**FOR FURTHER INFORMATION CONTACT** Craig Goral, Contract Policy Division, GSA (202) 501-3856.

#### **SUPPLEMENTARY INFORMATION:**

##### **A. Purpose**

As a result of the Department of Commerce (Commerce) publishing a final rule in the **Federal Register** implementing Public Law 98-620 (52 FR 8552, March 18, 1987), a revision to FAR Subpart 27.3 to implement the Commerce regulation was published in the **Federal Register** as an interim rule on June 12, 1989 (54 FR 25060). The final rule was published without change on June 21, 1990.

A Government contractor must report all subject inventions to the contracting officer, submit a disclosure of the invention, and identify any publication, or sale, or public use of the invention (52.227-11(c), 52.228-12(c), and 52.227-13(e)(2)). Contractors are required to submit periodic or interim and final reports listing subject inventions (27.303(a); 27.304-1(e)(1)(i) and (ii); 27.304-1(e)(2)(i) and (ii); 52.227-12(f)(7); 52.227-14(e)(3)). In order to ensure that subject inventions are reported, the contractor is required to establish and maintain effective procedures for identifying and disclosing subject inventions (52.227-11, Alternate IV; 52.227-12(f)(5); 52.227-13(e)(1)).

In addition, the contractor must require his employees, by written agreements, to disclose subject inventions (52.227-11(f)(2); 52.227-12(f)(2); 52.227-13(e)(4)). The contractor also has an obligation to utilize the subject invention, and agree to report, upon request, the utilization or efforts to utilize the subject invention (27.302(e); 52.227-11(h); 52.227-12 (h)).

#### **SUPPLEMENTARY INFORMATION:**

##### **A. Purpose**

This information collection complies with Section 6002 of the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6962). RCRA requires the Environmental Protection Agency (EPA) to designate items which are or can be produced with recovered materials. RCRA further requires agencies to develop affirmative procurement programs to ensure that items composed of recovered materials will be purchased

to the maximum extent practicable. Affirmative procurement programs required under RCRA must contain, as a minimum (1) a recovered materials preference program and an agency promotion program for the preference program; (2) a program for requiring estimates of the total percentage of recovered materials used in the performance of a contract, certification of minimum recovered material content actually used, where appropriate, and reasonable verification procedures for estimates and certifications; and (3) annual review and monitoring of the effectiveness of an agency's affirmative procurement program.

The items for which EPA has designated minimum recovered material content standards are (1) cement and concrete containing fly ash, (2) paper and paper products, (3) lubricating oil containing re-refined oil, (4) retread tires, and (5) building insulation products. The FAR rule also permits agencies to obtain pre-award information from offerors regarding the content of items which the agency has designated as requiring minimum percentages of recovered materials. There are presently no known agency designated items.

In accordance with RCRA, the information collection applies to acquisitions requiring minimum percentages of recovered materials, when the price of the item exceeds \$10,000 or when the aggregate amount paid for the item or functionally equivalent items in the preceding fiscal year was \$10,000 or more.

Contracting officers use the information to verify offeror/contractor compliance with solicitation and contract requirements regarding the use of recovered materials. Additionally, agencies use the information in the annual review and monitoring of the effectiveness of the affirmative procurement programs required by RCRA.
