SUPPLEMENTARY INFORMATION: The Council and NMFS intend to prepare a DSEIS in support of a proposed Generic Amendment for Offshore Aquaculture. The DSEIS will also evaluate: best management practices for cage and net-pen facilities, scientific information on the culture of marine fish, and the environmental effects of aquaculture. Alternatives currently under consideration are described in detail in "The Scoping Document for a Generic Amendment to Provide for Regulation of Offshore Marine Aquaculture for Selected Fish." The Council is soliciting public comment on the range of alternatives and scope of issues that should be considered in the DSEIS. Persons may request a copy of the scoping document from the Council (see **ADDRESSES** for contact information).

In accordance with NOAA Administrative Order (NAO) 216-6, Section 502(c)4, the Council previously held eight scoping hearings during February and March 2004 (69 FR 7185) to solicit input from interested parties on proposed actions and alternatives identified in the above-mentioned scoping document. The hearings were held in the following locations: Biloxi, MS; Corpus Christi, TX; Galveston, TX; Key West, FL; Larose, LA; Madeira

Beach, FL; Mobile, AL; and Panama City, FL.

The completed DSEIS associated with the draft Generic Amendment for Offshore Aquaculture will be filed with the Environmental Protection Agency (EPA), announced in the **Federal Register**, and open to public comment for a 45-day period. This procedure is pursuant to regulations issued by the Council on Environmental Quality (CEQ) for implementing the National Environmental Policy Act (NEPA) (and to NAO 216-6 on complying with NEPA and the CEQ regulations).

The Council will consider public comments received on the DSEIS in developing the final supplemental environmental impact statement (FSEIS), and will consider public comments before taking final action on the Generic Amendment for Offshore Aquaculture. The Council will submit both the final amendment and the supporting FSEIS to NMFS for Secretarial review, approval, and implementation under the requirements of the Magnuson-Stevens Fishery Conservation and Management Act.

NMFS will announce, through a notice published in the **Federal Register**, the availability of the final Generic Amendment for Offshore Aquaculture for public review during the Secretarial review period. During Secretarial review, NMFS will also file the FSEIS with the EPA for a final 30-day public comment period. This comment period will be concurrent with the Secretarial review period and will end prior to final agency action to approve, disapprove, or partially approve the final Generic Amendment for Offshore Aquaculture.

NMFS will announce, through a notice published in the **Federal Register**, all public comment periods on

the final Generic Amendment for Offshore Aquaculture, any proposed implementing regulations, and its associated FSEIS. NMFS will consider all public comments received during the Secretarial review period, whether they are on the final Amendment, any proposed regulations, or the FSEIS, prior to final agency action.
