

laundering programs required under the proposed rule must establish and implement policies and procedures that can be reasonably expected to detect and cause the reporting of transactions required under Section 5318(g) of the Bank Secrecy Act and the implementing regulations under that Act. The programs must also establish and implement policies, procedures, and internal controls reasonably designed to achieve compliance with the Bank Secrecy Act and the implementing regulations thereunder. The programs must provide for independent testing for compliance to be conducted by member personnel or by a qualified outside party. The programs must also designate, and identify to the Exchange, a person or persons responsible for implementing and monitoring the day-to-day operations and internal controls of the program and provide prompt notification to the Exchange regarding any change in such designation. In addition, the programs must provide ongoing training for appropriate persons. The proposed rule also states that, in the event any of the provisions of the rule conflict with any of the provisions of another applicable SRO's rule requiring the development and implementation of an anti-money laundering compliance program, the provisions of the member's Designated Examining Authority ("DEA") rule would apply.

III. Discussion and Commission Findings

The Commission finds, for the reasons set forth below, that the proposal is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a registered national securities exchange,⁸ and, in particular, with the requirements of Sections 6(b)(5)⁹ of the Act. Section 6(b)(5) requires, among other things that the rules of a registered national securities exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general to protect investors and the public interest.

The Commission finds that the proposed rule change is consistent with these Sections of the Act. The Commission finds that the NSX has proposed a rule that accurately, reasonably, and efficiently implements the requirements of the PATRIOT Act as it applies to NSX members. Moreover, the Commission finds it appropriate and consistent with the Act for NSX members to follow the anti-money laundering rules of their DEAs to the extent those rules conflict with NSX's. The Commission believes that provision of the NSX rule implementing this approach will avoid confusion and enhance compliance for dual members.

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰ that the proposal SR-NSX-2004-02, as amended, be and hereby is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹¹

Margaret H. McFarland,

Deputy Secretary.
