

Gaithersburg, MD 20899-8560, or via e-mail to Patrick.Gallagher@nist.gov.

SUPPLEMENTARY INFORMATION: The NIST Center for Neutron Research (NCNR), which is located at the National Institute of Standards and Technology in Gaithersburg, MD, intends to form partnerships, called "Participating Research Teams" (PRT's), to develop and apply advanced cold and thermal neutron beam measurement capabilities at the NCNR to assist crucial and timely U.S. R&D directed toward the production of next-generation fuel cells, hydrogen storage systems, and related materials and components. The partnership agreements will be based upon the statutory technology transfer authorities available to NIST, including the Federal Technology Transfer Act. Under these partnerships, new or existing NCNR neutron-imaging and neutron-scattering instrumentation, which are uniquely sensitive to the transport, behavior, and nanoscale properties of hydrogen and hydrogenous materials, would be developed or upgraded and modified to permit the study of critical materials and devices under conditions that are directly relevant to their use and performance in technological applications.

Organizations participating in a PRT would share the costs of developing and constructing neutron instrumentation and their subsequent operation. In return, PRT members would share access to a portion of the total time available on the capabilities developed under the partnership. At the same time, at least 25% of the total time would be made available to non-PRT U.S. organizations on a competitive, merit-based basis.

The modes of PRT access could be tailored for either individual or joint research, and the subsequent data would be made available to the U.S. science and technology community through open publication in archived and peer-reviewed journals, or in publicly available reports. Proprietary research would require separate approval and the payment of suitable charges by the partnership organizations to assure full cost recovery to the Government, including a commensurate share of the operating expenses of the NCNR.

PRT's will be open to one or more U.S. companies, universities, or government agencies. It is anticipated that PRT agreements will be established for a three-year period, with renewal subject to the requirements and interests of the partnership and the NIST/NCNR. Proposals for PRT's will be evaluated by an internal panel of NCNR/NIST staff on

the basis of technical merit, level of effort, and the statutory mission of NIST and final approval of PRT agreements will be made by the Director, NCNR.

Dated: November 3, 2004.

Hratch G. Semerjian,
Acting Director.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

National Sea Grant Review Panel

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice; correction.

SUMMARY: The Department of Commerce published a document in the **Federal Register** of November 3, 2004, concerning the National Sea Grant Review Panel's notice of public meeting. The document contained an incorrect meeting location.

FOR FURTHER INFORMATION CONTACT: Dr. Francis M. Schuler, 301-713-2445.

Correction

In the **Federal Register** of November 3, 2004, in FR Doc. 04-24538, on page 64033, in the first column, correct the **ADDRESSES** caption to read: On November 17th, The Churchill Hotel, 1914 Connecticut Avenue, Northwest, Washington, DC 20009. On November 18th, Sea Grant Association Office, 1201 New York Avenue, Northwest, 4th Floor Conference Room, Washington, DC 20005.

Louisa Koch,

Deputy Assistant Administrator, Office of Oceanic and Atmospheric Research.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 110204A]

South Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of public hearings.

SUMMARY: The South Atlantic Fishery Management Council (Council) will

convene public hearings regarding a change to the preferred management alternative for consideration under Action 5 in Amendment 6 to the Shrimp Fishery Management Plan (FMP). Action 5 in Amendment 6 proposes the requirement for a Federal penaeid (white, pink, and brown) shrimp permit in order to fish for or possess penaeid shrimp in the South Atlantic Exclusive Economic Zone (EEZ). Public hearings regarding other proposed management actions in Amendment 6 to the Shrimp FMP have been completed.

DATES: The hearing dates are:

1. Monday, November 22, 2004, beginning at 6 p.m. in Charleston, SC.

2. Monday, December 6, 2004, beginning at 6 p.m. in Atlantic Beach, NC.

Written comments, including e-mail comments, will be accepted until 5 p.m. on December 6, 2004.

ADDRESSES: The hearing locations are:

1. Hampton Inn and Suites, 678 Citadel Haven Drive, Charleston, SC 29414; telephone: 843-573-1200; and

2. Sheraton Atlantic Beach Hotel, 2717 W. Fort Macon Road, Atlantic Beach, NC 28512; telephone: 800-624-8875 or 252-240-1155.

Written comments should be sent to Bob Mahood, Executive Director, South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, SC 29407-4699. Comments may also be submitted via e-mail to shrimpcments@safmc.net.

Copies of the public hearing document are available by contacting Kim Iverson, South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, SC 29407-4699; telephone: 843-571-4366 or toll free 866-SAFMC-10.

FOR FURTHER INFORMATION CONTACT: Kim Iverson, South Atlantic Fishery Management Council, One Southpark Circle, Suite 306, Charleston, SC 29407-4699; telephone: 843-571-4366 or toll free 866-SAFMC-10; fax: 843-769-4520; e-mail: kim.iverson@safmc.net.

