Background

The FHWA, in cooperation with the Iowa Department of Transportation (Iowa DOT), will prepare an Environmental Impact Statement (EIS) for improvements proposed to Interstate 29 (I-29) from Sioux Gateway Airport/Sergeant Bluff Interchange to the South Dakota State border.

As part of the National Environmental Policy Act (NEPA) process, FHWA will be preparing an EIS to assess the social, economic, and environmental impacts of the proposed project. The EIS will include a reasonable range of alternatives that will address the purpose and need of the project as well as a no-build alternative.

A Public Involvement Plan will be established and will facilitate public involvement through the project development process. The resource agencies will be solicited for their input throughout the life of this project. Throughout the development process, advance notice of the time and place of public meetings and/or hearings will be given in order to provide an opportunity for citizen attendance and comments.

The Siouxland Interstate Metropolitan Planning Council (SIMPCO), along with Iowa Department of Transportation (DOT), and the City of Sioux City conducted a multiphase study to determine the existing conditions and to develop improvement alternatives. The reports that were generated as a result of this study include Evaluation of Existing Conditions, I-29 Corridor Study, Sioux Gateway Interchange to South Dakota Border, February 1993, Development of Alternative Improvement Schemes, I-29 Corridor Study, Sioux Gateway Airport to South Dakota Border, June 1996, Refinement of Selected Improvement Concepts, I-29 Corridor Study, Sioux Gateway Interchange to South Dakota Border, January 1997, and Refinement of Selected Improvement Concepts, I-29 Corridor Study, Sioux Gateway
