduct material and for issuance of specific licenses authorizing the medical use of this material. These requirements and provisions provide for the radiation safety of workers, the general public, patients, and human research subjects. 10 CFR part 35 contains mandatory requirements that apply to NRC licensees authorized to administer byproduct material or radiation therefrom to humans for medical use.

The information in the required reports and records is used by the NRC to ensure that public health and safety is protected, and that the possession and use of byproduct material is in compliance with the license and regulatory requirements.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by September 1, 2004. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

OMB Desk Officer,
Office of Information and Regulatory Affairs (3150-0010),
NEOB-10202,
Office of Management and Budget,
Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

The NRC Clearance Officer is Brenda Jo. Shelton, (301) 415-7233.

Dated at Rockville, Maryland, this 26th day of July 2004.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-263]

Nuclear Management Company, LLC; Monticello Nuclear Generating Plant; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from title 10 of the Code of Federal Regulations (10 CFR), part 50, appendix R, section III.G.2.b. for Facility Operating License No. DPR-22, issued to Nuclear Management Company, LLC (NMC), for operation of the Monticello Nuclear Generating Plant (Monticello), located in Wright County, Minnesota. Therefore, as required by 10 CFR 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would authorize an exemption from the automatic fire suppression system requirements of 10 CFR part 50, appendix R, section III.G.2.b. as it applies to Fire Area IV/Fire Zone 1F. Fire Area IV/Fire Zone 1F corresponds to the Monticello torus compartment, located at elevation 896 feet, 3 inches of the reactor building. The proposed action is in accordance with NMC's exemption request of September 15, 2003, as supplemented February 24, 2004.

The Need for the Proposed Action

NMC requested this exemption as a result of internal assessments of the Monticello's Fire Protection Program. NMC determined that the existing exemption from 10 CFR part 50 appendix R, section III.G.2.b (granted in 1983) for the torus compartment did not bound the existing plant configuration and the current Monticello Appendix R safe shutdown analysis. Accordingly, the NMC resubmitted its request for a permanent exemption for this area.