SUPPLEMENTARY INFORMATION:

Additional hearings are being scheduled because the Council, at its October 2004 meeting, chose a new preferred alternative relevant to Federal penaeid shrimp permits that is more restrictive than earlier alternatives included in the initial round of public hearings. The new preferred alternative removes an earlier exception to the permit that stated:

a valid commercial vessel permit for South Atlantic penaeid shrimp is not required if the shrimp trawler (1) is in transit in the South Atlantic EEZ and (2) no trawl net or try net aboard the vessel is rigged for fishing.

The more restrictive Alternative 4 under Action 5 in Amendment 6 specifies:

For a person aboard a shrimp trawler to fish for penaeid shrimp in the South Atlantic EEZ or possess penaeid shrimp in or from the South Atlantic EEZ, a valid commercial vessel permit for South Atlantic penaeid shrimp must have been issued to the vessel and must be on board. A federal penaeid shrimp permit will be issued to any vessel owner who submits an application.

Alternative 4 and other alternatives are described further in the Council's public hearing document, which is a summary of alternatives for Action 5 in Amendment 6 to the Shrimp FMP (see **ADDRESSES** for information on obtaining the public hearing document).

These meetings will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) by November 19, 2004.

Dated: November 3, 2004.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 110304C]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notification of a proposal for Exempted Fishing Permits to conduct experimental fishing; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator) has made a preliminary determination that the subject Exempted Fishing Permit (EFP) application contains all the required information and warrants further consideration. The Assistant Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Northeast (NE) Multispecies Fishery Management Plan (FMP). However, further review and

consultation may be necessary before a final determination is made to issue the EFP. Therefore, NMFS announces that the Assistant Regional Administrator proposes to recommend that an EFP be issued that would allow one vessel to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP may allow exemptions from the NE multispecies rolling closure areas, minimum mesh size, and the days-at-sea (DAS) effort control program for up to 16 DAS for testing a bycatch reducing gear modification. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before November 24, 2004.

ADDRESSES: Comments on this notice may be submitted by e-mail to: DA564@noaa.gov. Include in the subject line the following document identifier: "Comments on UNH Double Grid Gear Modification EFP Proposal." Written comments may also be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on UNH Double Grid Gear Modification EFP Proposal." Comments may also be sent via fax to (978) 281-9135.

FOR FURTHER INFORMATION CONTACT: Heather Sagar, Fishery Management Specialist, phone (978) 281-9341.

SUPPLEMENTARY INFORMATION: Notice of this proposed project was previously published in the **Federal Register** on September 24, 2004, (69 FR 57269) with the comment period ending on October 12, 2004. However, the exemption for the Gulf of Maine Regulated Mesh Area (RMA) minimum mesh size was inadvertently omitted in that notice.

Bart McNeel, in cooperation with the University of New Hampshire Cooperative Extension (UNH), submitted an application for an EFP on May 21, 2004, for a project that started in 2002. This EFP would authorize one commercial vessel to conduct sea trials using a double grid excluder device. The final phase of this 2-year study would be conducted by UNH with the goal of designing trawl gear through modifications to the grid bar orientations to release sub-legal sized cod and flatfish species incidental to the catch, while retaining fish of marketable size. To accomplish this, the commercial fishing vessel would

conduct trawl net gear trials using the double grid excluder device within the Gulf of Maine and Georges Bank area from 40°30' N. latitude to the coast of Maine, excluding the Western and Eastern U.S./Canada Areas and all groundfish year-round closure areas. An exemption from the minimum mesh size is requested in order to place a small-mesh catch bag over the escape vent in order to quantify the results.

The fishing portion of this study began in March 2002. The applicant requests an exemption from 16 DAS to complete the project during the 2004 fishing year. Based upon the catch rates from eight days of fishing in the 2003 fishing year, the following catch is estimated for the 2004 fishing year: American plaice 992 lb (450 kg); cod 7,200 lb (3,266 kg); haddock 1,376 lb (624 kg); monkfish 2,317 lb (1,051 kg); pollock 144 lb (65 kg); white hake 400 lb (181 kg); and witch flounder 688 lb (312 kg). Estimated discards are estimated to be: American plaice 112 lb (51 kg); cod 5,008 lb (2,272 kg); dogfish 9,008 lb (4,085 kg); herring 2,608 lb (1,183 kg); lobster 32 lb (15 kg); monkfish 48 lb (22 kg); skate 64 lb (29 kg); white hake 2,528 lb (1,147 kg); whiting 800 lb (363 kg); and witch flounder 32 lb (15 kg). All undersized fish would be returned to the sea as quickly as possible. Legal-sized fish that would otherwise have to be discarded would be allowed to be retained and sold within the applicable GOM possession limits. The participating vessel would be required to report all landings in its Vessel Trip Report.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 4, 2004.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
