SUPPLEMENTARY INFORMATION: Western is a Federal power marketing administration, charged with the responsibility of selling electricity generated by power plants operated by the Bureau of Reclamation, the Corps of Engineers, and the International Boundary and Water Commission. Created in 1977 under Section 302 of the Department of Energy Organization Act, Western markets and transmits Federal power resources from various multi-purpose hydroelectric projects to customers in 15 Central and Western States. Western has four Customer Service Regional Offices and the Colorado River Storage Project Management Center, each referred to in the revised Tariff as a Regional Office.

Western is not a public utility under Sections 205 and 206 of the Federal Power Act and is not specifically subject to the requirements of the LGIP and LGIA. Western is a transmitting utility subject to Section 211 of the Federal Power Act as amended by the Energy Policy Act of 1992.

On July 24, 2003, the Commission issued Order No. 2003 requiring all public utilities that own, control, or operate facilities used for transmitting electric energy in interstate commerce to have on file standard procedures and a standard agreement for interconnecting generating facilities capable of producing more than 20 megawatts of power to their transmission facilities. Order No. 2003 requires all public utilities to modify their open access transmission tariffs to incorporate the LGIP and LGIA and requires non-public utilities with a "safe harbor" Tariff to adopt the *pro forma* LGIP and LGIA to retain "safe harbor" status. Western seeks to retain its "safe harbor" status through compliance with the spirit and intent of Order No. 2003, to the extent consistent with applicable law.

The revised Tariff, a summary of changes Western intends to make to its existing Tariff, and information about the tariff process is posted on Western's Web site at <http://www.wapa.gov/oatt.htm>. Western will post comments received at the public meeting or by letter, fax or e-mail to this Web site after the close of the comment period. Responses to comments will also be posted after they are developed.

Western must receive written comments by the end of the informal comment period to ensure they are considered in Western's filing with the Commission.

Dated: October 6, 2004.
