47 CFR Part 73

[DA 04-3230; MB Docket No. 03-5; RM-10393]

Radio Broadcasting Services; Maplesville, AL

AGENCY: Federal Communications
Commission.

ACTION: Final rule.

SUMMARY: In response to a *Notice of Proposed Rulemaking*, 69 FR 34632 (June 22, 2004), issued at the request of Alatron Corporation, Inc., this document grants the allotment of Channel 292A at Maplesville, Alabama, as the community's first local aural transmission service. The coordinates for Channel 292A at Maplesville are 32-41-06 NL and 86-53-30 WL. An engineering analysis has determined that Channel 292A can be allotted at Maplesville at a site 11.6 kilometers (7.2 miles) south of the community. A filing window for Channel 292A at Maplesville, Alabama will not be opened at this time. Instead, the issue of opening a filing window for this channel will be addressed by the Commission in a subsequent order.

DATES: Effective November 29, 2004.

ADDRESSES: Federal Communications
Commission, Washington, DC 20554.

RIN 2700-AD05

Government Property and Miscellaneous Editorial Changes

AGENCY: National Aeronautics and
Space Administration.

ACTION: Final rule.

SUMMARY: This final rule amends the NASA FAR Supplement (NFS) to resolve a conflict in a Government Property clause and change all references to NASA Procedures and Guidelines (NPGs) documents to NASA Procedural Requirements (NPRs) documents. The changes are being made to insure that the applicable property clause gives consistent direction and that correct references are made to NASA requirements documents.

EFFECTIVE DATE: November 2, 2004.

ADDRESSES: Interested parties may submit comments, identified by RIN

number 2700–AD05 via the Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments. Comments may also be submitted to Lou Becker, NASA, Office of Procurement, Contract Management Division (Code HK), Washington, DC 20546. Comments can also be submitted by e-mail to: Lou.Becker@nasa.gov.

FOR FURTHER INFORMATION CONTACT: Lou Becker, NASA, Office of Procurement, Contract Management Division (Code HK), (202) 3584593, e-mail: Lou.Becker@nasa.gov.

SUPPLEMENTARY INFORMATION:

A. Background

The clause at NFS 1852.245–71, and its Alternate I, currently provides conflicting direction regarding delivery of property. A review of the clause revealed that the original intent was for Alternate I to be substituted for direction in the basic clause—not to be additive. Also, based on an agency-wide review of policy directives and requirements, a decision was made to change all of the documents designated as NASA Procedures and Guidelines (NPGs) to reflect the title of NASA Procedural Requirements (NPRs). This final rule changes all references in the NASA FAR Supplement to reflect the proper designation of the documents.

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

This final rule is not expected to have a significant economic impact on a substantial number of small entities with the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because it only corrects or clarifies current guidance and adds no new requirements.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes do not impose recordkeeping or information collection requirements which require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

[Docket No. 040809233–4289–02; I.D. 080304B]

RIN 0648–AR55

Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery and Northeast Multispecies Fishery; Framework 16 and Framework 39

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS implements concurrently Framework 16 to the

Atlantic Sea Scallop Fishery Management Plan (Scallop FMP) and Framework 39 to the Northeast Multispecies FMP (Multispecies FMP) (Joint Frameworks) developed by the New England Fishery Management Council (Council). The Joint Frameworks establish Scallop Access Areas within Northeast (NE) multispecies Closed Area I (CAI), Closed Area II (CAII), and the Nantucket Lightship Closed Area (NLCA). The NE multispecies closed areas are closed year-round to all fishing that is capable of catching NE multispecies, including scallop fishing. The Joint Frameworks allow the scallop fishery to access the scallop resource within portions of the NE multispecies closed areas during specified seasons, and ensure that NE multispecies catches by scallop vessels are consistent with the Multispecies FMP. The Joint Frameworks also revise the Essential Fish Habitat (EFH) closed areas implemented under Amendment 10 to the Scallop FMP (Amendment 10) in order to make the areas consistent with the EFH closures under the Multispecies FMP, as established by Amendment 13 to the Multispecies FMP (Amendment 13).

DATES: Effective November 2, 2004, except the amendments to §§ 648.10(b)(1)(iv); 648.59(b)(5)(ii), (c)(5)(ii), and (d)(5)(ii); and 648.60(g) which will be effective upon approval of reporting and recordkeeping requirements by OMB and upon subsequent publication in the **Federal Register**.

ADDRESSES: Copies of the Joint Frameworks, their Regulatory Impact Review (RIR), including the Initial Regulatory Flexibility Analysis (IRFA), and the Environmental Assessment (EA) are available on request from Paul J. Howard, Executive Director, New England Fishery Management Council, 50 Water Street, Newburyport, MA 01950. These documents are also available online at <http://www.nefmc.org>. NMFS prepared a Final Regulatory Flexibility Analysis (FRFA), which is contained in the Classification section of the preamble of this rule. Copies of the FRFA and the Small Entity Compliance Guide are available from the Regional Administrator, Northeast Regional Office, NMFS, One Blackburn Drive, Gloucester, MA 01930–2298, and are also available via the Internet at <http://www.nero.nmfs.gov>.

Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in this rule should be submitted to the Regional Administrator at One Blackburn Drive,

SUPPLEMENTARY INFORMATION:

Background

The Joint Frameworks were adopted by the Council on February 24, 2004. The Council initially submitted the Joint Frameworks and associated analyses on April 20, 2004, and a final revised submission was provided to NMFS on July 2, 2004. The Joint Frameworks were developed to establish Scallop Access Areas within the NE multispecies closed areas (CAI, CAII, and NLCA). The regulations that govern these NE multispecies closed areas prohibit fishing for scallops to prevent NE multispecies mortality, as scallop gear is capable of catching NE multispecies. The Scallop Access Area Program allows scallop vessels to have controlled access to these areas in order to harvest appropriately from the large biomass of scallops in the NE multispecies closed areas.

Amendment 10, which was implemented by a final rule published June 23, 2004 (69 FR 35194) contemplated that a controlled access program for the NE multispecies closed areas would be incorporated into the area rotation program through scheduled openings of the areas. However, Amendment 10 did not include the detailed management measures, particularly with respect to NE multispecies bycatch, that were necessary to implement the access program under Amendment 10. In addition, in order to allow controlled access by scallop vessels to the NE multispecies closed areas, complementary action was necessary under the Multispecies FMP. In order to ensure that the management measures included in Amendment 13 and their environmental impacts were considered under the action to allow scallop fishing in the NE multispecies closed areas, the Council delayed action on the Joint Frameworks until Amendment 13 was completed by the Council (Amendment 13 was implemented through a final rule published April 27, 2004 (69 FR 22906)). As a result, the Council and NMFS ensured that the effects of allowing controlled access to the NE multispecies closed areas by the scallop
