SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is issuing a license amendment to Princeton HealthCare System for Materials License No. 29-06750-01, to authorize release of its facility at Princeton House Behavioral Health, 905 Herrontown Road in Princeton, New Jersey for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

II. EA Summary

The purpose of the action is to authorize the release of the licensee's facility at Princeton House Behavioral Health, 905 Herrontown Road in Princeton, New Jersey, for unrestricted use. Princeton HealthCare System was authorized by NRC from July 21, 1993, to use radioactive materials at this site for research and development involving absorption, dilution, metabolism, and excretion studies in humans, in association with Bristol Myers Squibb. In 1998, Princeton HealthCare System ceased operations with licensed materials at the Princeton House Behavioral Health site, and in 2004 requested that NRC release the facility for unrestricted use. Princeton HealthCare System has conducted surveys of the facility and determined that the facility meets the license termination criteria in Subpart E of 10 CFR Part 20.

The NRC staff has prepared an EA in support of the license amendment. The

facility was remediated and surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final status survey submitted by Princeton HealthCare System. Based on its review, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of the residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in Subpart E of 10 CFR Part 20, a Finding of No Significant Impact is appropriate.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the license amendment to release the facility at Princeton House Behavioral Health, 905 Herrontown Road Way in Princeton, New Jersey, for unrestricted use. The NRC staff has evaluated Princeton HealthCare System's request and the results of the surveys and has concluded that the completed action complies with the criteria in Subpart E of 10 CFR Part 20. On the basis of the EA, the NRC has concluded that the environmental impacts from the action are expected to be insignificant and has determined not to prepare an environmental impact statement for the action.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

In Sino Silver Corp.; Order of Suspension of Trading

May 17, 2005.

It appears to the Securities and Exchange Commission that the public interest and the protection of investors require a suspension of trading in the securities of Sino Silver Corp. ("Sino"), trading under the stock symbol SSLV on the Over-the-Counter Bulletin Board ("OTCBB"). The Commission has concerns about the accuracy and completeness of information about Sino contained in press releases and public filings with the Commission relating to a change in control over Sino. In addition, the Commission is concerned that Sino, its affiliates, and others may be engaged in the unlawful distribution of restricted Sino securities through the OTCBB.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of the above listed company.

¹ Investment Company Act Rel. No. 26782 (Mar. 11, 2005) [70 FR 13328 (Mar. 18, 2005)].

Therefore, it is ordered, pursuant to Section 12(k) of the Securities Exchange Act of 1934, that trading in the above listed company is suspended for the period from 9:30 a.m. EST, May 17, 2005 through 11:59 p.m. EST, on May 31, 2005.

By the Commission.
