Exemption Decision

Under 49 U.S.C. 31315 and 31136(e), the FMCSA may renew an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381. This notice addresses Mr. Thomas E. Howard, who has requested renewal of his exemption in a timely manner. The FMCSA has evaluated his application for renewal on its merits and decided to extend the exemption for a renewable two-year period.

This exemption is extended subject to the following conditions: (1) That Mr. Howard have a physical exam every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that Mr. Howard is otherwise physically qualified under 49 CFR 391.41; (2) that Mr. Howard provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that Mr. Howard provide a copy of the annual 3 medical certification to the employer for retention in his driver's qualification file and retain a copy of the certification on his person while driving for presentation to a duly authorized Federal, State, or local enforcement official. The exemption will be valid for two years unless rescinded earlier by the FMCSA. The exemption will be rescinded if: (1) Mr. Howard fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it

was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Basis for Renewing the Exemption

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two-year periods. In accordance with 49 U.S.C. 31315 and 31136(e), Mr. Howard has satisfied the entry conditions for obtaining an exemption from the vision requirements (65 FR 78256; 66 FR 16311; 68 FR 13360). He has requested timely renewal of the exemption and has submitted evidence showing that the vision in his better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of his record of safety while driving with his vision deficiency over the past two years indicates he continues to meet the vision exemption standards. These factors provide an adequate basis for predicting his ability to continue to drive safely in interstate commerce. Therefore, the FMCSA concludes that extending the exemption for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Comments

The FMCSA will review comments received at any time concerning Mr. Howard's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). However, the FMCSA requests that interested parties with specific data concerning his safety record submit comments by August 1, 2005.

In the past the FMCSA has received comments from Advocates for Highway and Auto Safety (Advocates) expressing continued opposition to the FMCSA's procedures for renewing exemptions from the vision requirement in 49 CFR 391.41(b)(10). Specifically, Advocates objects to the agency's extension of the exemptions without any opportunity for public comment prior to the decision to renew, and reliance on a summary statement of evidence to make its decision to extend the exemption of each driver.

The issues raised by Advocates were addressed at length in 69 FR 51346 (August 18, 2004). The FMCSA continues to find its exemption process appropriate to the statutory and regulatory requirements.

Issued on: June 23, 2005.

Associate Administrator, Policy and Program Development.
